NJCAA WOMEN’S DIVISION

It is the basic belief of the Women’s Division of the National Junior College Athletic Association (NJCAA) that the athletic programs for women complement the existing programs offered by the NJCAA. The Women's Division is an integral part of the total educational process, which fosters sound educational goals concurrent with those of the member institutions.

Because of the uniqueness of two-year colleges, it is important to provide an organization which provides equal representation throughout the twenty-four elected regional directors for each division. The Women's Division of the NJCAA provides programs which afford opportunities for the participation of all two-year colleges. Through the existing structure of the NJCAA, representatives of both the Men's and Women's Division work together to develop and maintain eligibility rules, which will be applied equally to all athletes, both male and female.

For those two-year colleges seeking an affiliation for their women’s athletic program, the NJCAA offers an organization that can meet the individual needs of all students because it provides national competition for all eligible member schools through regional affiliation.

It is important to emphasize that the Women's Division is dedicated to meeting the needs of all female athletes, providing them with the highest caliber of national competition in a wide range of sports.

NJCAA POSITION PAPER:
Leadership Roles of Women in Two-Year College Athletics

From its inception, the Women's Division of the National Junior College Athletic Association (NJCAA) has fostered among its goals the encouragement, promotion and advancement of all women's athletic programs in the two-year college. In order to ensure progress in meeting these objectives and goals, women of competency and experience, as well as those whose backgrounds have been limited, should not be excluded from leadership roles. As a group, we are strongly opposed to any and all measures which would remove or exclude capable, qualified and/or interested women from assuming those leadership positions relating to women’s athletics. It is a specific concern that the Women's Regional Director’s position be held by a woman.

We would strongly urge all regions of the NJCAA to provide access and input from women within their respective regions at each regional meeting relating to the business and conduct of the Women's Division. In those regions where a few women currently serve in any leadership capacity, we would urge that a conscientious, active and ongoing effort be made to identify, attract and develop the leadership potential of women throughout that region.

It is through these efforts that we hope to expand leadership opportunities, promote conscientious awareness and stimulate further interest on the part of women in the NJCAA and to recognize the significant contributions women can make in the leadership and administration of women's athletics.

NJCAA POSITION STATEMENT ON GENDER EQUITY

The National Junior College Athletic Association (NJCAA) believes in the value of equitable participation and treatment of men and women in intercollegiate athletics and through its structure, programs, legislation and policies will promote these values. The NJCAA will act to encourage its member institutions to assure equity in the quantity and quality of participation in women's athletics throughout its programs. The NJCAA stands with other athletic organizations in believing, at an institutional level, gender equity in intercollegiate athletics describes an environment in which fair and equitable distribution of overall athletic opportunities, benefits and resources is available to women and men and in which student-athletes, coaches and athletic administrators are not subject to gender based discrimination.

An athletic program can be considered equitable when the participants in both the men’s and women's sport programs would accept, as fair and equitable, the overall program of the other gender. No individual should be discriminated against on the basis of gender institutionally, regionally or nationally in intercollegiate athletics.
NJCAA POSITION STATEMENT ON SAFETY

The National Junior College Athletic Association (NJCAA) is committed to protecting the safety and well-being of the athletes that participate in our member schools’ athletic programs. The Health and Safety Committee will propose policies and make recommendations for adoption in the NJCAA bylaws that ensures a safe environment and the safe participation of student-athletes in NJCAA sport programs.

It is the responsibility of each member institution to develop procedures and follow practices that reflect the current standards of student-athlete care and follow the guidelines established in the NJCAA Handbook.

Specific sections of the NJCAA Handbook & Casebook relate to the health and safety of NJCAA student-athletes.

1. Health and Safety Committee members are listed in the Standing Committees, visit mvp.njcaa.org/leadership.
2. Position paper on substance use and abuse.
3. Physical examination requirement.
5. Policy Statement on safety, protective oral/facial equipment, catastrophic insurance, certified athletic trainer, AED units and concussion management plans.

NJCAA POSITION STATEMENT ON COACHING AND ATHLETIC ADMINISTRATOR ETHICS

Coaches and athletic administrators are essential to the National Junior College Athletic Association (NJCAA) and its mission to promote and foster two-year college athletics. The NJCAA recognizes and applauds the professionalism and capability of coaches and athletic administrators throughout the Association.

The goal of this statement is to promote ethical and competent coaching and athletic administration at NJCAA member schools. Such coaching and athletic administration protects athletes and promotes their welfare, while enhancing the quality of NJCAA athletics. The general principles below are intended to assist individual coaches and athletic administrators, and enable member schools to develop further guidelines governing coaching and athletic administration ethics and behavior.

NJCAA requires COMPETENCE.
- Coaches and athletic administrators are competent and knowledgeable in their sport and know their role.
- Coaches and athletic administrators continually seek to maintain and grow their proficiency and knowledge.
- Coaches and athletic administrators are capable of helping athletes and teams succeed and reach their potential.
- Coaches and athletic administrators know their limits and coach within the boundaries of their competence.
- Coaches and athletic administrators act with reasonable care and rely on the knowledge and skill of others when appropriate.

NJCAA requires INTEGRITY.
- Coaches and athletic administrators conduct themselves with integrity and coach ethically regardless of competitive advantage.
- Coaches and athletic administrators obey the rules of their sport, the NJCAA and the law.
- Coaches and athletic administrators promote fair play in practice, competition and recruiting.
- Coaches and athletic administrators recognize their position of authority and do not use that position for personal gain.
- Coaches and athletic administrators do not engage in unlawful harassment or discrimination.
- Coaches and athletic administrators maintain appropriate personal and professional boundaries with their student-athletes and do not engage in improper personal relationships.
- Coaches and athletic administrators avoid both impropriety and the appearance of impropriety.

NJCAA requires RESPECT.
- Coaches and athletic administrators speak and act with respect toward athletes, competitors, officials and others.
- Coaches and athletic administrators respect academics and do not compromise student-athletes’ educational development for athletic gain.
- Coaches and athletic administrators care for athletes and prioritize their safety and well-being over athletics.
- Coaches and athletic administrators promote respect among athletes and teams that they coach.
- Coaches and athletic administrators respect their sport, understand its history and promote its future.
The NJCAA Standards and Ethics Committee has compiled a listing of “best practices” for NJCAA Regions and member colleges.

A. Each Region should discuss/review with its member college:
   1. NJCAA Code of Conduct (Article XX) and Sportsmanship (Article XVIII)
   2. Region policy manual/handbook that adhere to NJCAA Bylaws
   3. Region policies/procedures that may be more stringent than NJCAA Policies
B. Each Region should conduct educational seminars (along with consistent communication with Region members):
   1. For Region/conference compliance workshops
   2. For Athletic Directors, coaches and staff
   3. Officials coordinators
   4. Student-Athletes
C. Game Management Supervision
   1. Game Administrator at all home contests
   2. Staff Administrator at all post-season events
   3. Administrator cannot be a coaching in the contest.
D. Follow NJCAA Ejection reporting procedures and collection of data
   1. NJCAA Ejection Form and online reporting system, per NJCAA Bylaws
   2. Collect and report evaluations from officials and officials coordinators
E. Communication of ejections
   1. Athletic Director report of ejection(s) to their College President should occur

The National Junior College Athletic Association (NJCAA) is the governing body of intercollegiate athletics for two-year colleges. As such, its programs are designed to meet the unique needs of a diverse group of student-athletes who come from both traditional and non-traditional backgrounds and whose purpose in selecting a two-year college may be as varied as their experiences before attending college.

Given this perspective, the NJCAA accepts its responsibility by seeking to provide a competitive environment that is free from drug and substance use and abuse in any form for the purpose of facilitating or enhancing athletic performance by any athlete engaged in competition that is sponsored by the NJCAA.

It is the position of the NJCAA to serve as a resource and referral agency for any athlete, coach or administrator who wishes to secure information relative to the effects, consequences and potential avenues of treatment for substance abuse; to coordinate the efforts of coaches and athletic administrators, in their efforts to serve as educational liaisons for those student-athletes wishing to further their athletic careers at four-year institutions, that are subject to drug testing procedures; and to continue to endorse and encourage efforts on the part of member institutions to educate their athletes to the implications of drug usage, in their lives beyond athletics.

It is a fundamental belief of the NJCAA that athletic participation is a privilege and that those athletes who use illegal performance-enhancing and/or recreational drugs substantively violate that privilege. In response to any violations of this nature that occur and are detected in NJCAA sponsored events, continuation of rights and privileges of participation by the individual or the institution will be reviewed and revoked, as appropriate.

The NJCAA requires of its member institutions the following:

1) Development and implementation of an alcohol, tobacco, drugs and other controlled substances awareness education program for all members of intercollegiate athletic department staff and student-athletes.
2) Development and distribution of an institutional policy statement relative to the use and abuse of alcohol, tobacco, drugs and other controlled substances. This policy statement should address participation and the expectations of the member institution for each intercollegiate athletic department staff member and student-athletes standard of behavior.
3) Development and implementation of a plan for referral, treatment and rehabilitation for all members of intercollegiate athletic department staff members and student-athletes with drug and/or alcohol related problems.
4) By using various resources of individual institutions in response to institutional needs and demands, investigate the feasibility of a complete and comprehensive drug use and abuse screening program.

Substances banned for use by student-athletes competing in NJCAA sponsored events are those found on the NCAA list of banned drug classes. No substance belonging to the prohibited class may be used, regardless of whether it is specifically listed as an example by the NCAA.

ARTICLE XII
TEAM SPORT DISTRICT QUALIFICATION FOR NATIONAL TOURNAMENTS

Section 1. The NJCAA supports a system of National Tournament qualification where geographic representation is the first consideration, providing all regions a path to qualification. Competitive strength of a team or region may be considered provided all qualifiers have earned their tournament berth through the field of play.

Section 2. In all sports where regions are split into two or more districts, it shall be the option of the regions to determine the playoff system for national qualification.

NOTE: In the sports of men’s and women’s soccer, men’s and women’s basketball, baseball, softball and volleyball.

   A. When a team is the only participant in their region, in that sport division, sixty percent (60%) of that teams’ competition must be against NJCAA/NWAC/CACC member schools. In addition, that team must have at least a .500 record (eliminating ties) against those teams (NJCAA/NWAC/CACC). That record must be determined 10 days prior to the start of district play.
   B. The rotation of district playoff sites should occur in proportion to the number of teams participating in each region involved. (Example: Region A has twice as many teams as Region B - the district playoff between these two regions will be held two times in Region A for every one time it is held in Region B).
   C. In a district comprised of multiple regions and any one of those regions has a single participating school, that/those school(s) must participate in a regional tournament consisting of multiple schools. The winner of the overall district playoff will be declared the District Champion. The highest finishing team of each region will be declared that regions champion.
   D. Inclusive of all sports, if the playoff (regional or district) involves two or more regions, the hosting college must have a playing surface and equipment which complies with the NCAA playing rules of that sport. If the host college cannot meet those rules, an alternate site must be found. In addition, the date, location, game management and officials assigned to the playoff must be agreed upon and that written agreement signed by each of the Regional Directors involved.
   E. If the playoff involves teams from only one region, the region must decide whether or not to mandate compliance with the NCAA playing rules of that sport.
   F. If a unanimous decision cannot be made by the regions in a district, the decision will be made by the NJCAA National Office. The National Office’s decision will be final and binding without opportunity for appeal.

Section 3. All regional and district playoff tournaments must be completed by the date established by each respective sport committee. Consideration may be given to allow contests to be played beyond the established district date only in cases where extraordinary circumstances (i.e. – Federal or State emergency, catastrophic event) exist. Requests for consideration may be appealed to the NJCAA Executive Director.

Section 4. In the sport of football a team must meet the following criteria in order to be bowl eligible:
   A. Overall record must be at least .500 (eliminating ties).
   B. At least 50 percent (50%) of a team’s schedule must be against NJCAA member colleges.
   C. Play a minimum of nine (9) games.

Section 5. Any extenuating circumstances in regards to Article XII, Section 1, 2, 3 or 4, which might suggest an exemption from a rule, may be appealed to the NJCAA Executive Committee. Appeals must be received by the NJCAA National Office, in accordance with Article VIII of the NJCAA bylaws (with the exception of the seven (7) calendar day deadline established in Article VIII, Section 3.B) at least seven (7) days prior to the start of district play OR seven (7) days prior to official bowl invitation date established by the Football Committee.

POOL PLAY STANDINGS TEAM TIEBREAKING PROCEDURES

If after pool play, teams are tied for the most points in any pool, the following will apply, in order;

**3 TEAM TIES**

- Goals scored in all pool play games in regulation and OT periods.
- Goals against in all pool play games in regulation and OT periods.

**If at any point in applying the above criteria:**

   - A single team gains an advantage over the other two teams, it advances

Following a 20 minute break, the winning team advances to the 2nd “tiebreaking game” to play the team that received the bye. Any such tiebreaking games are a continuation of pool play and are considered individual games. Any card(s) issued will carry the same penalty(ies) as in any other tournament game.

POOL PLAY STANDINGS

- Team points will be awarded in each game in pool play in the following manner:
  - 3 Points – Victory in regulation time, in an OT period or by advancing after PK’s
  - 0 Points – Loss

After pool play, the team in each pool with the most points will advance to the Semifinals.

POOL PLAY STANDINGS - TEAM TIEBREAKING PROCEDURES

If after pool play, teams are tied for the most points in any pool, the following will apply, in order:

1. Goal differential in all pool play games in regulation and OT periods.
2. Goals scored in all pool play games in regulation and OT periods.
3. Goals against in all pool play games in regulation and OT periods.

