Reservations

The primary purpose of the Wellness Center is to serve the Worcester State community in a capacity to increase the overall wellness of community members. These priorities have been established to minimize conflicts and ensure smooth operation of the Wellness Center.

General Priority

The general access priority for the Wellness Center follows the following order. There is the expectation that this priority is used as a baseline, but that all requests that create a conflict are met with thoughtful, collegial discussion.

1. Athletics and Wellness
2. University Events
3. Academic Affairs
4. Student Organizations
5. External Organizations

**Programmatic Spaces**

**Batting Cage/Multipurpose Room**

*When Used as Batting Cage:* To ensure the safe and efficient usage of the batting cage these rules must be adhered to at all times during use. Individuals and/or teams observed to be in violation of rules are subject to loss of privilege, as deemed appropriate by Worcester State University.

**CAUTION!** Injuries could result from the use of this cages and equipment. Users assume the inherent risks of batting baseballs and softballs. If users have any questions about the use of this device or the inherent risks associated with the use of this device, ask the front desk before using the cages.

Failure to follow these rules will result in loss of batting cage privileges.

All general Wellness Center rules apply to the batting cages, including the following cage specific guidelines:

**General Rules**

The front desk employee will be responsible for the opening and closing of the space. Varsity baseball and softball student-athletes may use the cage in pairs when it is available but will gain access via the front desk employee. Individuals wishing to borrow equipment must be current Wellness Center members. No individual should be gathering up balls when another individual is hitting. Only two (2) people are allowed in the batting cage at any one time. Users waiting their turn shall do so outside the batting cage away from the netting.

- One individual pitching (behind the screen)
- One individual batting (in designated batter’s box)
- A third individual may be in the cage as a catcher if the batter is hitting live pitching. The catcher must be in complete gear.

**Internal Use**

The batting cages are for use by Worcester State varsity baseball and softball teams. In-season,
varsity athletic team practices will receive priority scheduling. During inclement weather, the schedule may change without notice to accommodate varsity baseball and softball. Recognized campus organizations may also reserve the cages. All users must adhere to rules of the space.

External Use
Policy and process coming soon!

Prior to Use
First time users wishing to use the pitching machine must complete an orientation with a member of the Administrative or Wellness Center staff.

Only authorized adults may run the cage. To be authorized, you must have waiver form completed and on file. An adult must accompany all external users under the age of 18.

Spectators
Spectators and those not batting or pitching need to stand outside of the netted area.

Behavior Expectations
There will be no horseplay allowed in cage. The cage is for use as an instructional and skill development tool only. Abusive use and/or damaging of the batting cages will result in immediate removal and loss of privilege. Adults are responsible for the actions of the youths in the batting cage. Misconduct will result in immediate termination of privileges.

Attire
The batter and catcher will wear protective headgear, and the catcher will wear full catcher’s protective equipment at all times.
No cleats/spikes inside of the batting cage areas are permitted

Equipment
Any equipment malfunctions or emergencies must be reported to the front desk employee. All Worcester State equipment, including, but not limited to, bats, balls and helmets, must be stored in closet. All equipment should be stored outside the cage or behind protective screening to reduce the potential for ricochets. The last team to use the cage is responsible for putting away all equipment.

Pitching (Live/Machine)
Live Pitching is allowed provided L-Screen is used.

Pitching Machine
Only trained Worcester State baseball and softball players and coaches are allowed to use pitching machines. Children are not permitted to feed the pitching machines under any circumstances. The speed of the machine should be set to the appropriate levels for the age of the user. Take practice pitches before inviting the batter into the cage. Adjustments to speed will greatly alter the flight path of the ball. Pitching machine adjustments should not be made with a batter in front of the machine. There is a protective pitching screen provided in the batting cage. It must be used at all times to protect the pitching machine from hit balls. You must use the correct ball for the machine. Machine is to be turned off while balls are being retrieved in the cage.
Post Use

At the conclusion of each session, each team is responsible for cage cleanup. Cleanup includes: picking up all balls and any loose debris. Please be sure to accommodate time for this in your schedule. Upon completion of session, all users must check out at the front desk. Personal belongings and equipment must be kept in the storage systems provided in the space. The netting system in the cage is a safety feature and should not be purposely hit into (i.e. soft toss).

*The use of cell phones while in the cages is prohibited. No "practice swinging" is permitted immediately outside the cage area. The only people swinging a bat are those in the cages.

Note: The batting cage is also a multi-purpose room and is a reservable space. Varsity athletic teams have priority to the space. The space is also used as the visiting locker room for football.

Athlete Locker Rooms

There are eight locker rooms within the Wellness Center. Out of the eight locker rooms four of them are smaller with 20-24 lockers. The other four locker rooms are larger sit in lockers that have 30 lockers within them. Student-athletes will be assigned lockers in a team locker room that they can utilize during their current sport season. Lockers and locker rooms should be kept clean at all times and equipment and personal belongings should be kept in lockers when not in use.

Outside of the lockers should be free from tape, papers, signs, etc. Inspections will take place throughout the season to monitor the condition of the locker rooms. If you have any trouble with your lockers, you can see the equipment room staff for assistance. The Wellness Center staff is not responsible for any lost, stolen, or damaged personal property. - Remember that the locker rooms are private.
- Do not wear muddy shoes or cleats into the locker room.

There are a limited number of lockers available due to the size of the athletic population. Locker rooms will rotate after each season to host a new sport. Certain locker rooms may be on a rotational period each year to allow each team the chance to use the larger locker rooms. Placement of teams in the locker rooms depends on team size, types of equipment the athletes use, and team strategy needs. Since locker rooms will switch from team to team depending on the season, each athlete must make sure they clear their lockers out promptly.

Student-athletes must clear out their assigned lockers no later than **48 hours** after completion of their respective season.