**If at any point in applying the above criteria:**
- A single team gains an advantage over the other two teams, it advances.
- A single team is eliminated and two teams remain tied, then immediately revert to head-to-head competition in pool play between the two tied teams. The team that earned three points in pool play advances.

**UNBREAKABLE TIES (3 team)**

If all three teams remain tied after the above criteria are applied, two “tiebreaking games” will be held on day four of the tournament. Immediately after conclusion of play in any pool, all tied teams will flip coins to determine which team receives the bye to the second “tiebreaking game.” The odd coin receives the bye. The other two teams will play a “tiebreaking game” beginning at the start of overtime per NCAA Rules (two 10 minute sudden death overtime periods, followed by PKs). Following a 20 minute break, the winning team advances to the 2nd “tie breaking game” to play the team that received the bye. Any such tiebreaking games are a continuation of pool play and are considered individual games. Any cards issued will carry the same penalty(ies) as in any other tournament game.

**SEMI-FINALS**

Game 13 - highest remaining seed vs. lowest remaining seed
Game 14 - 2nd highest remaining seed vs. 2nd lowest remaining seed
*losers of both semifinal games finish T-3rd

A. The NJCAA mandates that all participating colleges adhere and follow the NCAA Wrestling Rulebook and follow the NCAA Weight Management regulations (NCAA Guidelines – Rule 8) unless stated otherwise in the NJCAA Wrestling bylaws.

B. Conduct all matches according to the rules in the NCAA Wrestling Rulebook. The consolation bracket will determine a third place finisher and shall include all wrestlers defeated in the first and second rounds, as well as defeated wrestlers from the championship quarter and semifinals.

C. Official scales shall be available for at least one hour prior to each official weigh-in. Photo I.D.’s are required for weigh-ins, Tournament Host will be responsible for providing a photo I.D.

D. Official clock, scoreboard and collegiate mats are to be provided by the Tournament Host. In addition, an official riding clock is to be provided for each mat. In accordance with NCAA guidelines, mats shall have a wrestling area between 32 and 42 feet in diameter.

E. The eight District Champions (per weight class) shall be seeded in each bracket according to the designated seeding committee appointed by the NJCAA Wrestling Coaches Association President (each district ranking representative or designee from each district) and by using the guidelines outlined in Rule 3, Conduct of Meets and Tournaments, of the current NCAA Wrestling Rules. In any and all cases where any returning All Americans from the past two years (who are current District Champions) are NOT separated into different half brackets, the lower of the two seeded wrestlers will claim the nearest seed that will separate him from the other returning AA. In the case of three or more returning All Americans from the past two years (who are District Champions), the same process will be used to separate them in any quarter brackets. Once the returning All Americans (who are District Champions) are seeded properly for separation purposes, the bracket placements of the 8 seeded wrestlers will generate a predetermined separation/placement for the remaining automatic qualifiers using a computer program approved by the NJCAA Wrestling Committee. In any bracket with a pigtail, all wrestlers shall have the opportunity to draw for a bye. The priority for assigning wildcard positions will start with the effort to balance the bracket in terms of the bye positions.

The step-by-step approach to the process is as follows:
1. Seed and place eight (8) District Champions according to the NCAA Rulebook and seeding committee.
2. Adjust seeds for lowest seeded returning AA in order to separate any 2 returning AA’s from any half bracket.
3. Adjust seeds for lowest seeded returning AA’s in the case of more than two returning AA’s in any quarter bracket.
4. Generate the automatic placement program of the automatic qualifiers based on the seeding placements of the District Champions.
5. Randomly draw in the remaining wildcard qualifiers balancing out the bracket as much as possible.

F. The tournament schedule will be developed by the host and approved by the NJCAA Wrestling Committee. The approved schedule is shown below:

ARTICLE XVIII - SPORTSMANSHIP

Section 1 - General Sportsmanship Expectations: A basic principle of NJCAA athletic competition is to develop and foster respect for fellow participants, coaches, officials and spectators. Article XVIII applies to all athletic events involving NJCAA member institutions, conferences and/or regions. Sport rulebooks may apply rules and regulations that are more restrictive than those found in this section.

A. Participants will recognize their responsibility for proper conduct before, during and after every contest.
B. Coaches and Athletic Directors will recognize and assume responsibility for the behavior of themselves, players, staff, game management personnel and representatives of the respective NJCAA member institution.

Section 2 - Ejections

A. Violent

A.1. Violent behavior is defined as:
A.1.a. An act in which physical contact or an attempt to make physical contact occurs with the purpose to do damage, harm, intimidate, incite a fight or otherwise injure a player, coach, referee, spectator or game management personnel or damage property.
A.1.b. Engaging in hostile or abusive language or harassment that refers to race, religion, sex, sexual orientation and national origin and/or other threatening language.
A.1.c. An act in which any bench personnel other than the head coach (or in the absence of the head coach the acting head coach) leave the bench area or designated warm-up area when a fight may break out or has broken out.

A.2. Penalties - The following penalties will be assessed if a game official ejects a player, coach, team personnel, staff member, or game management personnel for violent unsportsmanlike behavior:
A.2.a. Immediate ejection and removal from the venue as defined by sight and sound.
A.2.b. Mandatory ejection and removal from the venue for any bench personnel other than the head coach who leaves the bench or designated warm-up area when a fight may break out or has broken out.
A.2.c. A two contest suspension to be served during the next two regularly scheduled or postseason contests. Suspension of a coach or player at the end of a season of play shall carry over to the following season.
A.2.d. Should the player, coach or team personnel be ejected for violent behavior a second time during the season, that individual shall be prohibited from participating in athletic contests of that institution for the remainder of the academic year, including postseason play.
A.2.e. Penalties shall be imposed automatically by the offending institution with suspensions to be in effect for the next two regularly scheduled contests as appearing on the published schedule of the institution at the time of the ejection.
A.2.f. The referee may end the contest.

A.3. Failure to report and/or comply - Failure to report and/or comply will result in:
A.3.a. For the first occurrence, the penalties will double for the offending participant, with the head coach also serving the doubled portion of the penalty and a letter of reprimand shall be sent to the Director of Athletics and the President of the institution.
A.3.b. For the second occurrence, the penalties will double and a sanction of probation shall be given to the offending institution for that sport in that year.
A.3.c. Games played during the time of failure to report and/or failure to comply with Article XVIII, Section 3.A. must be forfeited.

B. Non-Violent

B.1. Definition - Non-violent unsportsmanlike behavior is defined as profanity, vulgar gestures, trash talking, taunting or abusive language directed at players, coaches, referees, game management personnel and/or spectators. The use of tobacco or alcohol during NJCAA sponsored events is prohibited within this rule.

B.2. Penalties - The following penalties will be assessed if a game official ejects a player, coach, team personnel, staff member, or game management personnel for non-violent unsportsmanlike behavior:
B.2.a. Immediate ejection and removal from the venue as defined by sight and sound.
B.2.b. For the first non-violent ejection of the sport season, a one contest suspension to be served during the next regularly scheduled or postseason contest. Suspension of a coach or player at the end of the season of play shall carry over to the following season. For the second non-violent ejection of the sport season, a two game suspension shall be served. For the third non-violent ejection of the sport season, a four game suspension shall be served. Each subsequent ejection will result in a doubling of the suspension previously served.

B.2.c. Penalties shall be imposed automatically by the offending institution with suspensions to be in effect for the next regularly scheduled contest as appearing on the published schedule of the institution at the time of the ejection.

B.3. Failure to report and/or comply - Failure to report and/or comply will result in:

B.3.a. For the first occurrence, the penalties will double for the offending participant, with the head coach also serving the double portion of the penalty and a letter of reprimand shall be sent to the Director of Athletics and the President of the institution.

B.3.b. For the second occurrence, penalties will double and a sanction of probation shall be given to the offending institution for that sport in that year.

B.3.c. Games played during the time of failure to report and/or failure to comply with Article XVIII, Section 3.A. must be forfeited.

C. Ejection of the Head Coach: The game shall be terminated and a forfeit declared if the head coach is ejected and there is no assistant coach or other college staff contractually bound to the institution willing to assume responsibility for the team.

Section 3 - Non-Collegial Incident

A. Definition - Any act or incident not in accordance with Article XVIII, Section 1 and or any sportsmanship situation not appropriately ruled on by the game officials in charge of the contest in accordance with NJCAA bylaws. Examples: multiple ejections, bench clearing altercations, postgame altercations, game official(s) in charge of the contest does not allow the contest to be completed in its entirety.

B. Penalties – Will be administered by the NJCAA National Office on a case by case basis in support of Article XVIII Section 1.

C. Failure to report and/or comply - Failure to report and/or comply will result in:

C.1. For the first occurrence, the penalties will double for the offending participant, with the head coach also serving the double portion of the penalty and a letter of reprimand shall be sent to the Director of Athletics and the President of the institution.

C.2. For the second occurrence, penalties will double and a sanction of probation shall be given to the offending institution for that sport in that year.

C.3. Games played during the time of failure to report and/or failure to comply with Article XVIII, Section 3.A. must be forfeited.

Section 4 – Entering Spectator Area: No player, coach or bench personnel may leave the playing area and enter into the spectator area of the facility to engage in any type of verbal or physical conflict. Penalty for violation of this rule shall be immediate ejection from the contest and suspension from all intercollegiate athletic contests of that institution for the remainder of the academic year including playoffs.

Section 5 – Reporting

A. Single Person Ejections – In the case where a single incident resulted in a single individual being ejected, the report must be communicated to the Regional Director by noon the next business day.

A.1. The Athletic Directors of the member institutions involved in the contest shall notify, in writing, their respective Regional Director (or designee) following the ejection(s) by noon local time of the first business day following the event. (Note: Reporting procedures must be followed for all regular and postseason competition).

A.2. Ejection Reports – Ejection reports of violent ejections will include a written notification to the President with a copy sent to the Athletic Director of the offending college. This notification will be sent by the Regional Director or his/her designee in the region where the college of the offending player or coach resides.

B. Multiple Person Ejections and Non-Collegial Incidents - In the case of an incident where two (2) or more individuals are ejected, in a single incident, or in the case of a Non-Collegial Incident, the report must be communicated to the NJCAA National Office by noon the next business day.

B.1. Game officials do not have to eject players, personnel or a coach to require this report.

B.2. The Athletic Directors of the member institutions involved in the contest shall notify, in writing, the NJCAA Executive Director following any incident which involves two or more individuals by noon local time of the first business day following the incident. (Note: Reporting procedures must be followed for all regular and postseason competition).

B.3. A copy of the report should be sent to the respective Regional Director in addition to the NJCAA Executive Director.

B.4. Details of Report – Multiple Person and Non-Collegial Incident Reports must include a detailed accounting of the following:

B.4.a. Date and location of incident
B.4.b. Names of individuals involved in the incident
B.4.c. Names of schools involved in the incident
B.4.d. Specific details of the incident
B.4.e. Were there any ejections as a result of the incident? If so, provide details.
B.4.f. Is there a video of the incident? If there is a video it should be provided with the report.

C. Regional Director Reporting Structure for Ejections:

C.1. The Regional Director or his/her designee shall keep a record of all ejections in their respective region. The record shall include the name of the person ejected and institution, the date of the ejection, the reason for the ejection and the penalty imposed.

C.2. The Regional Director or his/her designee shall supply an end of the year report of the ejections occurring in the Region. The report shall include the number of ejections and the penalties assessed by sport. Copies of the end of the year report shall be given to the Region, the Sport Committee and the Standards and Ethics Committee by June 15 of that academic year.

Section 6 - Jurisdiction

A. Single person ejections - Region Level
B. Multiple person ejections and Non-Collegial incidents - NJCAA National Office

Section 7 – Appeals

A. Participants in all NJCAA certified sports are subject to the penalties listed for the ejections.
B. There is no appeal of a game(s) suspension resulting from an ejection by a game official except:
   B.1. When there is the college’s irrefutable game video evidence that the wrong student-athlete(s)/coach(s) was ejected. If the wrong student-athlete(s)/coach(s) was ejected, the penalty will be assessed to the student-athlete(s)/coach(s) in violation and he/she will serve the complete suspension.
   B.2. All game suspensions will be in effect during the appeals process.
   B.3. Only the institution of the student-athlete(s)/coach(s) that was ejected can appeal.
   B.4. The NJCAA National Office will rule on all appeals.
   B.5. The level of the ejection cannot be appealed (violent vs. non-violent).
C. There is no appeal of a ruling made by the NJCAA National Office in the case of a non-collegial incident. The NJCAA has a zero-tolerance philosophy when it comes to sportsmanship that is found to be less than the expected standard, and the negative image unsportsmanlike conduct brings to our member colleges and association, when it is exhibited by our student-athletes, coaches and/or personnel. Deleted as of August 1, 2017

Section 8 - Game Officials and Game Management Personnel: An act in which verbal abuse, physical contact or an attempt to make physical contact occurs with the purpose to do damage, harm, intimidate, incite a fight or otherwise injure a game official and/or game management personnel will lead to a suspension for a minimum of two games and a maximum of one year.

Section 9 – Suspensions: Personnel and athletes suspended under these NJCAA rules shall not be allowed in the facility/gym/field/complex before or during the contest and may not coach or participate before the game, during play, or at half-time. Suspended individuals must remain out of sight and sound of and from the venue while serving a suspension.

A. Suspended coaches may travel with the team.
B. Suspended athletes may not travel with the team while serving a suspension.
ARTICLE XIX
RULES OF ORDER FOR CONDUCTING MEETINGS

Section 1. The latest edition of Roberts Rules of Order shall be the manual of procedure for conducting meetings of the NJCAA.

ARTICLE XX
CODE OF CONDUCT FOR ALL NATIONAL EVENTS, CONTESTS AND TOURNAMENTS SPONSORED BY THE NATIONAL JUNIOR COLLEGE ATHLETIC ASSOCIATION

This code of conduct applies to all region, district and national events, contests and tournaments sponsored by the National Junior College Athletic Association. Violations of the code of conduct occurring during the regularly scheduled season events shall be referred to the respective conference or region Standards and Ethics Committee. The jurisdiction of the NJCAA Code of Conduct ends when colleges competing in such tournaments arrive back on their respective campuses.

Code of Conduct

A. Participants shall recognize the responsibility for proper conduct at any national tournament, event or contest sponsored by the NJCAA or its member colleges.

B. Coaches shall recognize and assume responsibility for the actions of themselves and the team members. Each coach who has participants competing in the event shall be responsible for informing each participant about the Code of Conduct.

Behavior

Coaches, players and institutional personnel must remember that they are representatives of an institution of higher learning, its faculty, administration and student body. As such, they are expected to conduct themselves in a manner which would reflect credit on their team, institution, region and the NJCAA. Student-athletes, coaches and institutional personnel who are participating in NJCAA events are subject to all NJCAA rules, regulations and penalties as stated in the NJCAA Handbook as well as local, state and federal laws.

Inappropriate and unacceptable behavior by coaches, players or institutional personnel will not be tolerated before, during, or after contests; at the hotel or in public while representing their college. This Code of Conduct does not replace Article XVIII of the NJCAA Handbook. Unacceptable forms of behavior include, but are not limited to:

1. Fighting
2. Taunting
3. Inappropriate celebration
4. Disrespectful attitude toward opponents, officials, tournament administrators
5. Use of profane and vulgar language
6. Use of tobacco, drugs and/or alcohol (including but not limited to e-cigarettes, vaping, etc.)
7. Disrespectful attitude toward host hotel personnel
8. Unlawful activities
9. Physical abuse or damage to property

Derogatory Comments

Coaches, athletes or institutional personnel shall not make derogatory public comments regarding administration of a tournament or officiating of contests during post game interviews or at other times; to print or broadcast media, in news releases or institutionally produced news releases or under any conditions when their comments may become public. The head coach shall be fully responsible for assuring that no public comments are made by the coaching staff, student-athletes or institutional personnel about officiating, fighting or other incidents which occur during contests.

A coach shall not address or permit anyone in the team area to address uncomplimentary remarks to any game official during the progress of a contest or engage in conduct which might incite student-athletes or spectators against officials.

Reporting

Violations of the Code of Conduct may be reported to the Executive Director of the NJCAA or his/her designee.

Procedures and Penalties

Immediate Action

Where immediate action is needed to alleviate or control a situation, the Executive Director or his/her designee shall have the authority to act at his/her sole discretion. Examples of events which would require immediate action include, but are not limited to, the following:

- Allegation of serious misconduct requiring immediate suspension of institutional personnel or student-athletes from competition.
- Instances where the Executive Director or his/her designee deems it necessary to protect the integrity of the program.
- Protection of the event’s officiating program, particularly in an instance where public comments by an institutional representative may affect competition.
- Any instance or circumstance which might affect the safety of officials, participants or spectators attending the event.

Penalties-Immediate Action

The Executive Director or his/her designee may issue any penalty that he/she believes appropriate to any student-athlete or institutional personnel who has violated the regulations pertaining to conduct when the Executive Director or his/her designee concludes that immediate action is required. The actions of the Executive Director or his/her designee shall be final and binding but shall be reported to the Standards and Ethics Committee within one (1) week.

Timely Action

In cases where immediate action is not required but where sanctions are warranted, the Executive Director or his/her designee may issue the following penalties:

Reprimand: The Executive Director or his/her designee or the NJCAA Standards and Ethics Committee may issue a letter of reprimand to the coach, player or institutional personnel who violates the regulations pertaining to conduct. Copies of the letter of reprimand will be sent to the Director of Athletics and the President of the institution.
Probation, suspension and other penalties: If the misconduct is serious enough, the Executive Director or his/her designee may issue other penalties which may include, but are not limited to, probation, suspension or disqualification of the coach, player or institutional personnel from participating in one or more contests.
The following is a summary of significant bylaws passed at the 2017 NJCAA Board of Directors Meeting, which are binding for the 2017-18 academic year:

**Deadline for Electronic Submission of Eligibility Forms associated to Recertification**
Article V, Section 3.B.2.b will now require that recertification take place prior to the first contest outside of the 20 calendar day window following the end of the previous term. The new wording eliminates the 15 calendar day allowance at the beginning of the academic term to recertify online eligibility in multiple term sports.

**New Procedures for Audits**
Article V, Section 3.B.6 The NJCAA will begin looking at audits in segments. Effective August 1, 2017 audits will be broken down into either Eligibility or LOI/Scholarship segments. In addition, the NJCAA can still request and review full audits which include both segments. Member colleges who have a sport on probation will now have full audits completed on the team on probation plus three other teams. The NJCAA will no longer audit all sports at a college when on probation.

**Allowance to Provide Medical Care for Minor Illnesses**
Article V, Section 7 Member colleges may provide access to medical care for minor illnesses.

**Allowance to Provide Flu Shots**
Article V, Section 7 Member colleges may provide access to Flu Shots on an annual basis to student-athletes.

**Deletion of the Option for an Oral Appeal**
Article VIII, Section 3 The Board of Directors eliminated the option for an oral appeal. The elimination of the oral appeal option was needed as the Executive Committee met in person so few times throughout the year that an oral appeal was not a viable option for many colleges based on when their appeal was needed.

**Creation of a Sanction Review Committee as part of the NJCAA Appeal Process**
Article VIII, Section 3.D.3 The Sanction Review Committee will create a checks and balances of sanctions. The addition of this committee will create an avenue for an alternate sanction as opposed to the “one size fits all” sanction.

**Elimination of the Transfer Tracking Form as a Required Document**
The Board of Directors eliminated the Transfer Tracking Form as a required document. The NJCAA still considers the document highly recommended and the form can still be found on the MVP site under download documents.

**Increased LOI Slots for both Men’s and Women’s Soccer**
Sports Procedures The maximum number of LOIs increased from 18 to 24 for men’s and women’s soccer.

**New Start Date for Wrestling**
Sports Procedures A new start date of October 1st was established. The new start date better coincides with the requirements of the weight management protocol which must be adhered to.

Article I - Membership Dues & Responsibilities

Membership Dues & Responsibilities

Case 1
Date Payable

Effective August 1, 2016, membership dues and membership applications are due to the NJCAA National Office no later than September 15th. Failure to meet this deadline will result in a $500.00 late fee. Member colleges who fail to pay their membership dues by October 1st will not be NJCAA members for the academic year.

Case 2
Probationary Year – Postseason Participation

SITUATION:
An institution accepted for new membership in the NJCAA only fields club teams the first year in the association. Have they met the membership requirement and are they eligible for postseason participation in their second year in the association?

ANSWER:
No, the member college is required to follow all rules and regulations of the association and if they only fielded club programs then they have not adhered to association bylaws as required since they did not have to submit eligibility.

Case 3
NJCAA National Office Contact Policy

SITUATION:
The basketball coach at Community College A calls the NJCAA National Office with an eligibility question. The coach states that his/her athletic director is out of the office. What is the contact policy of the NJCAA National Office regarding this coach’s question?

ANSWER:
The NJCAA National Office’s contact policy is that only three people from each member college may contact the NJCAA National Office: 1. the college president, 2. the athletic director, and 3. the designated representative. If the basketball coach is not one of these three people, the National Office staff will not answer his/her question. The basketball coach would then need to go through one of the three people on the contact list to have their question answered by the NJCAA National Office.

Case 4
Eligibility Compliance Training

Beginning August 1, 2012, all member colleges must attend at least one compliance workshop, conducted by the NJCAA, once every three years to remain in good standing with the NJCAA. Members had until August 2015 to attend their first eligibility seminar. Once they attend their first seminar the three year cycle will begin and the member college is responsible for attending at least one eligibility seminar every three years. Failure to attend an eligibility training session will remove the member college from “Good Standing”. A member college not in “good standing” is not eligible for postseason competition.

Case 5
Off-Campus Facilities

SITUATION:
Community College A does not have its own soccer field on campus. They rent a local field which is a few miles off of campus for their practices and games. May the school conduct off season training at the off campus facility?

ANSWER:
Off campus athletic contact is not permitted between coaches and current players or recruits who have been signed to an NJCAA Letter of Intent in the off season. In the case where a member college does not have their own primary sport facility, they may request, in writing, an exception from the NJCAA National Office to designate the off campus facility as their home facility.

Case 6
Multi-Campus Interpretation

SITUATION:
Multi-campus institutions paying a single NJCAA membership, may allow athletes to participate at a campus while simultaneously being enrolled full-time at another campus, under the following guidelines:
1. The various campuses involved have a common title.
2. The various campuses involved have a common CEO.
3. The various campuses involved are not individually accredited.
4. The various campuses do not duplicate any sports.
5. The various campuses must designate one individual per system as the contact.
6. Multi-campus designation must be approved by the NJCAA.
Case 7
Multi-Campus Participation

SITUATION:
Student-Athlete R enrolls full-time in an NJCAA institution with three campuses. Each campus pays dues to the NJCAA for the upcoming academic year. Basketball is offered on Campus A and on Campus B. Student-Athlete R attends Campus C, which does not offer basketball. May Student-Athlete R participate in basketball at Campus A? May Student-Athlete R participate in basketball at Campus B?

ANSWER:
No, the three campuses do not qualify for the multi-campus designation as they duplicate sports as well as have three independent NJCAA memberships. Student-Athlete R is not eligible to play basketball unless enrolled as a full-time student at either Campus A or Campus B. Student-Athletes must be enrolled in 12 or more credits at the college at which they choose to participate.

Article V - Student-Athlete Eligibility

ACADEMIC ELIGIBILITY

Case 1
NJCAA Grandfather Clause

SITUATION:
Student-Athlete R enrolled in an NJCAA member college during the 2012-2013 academic year, and participated in lacrosse. Student-Athlete R enrolled in the same NJCAA member college during the 2013-2014 academic year, yet did not participate in any NJCAA sanctioned sports. If Student-Athlete R enrolls in a NJCAA member college for the 2017-2018 academic year, which set of academic provisions must Student-Athlete R follow?

ANSWER:
All grandfather clauses from past bylaw changes ended, August 1, 1989. Therefore all NJCAA participants participating in the 2017-2018 academic year must satisfy the academic provisions published in the 2017-2018 NJCAA Handbook and Casebook, regardless of previous participation or when the initial enrollment occurred.

Case 2
Rule of Thumb - Credits

The rule of thumb used in the NJCAA regarding what credits may be used for NJCAA eligibility is if the college or program awarding the credits awards any degrees of higher education (AA through Masters). If they do award degrees of higher education then the credits offered by the college may be used for NJCAA eligibility purposes provided the credits show on an official transcript from the institution.

Usable Credits

Case 1
Usable Credits

SITUATION:
Student-Athlete R takes an online course that is not affiliated with an academic institution. They pass the course and have proof that the course is worth 3 credits. Are those three credits permitted to be used for NJCAA eligibility?

ANSWER:
The fact that the credits were earned from an entity that is not an academic institution, the only way that the credits can be used is if they are transferred to an academic institution and show on the official transcript.

Case 2
High School Advanced Placement Courses

SITUATION:
Student-Athlete R who is a freshman at Community College A has taken several Advanced Placement (AP) courses while in high school and has earned credit for college. Can Community College A accept these courses and count them towards eligibility?

ANSWER:
Yes. As long as these courses are included on an official college transcript, Community College A may accept these courses to use towards Student-Athlete R’s eligibility.

Case 3
Continuing Education Courses

SITUATION:
Under what conditions may Continuing Education courses be utilized for NJCAA eligibility purposes?

ANSWER:
Courses offered through the Continuing Education Department or similar or offered for CEU’s may not be used for NJCAA eligibility purposes.
Case 4
Earned/Passing Credit Hours vs. Attempted Credit Hours

SITUATION:
Student-Athlete R is a first semester freshman and attempts 14 credit hours in his first full-time semester at Community College A. Of the 14 credit hours attempted, Student-Athlete R earns/passes 8 credit hours. Student-Athlete R is a baseball player - is he eligible for participation during the spring term?

ANSWER:
No. Student-Athlete R did not earn/pass 12 or more credit hours to meet NJCAA bylaws. Also, the term must be counted as full-time because he attempted 12 or more credit hours.

NOTE: When establishing eligibility for a student-athlete use the earned/passed credit hours with the corresponding quality points to figure the GPA. NJCAA bylaws refer to “passing” credit hours. The number of full-time terms the student-athlete has been enrolled is figured by the attempted hours in each term. If the student-athlete has attempted (or been enrolled in) 12 or more hours for a term beyond the first 15 calendar days, that term is considered as a full-time term. On transcripts the Attempted Hours (AHRS) and the Earned Hours (EHRS) can sometimes be confusing. Please make sure to keep these two areas separate when establishing a student-athlete’s eligibility.

Case 5
Certificate Programs at Technical or Trade Schools – How to Count Credits

SITUATION:
Student-Athlete R has attended a trade school for a period of time after high school graduation and has earned a certificate as well as 30-credit hours in welding. He is now attending Community College A full-time and wants to participate in athletics. How are these 30-credit hours counted towards his overall eligibility?

ANSWER:
If the welding program is only a certificate program and not a college degree program, the hours earned may not be used for eligibility purposes. Only if the certificate is earned in a college degree program, can those hours be counted towards eligibility.

GPA

Case 1
Computation of GPA

SITUATION:
Community College A calculates the GPA based upon the following scale:

\[
\begin{align*}
A &= 4.00 \\
B+ &= 3.33 \\
C+ &= 2.33 \\
D+ &= 1.33 \\
A- &= 3.67 \\
B &= 3.00 \\
C &= 2.00 \\
D &= 1.00 \\
B- &= 2.67 \\
C- &= 1.67
\end{align*}
\]

Should Community College A use the GPA shown above to file NJCAA eligibility?

ANSWER:
Yes. NJCAA bylaws allow each college to determine the GPA by using the grade point average determination system in place within the college catalog. A pass/fail course may be computed as a “C” grade, if successfully completed. The same for a credit/no-credit course.

Case 2
Rounding the GPA

SITUATION:
Student-Athlete R passed an accumulation of 36 semester credits with a 1.9986 GPA. Can the 1.9986 be rounded up to 2.00 to satisfy the requirements of Article V, Section 2.D.2.e?

ANSWER:
No. In determining the GPA, it is not permissible to round up the computed GPA. The best hours concept may be used but rounding the GPA up is not allowed.

Case 3
Clock Hours

SITUATION:
Some community colleges use clock hours rather than credit hours in determining their student-athletes’ load. Can clock hours be used to satisfy the requirements of this section?

ANSWER:
Yes. These hours count providing the number of clock hours the student-athletes take are equivalent to 12 “credit” hours of college work. Member colleges that use clock hours must submit their plans for conversion to the Office of Eligibility prior to filing their eligibility lists.
Case 4
Conversion of Semester and Quarter Credits

SITUATION:
Section 2.D.3 requires that a student-athlete accumulate 24 semester credit hours or 28/36 quarter credit hours prior to a second season of participation. How does one compute this requirement when a student-athlete has been in attendance at a college which offers quarter credits and another that offers semester credits?

ANSWER:
The proper procedure is to convert the credits from all previous colleges to the same type of credits which the college uses where the student-athlete will be participating.
- The formula for converting quarter credits to semester credits is to multiply 2/3 x quarter credit hours = semester credit hours (2/3 x 36 quarter credit hours = 24 semester credit hours).
- The formula for converting semester credits to quarter credits is to multiply 3/2 x semester credits = quarter credit hours (3/2 x 24 semester credit hours = 36 quarter credits).
- The credits and quality points must all be converted to determine the credit hours and GPA.
- Likewise the number of full-time terms must be adjusted, 2 full-time semesters becomes 3 full-time quarters.

NOTE: The general rule is that the conversion itself cannot make a student-athlete eligible.

Case 5
NJCAA Rules vs. Regional / Conference Rules

SITUATION:
NJCAA Region A wants to implement a rule limiting the number of scholarships allowed for a particular sport which is stricter than the national rule. Is Region A permitted to strengthen this rule and require all region members to abide by the strengthened standards?

ANSWER:
In most instances regions are allowed to implement rules which are more stringent than those in place at the national level. In cases where multiple conferences make up the region, the conference which holds the majority of votes will not be permitted to institute a regional rule solely based on numbers. In order to institute a regional bylaw which is stricter than the national rule in a multi conference region a unanimous vote must be collected in order to adopt the new requirements. The change will not be allowed with a majority vote. Conference membership is voluntary but regional membership is mandatory based on NJCAA membership and a member college may not decline regional membership.

Case 6
College Rules and Athletic Eligibility

SITUATION:
Student-Athletes at Community College A are required to maintain a 2.15 overall GPA in a degree program to be eligible to participate in intercollegiate athletics. The NJCAA does not require an overall 2.15 GPA and Student-Athlete R would like to participate in an NJCAA regional tournament. Is Student-Athlete R eligible to participate if he/she satisfies the academic progress eligibility rules but not the requirements of the college?

ANSWER:
No. A conference or region may establish rules that are more stringent than the NJCAA rules. According to NJCAA bylaws, student-athletes must satisfy the institution rules, conference rules and NJCAA rules to be eligible for athletic participation.

Incomplete Grades

Case 1
Incomplete (I) Grades

SITUATION:
During the first term of college attendance at Community College A, Student-Athlete R initially enrolls in 12 credit hours. At the completion of the term Student-Athlete R passes 9 credit hours and receives an incomplete grade in a 3 credit hour course. Is Student-Athlete R eligible to compete in the intercollegiate athletic program at Community College A during the second term?

ANSWER:
No. Student-Athlete R remains ineligible until the incomplete grade has been completed. There is no deadline for completing this incomplete grade since after completing and passing this class, the incomplete grade on the fall transcript will change to the grade earned by the student. If that incomplete grade, in this case, becomes a passing grade, Student-Athlete R will then have successfully passed 12 hours with a 1.75 GPA or higher from his/her first full-time term, thus satisfying NJCAA bylaws. However, if Student-Athlete R does not pass this class, he/she will remain ineligible. The deadline for adding students to eligibility must be met as well.
**Intersession**

Case 1
Clarification on Winter Intersession Classes and their Completion Deadlines

To further clarify when intersession classes must end in order to use them for eligibility please see the following examples. Please remember that the following is the ruling for winter intersession classes and those classes that may start concurrently with the beginning of the term but are completed before the end of the term.

**SITUATION:**
Community College A has a student-athlete who is ineligible after the fall term and is trying to become eligible for the spring term by satisfying one of the first season academic requirements. The student needs to pass this class. What is the deadline for completing the class in order to use the class for spring term eligibility?

**ANSWER:**
The class must be completed, passed and have a grade posted on or before the “15th calendar day” of the spring term. If these three requirements are satisfied, the course grade may be used for eligibility purposes. The student-athlete becomes eligible when their eligibility is submitted in the NJCAA online system. Again, this class can be used for eligibility if completed, passed and have the grade posted on or before the 15th calendar day of the spring term. Please also remember that if this class is being used for academic progress eligibility for the spring term, the student-athlete cannot use this class towards their full-time status for the spring term, therefore they must be enrolled in an additional 12 credits for the spring term.

However, if the class ends after the 15th calendar day of the spring term or verification of the successful completion of that class is not available on or before the 15th calendar day, then that class cannot be used to establish eligibility for the spring term and the student-athlete will remain ineligible for the term.

The second season academic requirement rule begins with “Prior to a student-athlete’s participation in a second season of participation”. If Community College A has a second season athlete who is trying to satisfy this rule, he/she has until the date the class has been completed with the grade posted and will become eligible at the point of eligibility certification online. This must be met prior to the student-athlete beginning his/her second season of participation.

**EXAMPLE:**
A baseball player is ineligible for the spring term having only earned 21 credit hours. However he meets the previous term requirement of 12/2.00 from the fall term. The spring term starts on January 15 and the baseball season does not start until March 1. A 3 credit hour class that he wants to use for spring eligibility starts on January 15 but does not end until March 10, after the start of the season. This student-athlete remains ineligible until the class has ended with the grade posted and eligibility submitted online. This 3 credit hour class cannot be used for full-time status during the spring term, therefore he will need to enroll in an additional 12 credit hours for the spring term since he is using this class to become eligible for the spring term.

**CLEP Credits**

Case 1
Total CLEP Hours that may be used for NJCAA Academic Progress Eligibility

**SITUATION:**
Student-Athlete R has accumulated 12 credit hours in a foreign language by taking and passing CLEP exams prior to entering college. Can the student-athlete use these credits for NJCAA eligibility? If yes, how many may be used?

**ANSWER:**
A student-athlete may use a maximum of eight (8) credits, per discipline, earned through the CLEP exam process for NJCAA eligibility. In this case the student-athlete is permitted to use eight (8) of the 12 credits earned for NJCAA eligibility purposes. CLEP credits may only be used for accumulation purposes and may not be used to meet enrollment requirements or attributed back to a specific term.

**Case 2**
CLEP Disciplines

As of June 1, 2017 the College Level Examination Program (CLEP) identifies their disciplines as:
1. History & Social Sciences
2. Composition & Literature
4. Business
5. World Languages

**Case 3**
CLEP Tests

**SITUATION:**
Student-Athlete R wants to use CLEP tests to earn college credits towards his degree. How many CLEP credits may Student-Athlete R use towards academic eligibility at the NJCAA?

**ANSWER:**
According to NJCAA Bylaws, “student-athletes may use a maximum of eight (8) earned credits accumulated from passing CLEP examinations for the NJCAA athletic purposes. This limit of eight (8) credits is per discipline.
Case 4  
CLEP Test

**SITUATION:**  
Student-Athlete R is scheduled to take two CLEP tests (6 credits) the first week of the fall term. Is the student–athlete able to use these CLEP tests as part of his/her enrollment requirement for the fall term? If possible they want to take a traditional six (6) credits of classes along with the six (6) credits of CLEP tests and have that count as full-time enrollment for the fall term. Is this permissible?

**ANSWER:**  
No. CLEP exams may not be used for enrollment purposes. If the student passes these courses, they may only be used to meet accumulation rules of NJCAA eligibility.

Case 5  
CLEP Tests

**SITUATION:**  
Student-Athlete R enrolls in eight (8) credit hours of college work and five (5) hours of CLEP tests, to be administered during the term. Is Student-Athlete R eligible to compete during the term?

**ANSWER:**  
No. CLEP hours may not be used to meet enrollment requirements in the NJCAA.

Case 6  
CLEP Tests

**SITUATION:**  
Student-Athlete R enrolls in 12 hours of CLEP tests, to be administered during the term. Is Student-Athlete R eligible to compete during the term?

**ANSWER:**  
No. To maintain a level playing field for all student-athletes, 12 hours of CLEP tests cannot be utilized to meet the full-time enrollment requirement and therefore Student-Athlete R would not be eligible to compete. CLEP hours may not be used to meet enrollment requirements.

Case 7  
Enrollment in CLEP Tests After the 15th Day of Term

**SITUATION:**  
Student-Athlete R initially enrolls in six (6) credit hours in the spring term. 21 days into the term, Student-Athlete R decides he wants to participate in baseball. Subsequently he signs up for and successfully completes a CLEP test worth eight (8) hours. Can Student-Athlete R begin participation in baseball immediately upon the successful completion of the CLEP test?

**ANSWER:**  
No. Student-Athlete R would not be considered a full-time student and therefore would not be eligible for participation in the spring or any term under similar circumstances. CLEP hours may not be used to meet enrollment requirements.

**Multiple Attempts Same Course**

Case 1  
Multiple Passing Attempts in the Same Course (college level)

**SITUATION:**  
Student-Athlete R enrolls in and passes PED 109 (weight training) in three consecutive semesters earning two (2) credits for each passing attempt for a total of six (6) credits. Can all six (6) credits be counted and calculated into the students NJCAA eligibility?

**ANSWER:**  
Only one attempt of the course may be used for NJCAA eligibility purposes. In this case the student could use two (2) credits of the passing grade for their eligibility. Courses which the student has passed cannot be repeated and have it count toward NJCAA eligibility more than once. This rule does not restrict a student from repeating a course and having the repeat course count towards meeting enrollment requirements.

Case 2  
Multiple Attempts in the Same Course

**SITUATION:**  
Student-Athlete R enrolls in and passes PED 109 (weight training), a two (2) credit course, in the fall semester with a grade of “A” earning eight (8) quality points for the course. He/she enrolls in the same course for the spring semester at the direction of his/her coach. Including PED 109 the student is enrolled in 12 credit hours for the spring term. Is Student-Athlete R eligible based on being enrolled as a full-time student?

**ANSWER:**  
Yes. The NJCAA allows a student to repeat a course and have it count to meet the full-time enrollment requirement. If the student passes the course the second time they may only use one attempt of the course to meet academic progress requirements.
Case 3
Repeated Courses

SITUATION:
Student-Athlete R takes an English 101 college credit course during the fall 2016 term and receives a "D" grade. Student-Athlete R takes the same course during the spring 2017 term and receives a "C" grade. The course was three (3) credit hours. How many credit hours may be counted for eligibility purposes?

ANSWER:
Three (3) credit hours may be counted towards the total accumulation of credits. Any class that is completed and a passing grade is received, may only be used once for NJCAA eligibility purposes regardless of it being college level or remedial/developmental.

Foreign Transcripts

Case 1
Interpreting Foreign Transcripts

SITUATION:
Student-Athlete R graduated from high school in their home country in 2016. After high school graduation, she attended Foreign College A in her home country during the 2016-2017 academic year. Student-Athlete R now wants to attend Community College A in the fall of 2017. Where does the responsibility lie for having the transcripts translated from Foreign College A and how are the academic terms, credits and grade equivalents determined?

ANSWER:
If the student-athlete participated in intercollegiate or club athletics at the foreign college/university, transcripts must be translated and provided in order to determine the student-athlete’s eligibility at the NJCAA member college. However, if the student-athlete did not participate, transcripts are not required to be translated or provided for eligibility. You will need to document that the student attended the college prior to the enrollment at the member college.

In the case where foreign transcripts are required for eligibility, the National Office is not responsible for translating foreign transcripts. Community College A is responsible for having the transcripts translated and the academic terms, credits and grades must be used for eligibility.

NOTES:
1. If Student-Athlete R participated in a varsity or collegiate club sport at Foreign College A, that year is considered a year of eligibility and will be counted towards his/her eligibility.

Case 2
Canadian and U.S. Territory Transcripts

SITUATION:
Is it required to provide college transcripts from colleges/universities in Canada or those from the U.S. Territories (Puerto Rico, U.S. Virgin Islands, Guam, etc.) for any transfers regardless of previous participation/non-participation?

ANSWER:
NJCAA bylaws require official transcripts from all Canadian college/universities, college /universities located in U.S territories as well as all domestic colleges and universities. This requirement is regardless of a student’s participation or non-participation in intercollegiate athletics.

Case 3
Interpreting Foreign Transcripts

SITUATION:
Student-Athlete R graduated from high school in their home country in 2016 and the official transcript is in a language other than English. Does the transcript need to be translated and interpreted to determine the student’s eligibility in the NJCAA?

ANSWER:
Yes. The transcript must be translated into English then interpreted by a national educational interpretation group to ensure that it is the equivalent of a domestic high school graduate. Once these two steps are complete, the Registrar at the college should provide a written statement to be included in the student’s eligibility audit file stating that they have reviewed the documents and recognize the student as a high school graduate.

ENTRANCE ELIGIBILITY

High School Graduation

Case 1
Non-High School Graduates

SITUATION:
Community College A permits student-athletes who have not graduated from high school or successfully passed an officially recognized equivalency test to enroll in its college as freshmen student-athletes. Are such student-athletes eligible to compete in the intercollegiate athletic program at Community College A?
ANSWER:
No. Even though such student-athletes have met the entrance requirements of Community College A, they have not fulfilled the requirements of the NJCAA. A student-athlete must be a high school graduate or passed a State Department of Education approved equivalency exam to meet NJCAA eligibility requirements.

Case 2
Graduate of a High School that is Listed on the NCAA’s List of uncleared High Schools

SITUATION:
Student-Athlete R is a graduate of a high school that is listed on the NCAA’s website (www.ncaa.org) that cannot be used for NCAA initial-eligibility purposes. Is Student-Athlete R immediately eligible for NJCAA competition?

ANSWER:
The NJCAA no longer follows the NCAA’s determination on specific high schools. It is the member college’s responsibility to determine if the student is a high school graduate with an academic diploma, general education diploma or a State Department of Education recognized equivalency exam and considered by the member college to be a “high school graduate”.

Case 3
High School Certificate of Completion

SITUATION:
May a Certificate of Completion from a high school be used as a substitute for or equivalent to a high school diploma?

ANSWER:
No. The Certificate of Attendance or Completion cannot be substituted as a high school diploma. Therefore, if a student-athlete has only obtained this certificate and has not successfully graduated from a high school with an academic diploma, general education diploma or a State Department of Education recognized equivalency exam, he/she is ineligible for NJCAA participation.

Case 4
High School Equivalency Tests

SITUATION:
Do non-high school graduates who receive certification signifying that they have successfully passed an equivalency test other than the General Educational Development (GED) test meet the requirements of this Section?

ANSWER:
Yes. Provided the equivalency test is recognized by the State Board of Education and equated to graduation from high school.

Case 5
Delayed High School Diploma

SITUATION:
Are student-athletes eligible to compete in the intercollegiate athletic program at the beginning of the spring semester at Community College A if they complete all requirements for high school graduation at the end of the first semester, but are not issued a high school diploma until the end of the spring semester?

ANSWER:
No. All student-athletes participating in the NJCAA must be high school graduates or have successfully passed an equivalency exam recognized by the State Board of Education.

Case 6
Academically Advanced High School Student

SITUATION:
Student-Athlete R is an advanced student academically and completed their requirements for high school graduation in three years. They have enrolled in Community College A for the fall 2016 term as a full-time student. They will receive their high school diploma and graduate high school June 2017. Are they eligible to participate in NJCAA athletics as an advanced student prior to their official high school graduation?

ANSWER:
No. All participants in the NJCAA must be high school graduates. In this case the student could take and pass a State Department of Education equivalency exam to be eligible for NJCAA sport participation.

Case 7
Eligibility of a Non-High School Graduate

SITUATION:
Student-Athlete R’s high school class graduated in June 2017, however, Student-Athlete R did not graduate from high school as they did not meet the graduation requirements. The student-athlete enrolls full-time in the fall 2017 term and earns 12 hours with a 1.75 GPA. Is Student-Athlete R eligible to compete in the spring 2018 term?

ANSWER:
No. A student-athlete must be a high school graduate with an academic diploma, general education diploma or an equivalency exam recognized by the State Department of Education to meet NJCAA eligibility requirements.
GED / Equivalent

Case 1
GED Test Results Delayed

SITUATION:
Student-Athlete R, a non-high school graduate, passes the General Educational Development (GED) test in August following the June graduation of his/her high school class. The agency that administered the test has regulations which will not permit the awarding of a certificate or diploma until one calendar year following graduation of the applicant’s high school class.

Is Student-Athlete R eligible to compete in the intercollegiate athletic program of Community College A subsequent to the passing of the test, but prior to the lapse of the one year period?

ANSWER:
Yes. Student-Athlete R becomes eligible to compete in the intercollegiate athletic program of Community College A upon his/her successful passing of the GED. The agency must verify the completion of the test in writing and Community College A must maintain this proof in their audit file.

Case 2
GED Test after College Enrollment

SITUATION:
Student-Athlete R, a non-high school graduate, enrolls full-time at Community College A at the beginning of the fall term. During the term, Student-Athlete R successfully passes the GED test. Will it be necessary for Student-Athlete R to wait until the completion of the term to participate?

ANSWER:
No. Student-Athlete R will be eligible immediately upon notification that he/she has passed the test, if all other provisions of the NJCAA rules are satisfied.

Case 3
GED Test after Withdrawing after the First 15 Days of a Term

SITUATION:
Student-Athlete R, a non-high school graduate, enrolls full-time at Community College A in the fall 2016 term. After 15 calendar days, Student-Athlete R withdraws from Community College A. Student-Athlete R takes and passes the GED test during the fall term. If Student-Athlete R enrolls full-time at Community College B for the spring 2017 term, can he/she immediately participate in athletics based on the successful completion of the GED?

ANSWER:
Yes. Since Student-Athlete R did not participate prior to his/her withdrawing during the fall 2016 term, he/she is not a transfer student and the passing of the GED makes the student-athlete automatically eligible for the spring 2017 term. The fall 2016 term should not be counted as a full-time term in this case due to it occurring prior to his/her high school graduation or equivalent.

Case 4
GED before High School Class has Graduated

SITUATION:
Student-Athlete R enters Community College A in the spring 2018 semester, prior to their high school class graduation in June 2018. If Student-Athlete R takes and passes the GED in January 2018 can they become eligible for NJCAA participation prior to the date of their graduating class?

ANSWER:
Yes. If the student-athlete is eligible in accordance with all other rules for NJCAA athletic eligibility, Student-Athlete R can be eligible for NJCAA participation based upon passing the GED or other state department of education approved equivalency exam. A copy of the GED diploma must be kept with the eligibility file for that team.

Home School

Case 1
Home School

SITUATION:
Student-Athlete R is home schooled and desires to participate within the NJCAA. What is the process to determine compliance with the high school graduation requirements within Article V, Section 2.B.2 of the NJCAA bylaws?

ANSWER:
Each state has established guidelines that home school students and parents must abide by. These guidelines vary from state to state. The general rule to follow is:

- In determining NJCAA eligibility, the college will review your high school transcript. The home school high school transcript must clearly display the following information:
  1. Student’s name (first, middle, last) and date of birth.
  2. For each course completed, include the following:
     a. Specific course title.
     b. Units of credit for each.
     c. Time frame or semester in which completed.
     d. Grade received.
  3. Description of grading system used such as a grade scale or grade key.
  4. Graduation date (month/day/year) indicating completion of secondary school education.
5. The home school administrator is the person who organized, taught and evaluated course work. If the home school administrator is not the parent named in item 7 below, include the name of the home school administrator.

6. The following statement, or one very similar, is to appear above the parent signature line described in item 7 below:

   I, the undersigned, do hereby solemnly attest that this student has completed a secondary school education in a home school setting on the date indicated and under the laws governing the state and county in which the home schooling occurred.

7. Name and address of parent or legal guardian with a space for their signature. The transcript is to be signed in the presence of the Notary Public (see item 8 below).

8. The transcript must be notarized; to include:
   a. Notary Public signature
   b. Printed name
   c. Date
   d. State / County
   e. Date commission expires

The transcript must be mailed by the preparer directly to the college Admissions and Records office. If assistance is needed in creating a home school high school transcript, the following website may be helpful: www.hslda.org.

**Case 2**

**Dual Enrollment and Eligibility of a Home Schooled Non-High School Graduate**

**SITUATION:**

Student-Athlete R is home schooled during his/her senior year of high school and enrolls in Community College A during that academic year. What are the requirements for Student-Athlete R to be eligible to participate at Community College A during his/her senior year in home school?

**ANSWER:**

All student-athletes in the NJCAA must be high school graduates with an academic diploma, general education diploma or a state department of education recognized equivalency exam. The fact the student is not yet a high school graduate would prohibit them from participating in the NJCAA.

---

**ENROLLMENT ELIGIBILITY**

**Full-Time Term**

**Case 1**

**Full-Time Term**

**SITUATION:**

Student-Athlete R attends University Z and is enrolled as a full-time student. Student-Athlete R withdraws from University Z on the 20th day of the fall academic term. Student-Athlete R enrolls at the local community college that following spring term. Does Student-Athlete R have a term of full-time enrollment in their academic history?

**ANSWER:**

Yes, due to the fact that the student remained enrolled at University Z beyond the 15th calendar day of the fall term.

**Case 2**

**Determination of Full-Time or Part-Time Status**

**SITUATION:**

Student-Athlete R enrolls in 12 credits hours on the first day of the fall term. On the 14th calendar day of the fall term she is dropped from her classes due to lack of payment. On the 17th calendar day of the term the student pays the tuition bill and re-enrolls in 12 credits. Is this student eligible for participation in the fall term?

**ANSWER:**

Student-Athlete R was eligible for participation up until the time she was dropped from her classes for lack of payment. Once she was dropped on the 14th calendar day of the term she must stop participating immediately. Once she re-enrolls in her courses on the 17th calendar day of the term she has not regained her eligibility as her status as a full-time or part-time student was determined on the 15th calendar day of the term when she was not enrolled as a full-time student. The 15th calendar day is the key in this situation. The NJCAA does not charge a student with a full-time term of attendance if they completely withdraw within the first 15 calendar days of the term. Based on this allowance, the NJCAA cannot recognize any enrollment status that takes place prior to the 15th calendar day of the term.

**Case 3**

**Enrollment by 15th Calendar Day of Term but Arrives on Campus after 15th Day**

**SITUATION:**

The fall term at Community College A begins on September 5th. Student-Athlete R has enrolled in 12 credit hours on September 10th, but is unable to get into the United States and begin attending class until September 25th. Is Student-Athlete R eligible to participate in athletics during the fall term?
ANSWER:
Yes. Article V, Section 2.C.1 requires a student-athlete to be enrolled in full-time status by the 15th calendar day of the term in which the student-athlete chooses to participate. Even though Student-Athlete R is not physically on campus by the 15th calendar day of the fall term, he/she is eligible to compete when the student-athlete arrives on campus because of his/her full-time enrollment by the 15th calendar day of the fall term.

Case 4
Determination of Credit Hours

SITUATION:
Student-Athlete R enrolls in a Psychology course that meets 3 hours a week and carries 3 credit hours, an English course that meets 4 hours a week and carries 4 credit hours and a Drawing course that meets twice a week for 3 hours each session and carries 2 credit hours. Is such student-athlete carrying 9 or 13 credit hours of college work?

ANSWER:
Nine (9). Each college determines the number of credit hours students receive for courses listed in the college catalog.

Case 5
Evening Division

SITUATION:
Are student-athletes who take part in all of their 12 credit hours of college work in the evening division at Community College A eligible?

ANSWER:
Yes. These credits count providing the courses offered in the evening division are the same or equivalent to the courses being offered in the day school curriculum in which the student-athletes are enrolled.

Case 6
Credits by Examination

SITUATION:
At Community College A, students are permitted to take examinations for college credit. Can the credits granted by examination be used for the required 12 credit hours of enrollment for participation in athletics?

ANSWER:
Yes, in part. The credits by examination can be used as part of the 12 credit hours only for the term which the credits are listed on the official transcript. The credit by examination must be taken and approved prior to participation. The NJCAA will not allow a student-athlete to take all 12 credits hours by examination and participate in NJCAA athletics. The examination to determine if credit can be awarded must take place on or after the first day of the official term.

Case 7
Online Courses

SITUATION:
Student-Athlete R enrolls at Community College A in a three (3) credit course that meets three times per week on campus. Student-Athlete R also enrolls in nine (9) additional credits at Community College A which are taught as online courses which the student can participate in while being off campus. Is Student-Athlete R eligible for NJCAA participation with this course load?

ANSWER:
As long as Student-Athlete R was enrolled in these twelve (12) credits within the first 15 calendar days of the term, this enrollment meets the requirement of NJCAA bylaws. All twelve (12) credits are from the one institution and make up a full-time load. The fact that nine (9) of the credits are taught as online courses does not restrict the student-athlete from meeting the enrollment requirement.

Case 8
Dually Enrolled Internet Courses

SITUATION:
Student-Athlete R enrolls in nine (9) credit hours at a NJCAA member college and enrolls in a three (3) credit hour internet course through another college. The NJCAA member college does not recognize and does not place the internet course on their transcript for that term and is in no way affiliated with the second school. Is Student-Athlete R eligible for participation within the term?

ANSWER:
No. Student-Athlete R would not satisfy the full-time enrollment provisions of the NJCAA as they are not enrolled full-time by the 15th calendar day of the term. Enrollment from multiple institutions may not be combined to meet the enrollment requirement of NJCAA bylaws.

Full-Time Enrollment Examples

Case 1
Fall Sport Example

SITUATION:
Student-Athlete R enrolls full-time on or before the 15th calendar day of the fall term and they are a member of the soccer team. The soccer season starts on August 30 and the regular season ends on October 14. Nine (9) of their credit hours start with the beginning of the term and one three (3) credit hour class starts on October 15. Is Student-Athlete R eligible to participate during the entire season?
Case 2

Fall Sport Example

SITUATION:
Student-Athlete R enrolls in 10 hours (part-time) at Community College A for the fall term and then decides on the 20th calendar day of the term that they want to participate in cross country whose season has not yet started. On that same day (20th calendar day) the student adds a three (3) credit hour class. All 13 credits start before the end of the season. Are they eligible for the cross country season?

ANSWER:
No. Because Student-Athlete R was not enrolled full-time on or before the 15th calendar day of the term when the sport starts, they are ineligible for the entire season regardless of the fact that all 13 credit hours start before the end of the cross country season.

Case 3

Two-Term Sport Example (First term)

SITUATION:
Student-Athlete R is a basketball player and they are enrolled in 15 hours for the fall term. Ten (10) of the 15 credit hours start with the beginning of the term and the other five (5) credit hours start on November 1 which is also the date of the first game of the season. Is Student-Athlete R eligible to participate during the entire fall term?

ANSWER:
Yes. Student-Athlete R was enrolled in 12 or more hours on or before the first 15 calendar day of the term and all hours began prior to the end of the term.

Case 4

Two-Term Sport Example (First term)

SITUATION:
Student-Athlete R is a wrestler. He is enrolled in 14 hours on or before the 15th calendar day of the fall term of the wrestling season that starts on October 28th. All 14 credit hours start on November 1. Is he eligible to compete with the start of the season on October 28th?

ANSWER:
Yes. Because the student was enrolled in full-time status on or before the 15th calendar day of the fall term AND because all 14 hours start before the end of the fall term (the season ends in the spring term) he is eligible to compete at the start of the regular season.

NOTE: If Student-Athlete R was not enrolled in 12 or more hours on or before the 15th day of the fall term, he would not be eligible for the fall term.

Case 5

Two-Term Sport Example (Second term)

SITUATION:
The spring term at Community College A started on January 15th and Student-Athlete R is enrolled in 13 credits for the spring term. Seven (7) of those credits started on January 15th and the other six (6) credits start on March 15th. The basketball regular season will end on March 2nd. Is Student-Athlete R eligible to compete during the spring term in basketball?

ANSWER:
No. Student-Athlete R did not have nine (9) or more credits that began prior to the end of the regular season, therefore he/she is ineligible for the spring term. If nine (9) or more of his/her credits started before March 2nd, he/she would have been eligible.

Case 6

Spring Sport Example

SITUATION:
Student-Athlete R is a golfer at Community College A. The spring term started on January 10th and the golf season starts on March 1st. They are enrolled in 12 hours on or before the 15th calendar day of the spring term, however all 12 of their hours start on February 28th. Is Student-Athlete R eligible to compete during the spring term?

ANSWER:
Yes. Because all of their 12 credit hours started on February 28th which is before the end of the regular golf season.

Case 7

12 Hours Starting after the End of the Regular Season

SITUATION:
Student-Athlete R is enrolled full-time on or before the 15th calendar day of the fall term and they are on the soccer team at Community College A. The soccer regular season ends on October 30th, however the team has qualified for the National Tournament that is taking place on November 15th. Student-Athlete R’s 12 credit hours of class do not start until November 5th. Are they eligible to compete during the season?

ANSWER:
No. Because Student-Athlete R’s classes start after the end of the regular season, they are ineligible for the entire season because nine (9) of their credit hours do not start prior to the end of the soccer regular season schedule.
Mini-Courses

Case 1

Mini-Courses

SITUATION:
September 1st is the beginning date of the fall term and Student-Athlete R enrolls full-time by the 15th calendar day of the term. Student-Athlete R’s nine (9) credit hours start on September 1. On October 15th, Student-Athlete R began attending an additional three (3) credit mini-course. Is Student-Athlete R eligible to participate in basketball which begins on November 17th?

ANSWER:
Yes. Because Student-Athlete R enrolled in the mini-course by the 15th calendar day of the term and because the class started before the end of the season, Student-Athlete R is eligible to compete during the fall term of the basketball season.

Case 2

Mini-Courses – Dropping and Adding

SITUATION:
Student-Athlete R enrolls in Community College A as a full-time student on or before the 15th calendar day of the fall term and wants to participate in soccer. After four weeks, Student-Athlete R withdraws from a course and drops to part-time. Community College A offers a mini-course which begins at mid-semester and Student-Athlete R enrolls in the mini-course on October 12th that will again bring his/her status back to full-time. After enrolling in the mini-course, when is Student-Athlete R eligible at Community College A to begin participating in intercollegiate athletics?

ANSWER:
Student-Athlete R becomes eligible on the date in which he/she enrolled in the mini-session course. If the mini-session course starts after the end of the regular soccer season, the student must be enrolled in nine (9) credits that begin prior to the end of the regular season schedule. Student-Athlete R was ineligible for athletic participation starting with the day he/she dropped to below full-time until the day he/she enrolled in the mini-session course which was on October 12th. If he/she does not have nine (9) credits that begin prior to the end of the regular season schedule they would have remained ineligible for the season. Due to the fact that Student-Athlete A was enrolled as a full-time student on the 15th calendar day of the term, he/she may re-establish their eligibility by adding a new class.

Case 3

Enrolling Part-time, Adding a Mini-Course Late in Season

SITUATION:
Student-Athlete R enrolls part-time in 10 credit hours at the beginning of the fall term. Student-Athlete R adds a three (3) credit hour class on October 15. Is Student-Athlete R eligible to participate in the volleyball season which has their last match on November 1st?

ANSWER:
No. As per Article V, Section 2.C the student-athlete must be enrolled full-time on or before the 15th calendar day of the term. Because she added the additional three (3) credit hours after the 15th calendar day she is ineligible for the entire season even though she was enrolled full-time starting on October 15th.

Mid-Term Enrollment

Case 1

Mid-Term Enrollment

SITUATION:
Community College A offers a selection of courses which begin during the middle of a regular term. Students who enroll at mid-term are considered by the college to be full-time if they are enrolled in 6 to 9 credit hours. Does this constitute full-time enrollment so that a student-athlete can participate in athletics?

ANSWER:
No. Section 2.C.1 requires that student-athletes must carry at least 12 credit hours of college work. Additionally, Section 2.C.1 requires student-athletes to be enrolled full-time by the 15th calendar day of the term in which the sport starts to be eligible to compete during that term.

Case 2

Dual Enrollment at Two Different Institutions during the Same Term

SITUATION:
Student-Athlete R who is attending Community College A and has enrolled in 10 credit hours for the spring term is a member of the tennis team. Student-Athlete R wants to take one, three (3) credit hour class at Community College B because Community College A does not offer this class at their institution. Is Student-Athlete R eligible to play tennis in the spring because he/she is taking a total number of 13 credit hours?

ANSWER:
No. Student-Athlete R would not be eligible to participate in any NJCAA certified sport at Community College A as they are not enrolled as a full-time student at Community College A. It is the interpretation of the NJCAA Eligibility and Executive Committees that a student must be enrolled as a full-time student at the institution which they choose to participate.
Case 3
Dual Enrollment at Two-Year and Four-Year Institutions

SITUATION:
While attending Community College A, Student-Athlete R initially enrolls in 14 credit hours while simultaneously enrolled in a three (3) credit hour course at Four-Year Institution X. During the season Student-Athlete R drops a three (3) credit hour course at Community College A. May Student-Athlete R use the three (3) credit hour course at Four-Year Institution X to maintain his/her full-time status?

ANSWER:
No. Student-Athlete R initially enrolled as a full-time student-athlete (12 or more credits) at Community College A and after withdrawing from the three (3) credit hour class, is left with enrollment in 11 credit hours. Student-Athlete R becomes immediately ineligible for participation. The credits at Four-Year Institution X cannot be used for full-time status. However, if Student-Athlete R enrolls in a new three (3) credit hour class at Community College A, he/she becomes eligible at that point because of regaining full-time status. In addition, if the new class hours do not start before the end of the regular season, student-athlete R must be enrolled in nine (9) credits hours at Community College A that begin prior to the end of the regular season.

Late Enrollment (Section 2.C.2.a)

Case 1
Joining Team after Season Begins

SITUATION:
Student-Athlete R passes 12 credit hours with a GPA of 2.54 during the first quarter at Community College A and decides to join the basketball team at the beginning of the second quarter. Assuming that basketball spans the first and second quarters at Community College A, is Student-Athlete R eligible to participate?

ANSWER:
Yes. Even though the sport was in progress, Student-Athlete R was enrolled as a full-time student at Community College A by the 15th calendar day of the term and is therefore immediately eligible.

Late Enrollment Examples

Case 1
Student-Athlete Enrolls Full-Time after the 15th Day of the Term but before the Start of the Season – Eligible

SITUATION:
The men’s basketball season at Community College A starts on November 2nd. Student-Athlete R does not enroll full-time by the 15th calendar day of the fall term and is therefore ineligible for participation during the fall term as per Section 2.C. However, if Student-Athlete R enrolls full-time on October 20th, is he eligible to participate during the spring term if he is academically eligible after the end of the fall term?

ANSWER:
Yes. According to Section 2.C.2, Student-Athlete R would need to be enrolled full-time before the regular season of the sport begins which in this case is November 2nd. Again, if he is academically eligible satisfying the academic progress requirements, he will be eligible for the spring term by enrolling full-time before the start of the basketball season during the fall term.

Case 2
Student-Athlete Enrolls Full-Time after 15th Day of the Term and after the Start of the Season – Ineligible

SITUATION:
Student-Athlete R wants to participate in basketball during the season which starts on November 5th, however he does not enroll full-time until November 15th. Is he eligible to compete during the spring term if he is academically eligible?

ANSWER:
No. Because the student-athlete was not enrolled full-time before November 5th, the start of the basketball season, he is not eligible as per Section 4.G. Student-Athlete R must have been enrolled full-time before the regular season schedule of a sport begins to be eligible to compete during the second term of a two-term sport.

Case 3
Two-Term Sport Example: New Enrollee for 2nd Quarter with Season in Progress

SITUATION:
Community College A begins their basketball season on November 16th. Their fall quarter ends on November 16th and the winter quarter begins on November 28th. Can Student-Athlete R, a new enrollee for the winter quarter, participate as a member of Community College A’s basketball team?

ANSWER:
No. The basketball season began during the fall quarter, which did not end until midnight November 16th. Note: The NJCAA utilizes the date listed in the current college catalog to determine the ending date of the term, and the beginning date of the next term.
Case 4
Two-Term Sport Example: New Enrollee for Spring Term with Season in Progress

SITUATION:
Following Student-Athlete R's high school graduation in June, Student-Athlete R does not attend any college in the following fall term and then enrolls at Community College A during the spring semester. Is Student-Athlete R eligible to compete on Community College A's basketball team, which has a schedule that spans both the fall and spring semesters?

ANSWER:
No. Student-Athlete R is ineligible to compete in basketball during the spring semester because the first possible enrollment period into Community College A following the student-athlete's official graduation from high school was the fall semester, the term in which the sport started.

Case 5
Four-Year Institution Transfers – Two-Term Sport Example (Transferring Mid-Year)

SITUATION:
Student-Athlete R enrolls at a four-year institution as a freshman during the fall term following high school graduation. Student-Athlete R does not participate in any athletics. At the completion of the term, can Student-Athlete R transfer to Community College A for the spring term and participate as a member of their basketball team which began its schedule during the previous fall term?

ANSWER:
No. Section 2.C.2 requires that a student-athlete be enrolled full-time at the college he/she chooses to participate during the term which the season that sport begins.

Case 6
Joining the Team after Part-Time Enrollment

SITUATION:
Student-Athlete R who had never previously attended college, enrolls at Community College A for the fall semester in nine (9) credit hours which he/she passes with a GPA of 1.50. The basketball season at Community College A spans over the fall and spring semesters. Is Student-Athlete R eligible to compete on the intercollegiate basketball team at Community College A during the spring semester if he/she enrolls as a full-time student-athlete?

ANSWER:
No. This section requires a student-athlete to be in full-time enrollment during the term the sport starts in order to be eligible to compete in that sport during the following term.

Case 7
Joining the Team after Part-Time Enrollment

SITUATION:
Student-Athlete R enrolls in 12 credit hours at Community College A at the beginning of the fall term. Before the 15th calendar day, Student-Athlete R withdraws from a three (3) credit hour course. Will Student-Athlete R be eligible to participate on Community College A's basketball team at the conclusion of the fall term?

ANSWER:
No. Student-Athlete R's status during the fall term is that of a part-time student even though he/she initially enrolled as a full-time student-athlete. Student-Athlete R must maintain enrollment in 12 or more credit hours beyond the 15th calendar day to be considered full-time during the fall term.

Case 8
Dropping Below Full-Time Status and Adding to Become Full-Time by the 15th Calendar Day

SITUATION:
Student-Athlete R is a member of the softball program at Community College A and enrolls in 14 credit hours on or before the 15th calendar day of the spring term. The spring term began on January 15th and on January 20th she drops a three (3) credit hour class bringing her to part-time status with 11-credit hours. On January 25th, she adds a three (3) credit hour class and she maintains full-time status throughout the spring term. The softball season starts on February 1st. Is she eligible to participate during this season?

ANSWER:
Yes. Student-Athlete R was full-time on the 15th calendar day of the term (January 29) and she is compliant with Article V, Section 2.C. The drop of the one class and the addition of a different class all occurred before the 15th calendar day of the spring term, therefore she was full-time by the 15th calendar day of the term to become eligible for the term.

Case 9
Participation Between Terms

SITUATION:
Community College A begins their basketball season on November 26th. Their fall quarter ends on November 22th and the winter quarter will begin on December 1st. Student-Athlete R has not attended any college since his/her high school graduation and plans to enroll for the winter quarter. Is Student-Athlete R eligible to begin participation on November 26th?

ANSWER:
Yes. Student-Athlete R may participate in basketball during the winter quarter providing he/she is appropriately registered or pre-enrolled in full-time hours for the next term.
Case 10
First Opportunity for Enrollment after Released from the Military

SITUATION:
After completing one academic year at Community College A, Student-Athlete R enlists in the military service. Student-Athlete R serves 24 months and is released from the military with an honorable discharge. Student-Athlete R was released in time to enroll at Community College B for the fall term. However, the student-athlete decides to wait until the next term to enroll in order to earn money to attend college. Is Student-Athlete R eligible to participate in basketball which spans over the fall and spring term?

ANSWER:
No. Section 2.C.2.b.i.a requires student-athletes to enroll at the first possible enrollment date following their official honorable discharge from the military.

Case 11
First Opportunity for Enrollment after Completing a Religious Mission

SITUATION:
Student-Athlete R returns from a religious mission on September 22nd and would like to enroll at Community College A. Because September 22nd was the last day to register for enrolling new students, Student-Athlete R was not allowed to enroll until the spring term. As a result, Student-Athlete R enrolls in a four-year institution located in his/her home town. If Student-Athlete R transfers to Community College A for the spring term, will he/she be eligible to participate in those sports which began during the first term?

ANSWER:
Yes. In this particular case, Student-Athlete R will be enrolling at Community College A on the first possible opportunity following his/her release from a religious mission and therefore, eligible under the provisions of Section 2.C.2.b.i.b. Approval must be granted by the Office of Eligibility prior to the student’s participation in the spring term.

Mid-Year High School Graduate

Case 1
Mid-Year High School Graduate

SITUATION:
Student-Athlete R graduates from high school in January and enrolls in Community College A shortly thereafter at the beginning of the spring semester. Is Student-Athlete R eligible to play basketball which spans the fall and spring semesters?

ANSWER:
Yes. Student-Athlete R is eligible to play immediately because he/she enrolled as a full-time student on the first possible enrollment period following his/her official graduation from high school even though basketball spans both semesters. Student-Athlete R may begin participation in a scheduled contest any time after the completion of the preceding term. Student-Athlete R must be submitted on an eligibility form to be officially eligible.

Case 2
Mid-Year High School Graduate – Requirement Prior to Second Season

SITUATION:
Student-Athlete R graduates from high school in January and enters Community College A shortly thereafter, which is at the beginning of the spring semester, participating in basketball. Student-Athlete R passes 12 credit hours with a 2.00 GPA during the spring semester. What are the requirements for Student-Athlete R prior to a second season of participation?

ANSWER:
Student-Athlete R may participate during the subsequent fall semester at Community College A even though he/she may not have satisfied Article V, Section 2.D.3 from one full-time term. Because his/her eligibility cannot be submitted online, a hard copy of the Preview Copy of the eligibility form must be mailed to the NJCAA National Office along with the appropriate documentation prior to participation. At the completion of the fall semester Student-Athlete R must meet the academic requirements of Article V, Section 2.D.3.

NOTE: If the student-athlete did not earn 12 hours with a 1.75 GPA from his/her first term of attendance and participation, which in this case is the spring term, he/she would not be eligible for the following fall term.

Case 3
GED Recipient after Season Begins

SITUATION:
Student-Athlete R does not graduate with his/her high school graduating class and does not complete his/her high school requirements prior to the beginning of the fall term. Instead, Student-Athlete R takes and passes the GED in November. Can Student-Athlete R enroll at Community College A for the spring semester and participate in basketball which opened its season during the fall semester and when can Student-Athlete R begin participating on the team?

ANSWER:
If Student-Athlete R satisfies the entry requirements at Community College A, he/she can participate as a member of the basketball team which began its season during the fall semester. Student-Athlete R can participate in a scheduled contest any time after the completion of the preceding term and must be enrolled full-time by the 15th calendar day of the spring term. Student-Athlete R must be submitted in the online eligibility system before participating.
Case 4  
NJCAA College that Drops a Sport

SITUATION:
Student-Athlete R initially enrolls at Community College A with the anticipation of participating on their basketball team. Six weeks after the beginning of the school year, Community College A permanently drops their basketball program. Immediately upon notification of the status of the basketball program, Student-Athlete R drops out of college. At the beginning of the following term, Student-Athlete R enrolls at Community College B which has a basketball program that began its season during the fall term. Is Student-Athlete R eligible to participate in basketball upon enrollment at Community College B?

ANSWER:
No. The fact that Student-Athlete R did not finish the term at Community College A eliminates any possibility that he/she will be eligible at Community College B. If Student-Athlete R had finished the term at Community College A and satisfied the academic requirements, he/she could have joined the team at Community College B beginning any time after the completion of the fall term.

Withdrawal (Section 2.C.4)

Case 1  
Maintaining Twelve Credits of Enrollment

SITUATION:
Student-Athlete R initially enrolls in 12 credit hours at the beginning of the term. Three weeks into that term, Student-Athlete R drops a three (3) credit hour course which leaves him/her with nine (9) credit hours. Can Student-Athlete R continue to participate in athletics until the end of the term?

ANSWER:
Student-Athlete R becomes ineligible 48 hours from the time which they drop below 12 credit hours and must withdraw from any further athletic competitions. It is the responsibility of each college to ensure that all student-athletes participating in athletics maintain enrollment in 12 or more credit hours. When a member of the college’s athletic staff is aware of the student’s non-full-time status, it is the member college’s responsibility to withhold the student from participation in official games/contests even if it is within the allowable 48 hours.

NOTE: If the student-athlete adds a class to regain full-time status, they would regain their eligibility upon full-time enrollment. Student-Athlete R is able to regain their eligibility if they re-enroll in 12 or more credits, in which nine (9) of those credits begin prior to the end of the regular season, since they had established their status as a full–time student on the 15th calendar day of the term prior to dropping below full-time enrollment.

Case 2  
Withdraw from Full-Time to Part-Time Status

SITUATION:
Is the eligibility status of a student-athlete affected if he/she is enrolled in 12 or more credit hours and then withdraws below 12 credit hours during the term?

ANSWER:
Yes. Student-athletes involved in the intercollegiate athletic program at a community college must withdraw from all athletic competitions immediately and will become ineligible 48 hours from changing their status from that of full-time to part-time. The student-athlete may become eligible if he/she adds/enrolls in enough hours to regain full-time status; however, he/she is ineligible to participate during the time when he/she was part-time. The 15th calendar day is the key in this situation. The NJCAA does not charge a student with a full-time term of attendance if they completely withdraw within the first 15 calendar days of the term. Based on this allowance, the NJCAA cannot recognize any enrollment status that takes place prior to the 15th calendar day of the term.

Case 3  
Student-athletes who are dropped to part-time status for lack of attendance

SITUATION:
Student-Athlete R initially enrolls in 12 credit hours and is participating on the basketball team. At mid-term, Student-Athlete R is dropped from a 3 credit hour course for lack of attendance and is officially notified by the college. Does Student-Athlete R remain eligible until the end of the term?

ANSWER:
No. Student-Athlete R becomes ineligible 48 hours from the time which they drop below 12 credit hours and must withdraw from any further athletic competitions. It is the responsibility of each college to ensure that all student-athletes participating in athletics maintain enrollment in 12 or more credit hours. When a member of the college’s athletic staff is aware of the student’s non-full-time status, it is the member college’s responsibility to withhold the student from participation in official games/contests even if it is within the allowable 48 hours.

NOTE: If the student-athlete adds a class to regain full-time status, they would regain their eligibility upon full-time enrollment. Student-Athlete R is able to regain their eligibility if they re-enroll in 12 or more credits, which begin prior to the end of the regular season, since they had established their status as a full–time student on the 15th calendar day of the term prior to dropping below full-time enrollment.

Case 4  
Administrative Withdraw – Lack of Attendance

SITUATION:
Student-Athlete R is enrolled in 12 credit hours at the time he is administratively withdrawn from a three (3) credit course because of a lack of attendance. When does Student-Athlete R become ineligible to participate?

ANSWER:
No. Student-Athlete R becomes ineligible 48 hours from the time which they drop below 12 credit hours and must withdraw from any further athletic competitions. It is the responsibility of each college to ensure that all student-athletes participating in athletics maintain enrollment in 12 or more credit hours. When a member of the college’s athletic staff is aware of the student’s non-full-time status, it is the member college’s responsibility to withhold the student from participation in official games/contests even if it is within the allowable 48 hours.

NOTE: If the student-athlete adds a class to regain full-time status, they would regain their eligibility upon full-time enrollment. Student-Athlete R is able to regain their eligibility if they re-enroll in 12 or more credits, which begin prior to the end of the regular season, since they had established their status as a full–time student on the 15th calendar day of the term prior to dropping below full-time enrollment.

229
ANSWER:
It is Student-Athlete R’s responsibility to adhere to the attendance policy of the college or classes he/she is enrolled. The student becomes ineligible 48 hours from the time which they drop below 12 credit hours. When a member of the college’s athletic staff is aware of the student’s non-full-time status, it is the member college’s responsibility to withhold the student from participation in official games/contests even if it is within the allowable 48 hours. It should be the responsibility of the Athletic Director’s office to keep informed on a daily basis of the academic status of all student-athletes who are actively participating.

Case 5  
Withdrawal Within Fifteen Calendar Days and HAS NOT Participated

SITUATION:
Student-Athlete R, a first term freshman, enrolls at Community College A as a full-time student for the fall term. Within 15 calendar days of the fall term, Student-Athlete R withdraws to part-time status. What is Student-Athlete R’s status for participation during the current academic year?

ANSWER:
Student-Athlete R may not participate in any sports during the fall term if he/she remains part-time past the 15th day of the term. However, if Student-Athlete R does enroll full-time within the first 15 calendar days of the fall term, he/she will be able to participate during that term.

Student-Athlete R would be eligible for participation in those sports during a subsequent spring term provided he/she enrolls in 12 credit hours. Since Student-Athlete R withdrew within the first 15 days of the fall term, this term would count as a part-time term due to his/her non-participation.

Case 6  
Withdrawal After Fifteen Calendar Days and HAS Participated

SITUATION:
Student-Athlete R enrolls full-time at Community College A, has participated in one soccer game and withdraws after 15 calendar days of the fall term. Will this withdrawal effect Student-Athlete R for future NJCAA eligibility?

ANSWER:
Yes. This term must count as a full-time term of attendance for any future NJCAA eligibility evaluation because he/she withdrew after the 15th calendar day of the term. This season will also count as Student-Athlete R’s first season in soccer.

Case 7  
Withdrawals Within Fifteen Calendar Days and HAS Participated

SITUATION:
Prior to the beginning of the fall term Student-Athlete R, a first term freshman, participates in a cross country meet. Subsequently, Student-Athlete R completely withdraws from the college before the 15th calendar day of the fall term. What is the status of Student-Athlete R for participation during the spring term in outdoor track and field? Did Student-Athlete R use a season of eligibility in cross country?

ANSWER:
Yes. Student-Athlete R used a season of eligibility in cross country because of his/her participation and must accumulate 24 semester or 28/36 quarter hours with a 2.00 GPA prior to a second season in cross country (Section 2.D.3). Student-Athlete R would not be eligible for his/her first season of outdoor track and field because his/her participation makes the fall term count as a term of attendance and therefore he/she does not satisfy academic progress requirements prior to the subsequent spring season of outdoor track and field.

Case 8  
Withdrawal While Season is in Progress

SITUATION:
Student-Athlete R enrolls at Community College A as a full-time student for the fall semester. The basketball season at Community College A begins on November 26th. The fall term at Community College A ends on December 20th. Student-Athlete R drops to part-time status on December 4th. When does Student-Athlete R become ineligible for competition? Will Student-Athlete R be eligible for the spring term?

ANSWER:
Student-Athlete R becomes immediately ineligible for competition at the time of the drop. There is a 48 hour window of protection for the college. However if Student-Athlete R enrolls in enough credits to regain full-time status during the fall term, he/she may reinstate his/her eligibility and be eligible to participate as long as nine (9) of those hours start before the end of the season; in this case because the sport is basketball all 12 hours of class must start before the end of the fall term. Student-Athlete R must satisfy academic progress requirements to be eligible for the subsequent spring term.

Case 9  
Withdrawals from Late Start Classes

SITUATION:
Student-Athlete R is a baseball player at Community College A and enrolls in 14 hours within the first 15 calendar days of the spring term. 11 hours of class start with the first day of the term and a three (3) credit hour class starts on March 1st. Student-Athlete R is thinking about withdrawing from the late start class on March 4th. Assuming he does not add another class during the spring term to maintain full-time status. Does Student-Athlete R have 15 calendar days from March 1st (the first day of the late start class) to withdraw from that class and NOT have that term count as a full-time term?

ANSWER:
The 15 calendar days to withdraw from class starts with the first day of the term. Therefore in this case the spring term will count as full-time for Student-Athlete R since he did not withdraw to part-time status within the first 15 calendar days of the
spring term. Fifteen calendar days from the start dates for each individual class cannot be used in this rule. Because Student-Athlete R withdrew to part-time on March 4th that term will count as a full-time term due to his withdrawal after the 15th calendar day of the spring term. If he does not add enough hours to maintain full-time status, he will remain ineligible for the remainder of the spring term.

### Case 10
**Withdrawing from the Summer Session**

**SITUATION:**
Student-Athlete R has enrolled as a full-time student at Community College A for the summer term that is made up of two, eight (8) week sessions. The student is taking three (3) hours during summer session I and nine (9) hours in summer session II. If Student-Athlete R wishes to withdraw from one of his/her classes in summer session II does the 15-calendar day from the beginning of the summer apply in this case to not have that term count as a full-time term?

**ANSWER:**
Student-Athlete R has 15 calendar days from the start of the summer session I to withdraw from those classes and 15 calendar days to withdraw from the start of the summer session II to withdraw from those classes to part-time status and not have that term count as a full-time term towards eligibility. Although the student-athlete has taken and completed the summer session I class, he/she still has by the 15th calendar day of summer session II to withdraw from the one class and not have that term count as a full-time term. In this case, the summer term is treated differently than a 16-week fall or spring semester. However, if the college offers only one session during the summer and the student enrolls full-time by the 15 calendar day of the summer term that term counts as a full-time term. Likewise, the student would have until the 15th calendar day of the summer term to withdraw down to part-time status and not have that term count as a full-time term.

### Break of Enrollment & Delay of Enrollment (Section 2.D.5)

#### Case 1
**Break of Enrollment and Delay of Enrollment Statement Definitions**

**Break of Enrollment** – A break of enrollment is when a student-athlete attends college full-time for at least one term and after the end of that term he/she takes a “break” of not attending full-time for at least a period of one term, then enrolls again as a full-time student. A statement must be provided in the eligibility for this student-athlete explaining what he/she was doing during this break of enrollment. Was he/she attending part-time or none at all, was he/she working or not working, was he/she living at home, etc?

**Delay of Enrollment** – A delay of enrollment is when a student-athlete does not enroll full-time in the term immediately following high school graduation. (This term is not considered as the summer term for a May/June/July high school graduate.) Like the break of enrollment, a statement as to why this student-athlete was not enrolled immediately after high school graduation must be provided in the eligibility. The statement also needs to include what the student was doing during this time.

### Enrollment Verification Prior to NJCAA National Championship (Section 2.D.6)

#### Case 1
**Enrollment Verification Prior to NJCAA National Championship**

**SITUATION:**
The basketball team at Community College A leaves campus on Monday afternoon for the National Championship. Prior to departing, the Athletic Director checks that each basketball athlete is enrolled in full-time status and meets all NJCAA requirements for participation. Monday evening, one of the student-athletes is administratively withdrawn by one of his teachers from their class which drops the student below full-time status. Is the student-athlete eligible to participate in the National Championship Tournament that begins on Sunday afternoon?

**ANSWER:**
Student-athlete’s enrollment should be verified and documented 24 hours prior to National Championship competition. If the student-athlete is enrolled in full-time status 24 hours prior to the start of the National Championship Tournament, he/she will remain eligible throughout the National Competition. The documentation would need to be signed and dated by the Athletic Director and the Registrar for consideration. Failure to produce the required documentation would result in the student-athlete being declared ineligible at the time they dropped below full-time status.
ACADEMIC PROGRESS ELIGIBILITY (Section 2.D)

First Season Academic Requirement (Section 2.D.2)

One (1) Previous Full-Time Term (Section 2.D.2.b)

Case 1
Eligibility after One Full-Time Term

SITUATION:
Student-Athlete R enrolls at Community College A and participates in wrestling during his first term in college. At the conclusion of the first term Student-Athlete R has passed 10 credit hours with a 2.00 GPA. Is Student-Athlete R eligible to participate in wrestling during the second term of the academic year?

ANSWER:
No. Student-Athlete R would not be eligible to participate in wrestling because Section 2.D.2.b requires Student-Athlete R to have accumulated 12 credit hours prior to the 15th calendar day of the second full-time term of college attendance. If Student-Athlete R had taken a three (3) credit hour course during the preceding summer term, during the winter intersession or while in high school those credit hours could be added to the 10 credit hours earned during the fall term to meet the accumulation requirement of Section 2.D.2.b.

Case 2
Requirements after the First full-Time Term of College – Winter Intersession

SITUATION:
Student-Athlete R participates in basketball during his/her first full-time term in college. At the conclusion of the first term Student-Athlete R passes 11 credit hours with a 2.50 GPA. Is Student-Athlete R eligible for competition during the second term, if he/she passes a one (1) credit hour course during the winter intersession and prior to the beginning of the next term?

ANSWER:
Yes. Section 2.D.2.b permits credit hours earned prior to the first full-time term and those credit hours earned before the 15th calendar day of the 2nd full-time term to be used.

Case 3
Adding Previous Part-Time Credits from a Summer Session to the First Term of Attendance

SITUATION:
Student-Athlete R graduated from high school in May 2017 and enrolls in a three (3) credit hour course during the 2017 summer session at the local community college. Student-Athlete R enrolls at Community College A for the 2017 fall semester as a full-time student and participates in basketball. Student-Athlete R passes nine (9) of 15 credit hours in the 2017 fall semester. Can Student-Athlete R add the summer session course to the nine (9) hours passed in the fall semester to meet the eligibility requirements of Section 2.D.2.b?

ANSWER:
Yes. Section 2.D.2.b requires 12 credit hours with a 1.75 GPA prior to the 15th calendar day of the student-athlete’s second full-time term. Section 2.D.2.b does not require the 12 credits to have been earned in the one previous term. Section 2.D.2.b is an accumulation rule. If the summer course was earned at a college other than Community College A, an official transcript must be provided when the basketball eligibility form is submitted online for the second semester.

Case 4
Using Rule 2.D.2.b with 2.D.3 for a Second Season Athlete

SITUATION:
The following credits were earned by Student-Athlete R:
Fall 2016 semester – enrolls full-time in 15 and passes 11 with a 2.8 GPA; Participates in Football, 1st season.
Spring 2017 semester – enrolls in and passes 10 credits (part-time).
Summer 2017 – enrolls in and passes three (3) credits.
The fall 2017 semester will be his second full-time semester as well as his second season in football. Is Student-Athlete R eligible for a second season of football?

ANSWER:
Yes. Student-Athlete R is eligible for a second season of competition by satisfying the second season requirement (2.D.3) and 2.D.2.b. His total accumulation is 24 hours with a GPA over a 2.00, therefore satisfying Section 2.D.3. According to Section 2.D.3 he must satisfy one of the requirements of Article V, Section 2.D.2 as well. He satisfies 2.D.2.b based on his one previous full-time term. Prior to the fall 2017 semester he has been enrolled in only one full-time term: fall 2016. The fall 2017 term is his second full-time term and according to this rule (2.D.2.b) as long as he has earned an accumulation of 12 hours with a 1.75 before the 15th calendar day of his second full-time term, he satisfies this rule and is eligible.
Case 5
Full-Time Summer School Enrollment

SITUATION:
Student-Athlete R graduates from high school in May. Student-Athlete R immediately enrolls in Community College A for six (6) hours in Summer Session I, and six (6) credit hours in Summer Session II. Student-Athlete R passes nine (9) of the 12 credit hours taken at Community College A in summer school. Is Student-Athlete R eligible to participate at Community College A in the fall term?

ANSWER:
No. Student-Athlete R was enrolled full-time, and did not pass 12 credit hours with a 1.75 GPA required to meet academic progress requirements. A student-athlete is considered to be full-time in summer school if he/she enrolls in 12 or more credit hours, at the same institution, utilizing any combination of summer school sessions.

NOTE: If the student-athlete attempts six (6) hours at Community College A and another six (6) hours at Community College B during the same summer session, that summer term IS NOT counted as a full-time term.

Case 6
Full-Time Summer Term

SITUATION:
The school year at Community College A consists of a fall and spring semester. It also conducts two summer sessions of six weeks each. The courses offered during the summer sessions are the same as those offered during the regular school year and carry the same number of credits and contact hours.

Student-Athlete R accumulated 12 credit hours over two (2) full-time semesters, during the fall and spring semester. During the spring semester Student-Athlete R passed 10 of the 12 credit hours in which he/she was enrolled. In order to re-establish his/her eligibility, Student-Athlete R enrolls in six (6) credits during each of the two summer sessions and passes the 12 credit hours with a 2.00 GPA. Is Student-Athlete R eligible to participate in the intercollegiate athletic program at Community College A during the following fall semester?

ANSWER:
Yes. Many colleges conduct several sessions during summer school. The credit hours earned during one or more sessions of summer school may be used for a full term of college enrollment provided they add up to 12 or more credits. Student-Athlete R meets the requirements of Article V, Section D.2.c, because he/she passed 12 credit hours with a 2.00 GPA during the previous term of full-time attendance.

NOTE: Before Student-Athlete R can participate in a second season of competition the requirements of Article V, Section D.3 must also be satisfied.

Case 7
Break of Enrollment

SITUATION:
Student-Athlete R attends Community College A during the fall 2016 term as a full-time student and earns 14 credit hours with a 2.50 GPA and does not participate. During the spring 2017 term, he attends Community College A as a part-time student and does not attend summer school. Is he eligible for the fall 2017 in the sport of cross country as a first season athlete?

ANSWER:
Yes. Student-Athlete R has one full-time term: fall of 2016. Therefore this student-athlete’s eligibility is based upon the fall 2016 term during which he passed 14 credits with a 2.50 GPA, satisfying Article V, Section 2.D.2.b as a first season athlete.

Two (2) or More Previous Full-Time Terms (Section 2.D.2.c)

Case 1
Quarter Example, Eligible

SITUATION:
The following credits were earned by Student-Athlete R:
Fall quarter - enrolls in 15 and passes six (6) with a 1.00 GPA
Winter quarter - enrolls in 12 and passes eight (8) with a 1.67 GPA
Spring quarter - enrolls in 14 and passes 10 with a 1.88 GPA
Fall quarter - enrolls in 15 and passes 12 with a 2.00 GPA

Is this student-athlete eligible to participate in a first season of wrestling during the upcoming winter quarter?

ANSWER:
Yes. The previous term requirement of Article V, Section 2.D.2.c is satisfied since the student passed 12 credits with an associated GPA of 2.00 in the previous full-time term. 
Best Hours Accumulation Rule (Section 2.D.2.d)

Case 1
Quarter Example, Eligible

SITUATION:
The following credits were earned by Student-Athlete R:
- Fall quarter - enrolls in 15 and passes 15 with a 2.000 GPA
- Winter quarter - enrolls in 15 and passes 15 with a 2.50 GPA
- Spring quarter - enrolls in 15 and passes 12 with a 2.25 GPA
- Fall quarter - enrolls in 15 and passes 10 with a 1.50 GPA

Is this student-athlete eligible for baseball at the beginning of the winter quarter of his second year of enrollment?

ANSWER:
Yes. Section 2.D.2.d requires that a student-athlete must have an accumulation of credit hours equal to 12 multiplied by the number of previous full-time terms. In this case, four (4) multiplied by 12 equals 48. This student-athlete has accumulated 52 credit hours with a 2.000 GPA or higher. He/she must also have 36 quarter hours at a 2.00 GPA if a second season athlete.

Case 2
Semester Example, Eligible

SITUATION:
The following credits were earned by Student-Athlete R:
- Fall semester - enrolls in 12 and passes 12 with a 2.50 GPA
- Winter intersession - enrolls in and passes three (3) credits with a 2.00 GPA
- Spring semester - enrolls in 12 and passes nine (9) with a 1.75 GPA

Is this student-athlete eligible for the upcoming fall semester?

ANSWER:
Yes. Whenever the accumulation of credits is used, all credits earned in college can be used to determine a student-athlete's eligibility. The student-athlete has enrolled in two previous full-time terms, therefore he/she must have 24 credit hours with a 2.00 GPA to satisfy the provisions of Article V, Section 2.D.2.d. (Please refer to the Winter-Intersession Case later in Section 4.E.2.)

NOTE: Second season athletes must also satisfy Section 2.D.3.

Case 3
Semester Example, Eligible

SITUATION:
The following credits were earned by Student-Athlete R:
- Fall semester - enrolls in 12 and passes 10 with a 1.50 GPA (Participates in soccer)
- Spring semester - enrolls in 12 and passes eight (8) with a 2.50 GPA
- Summer session - enrolls in 6 and passes six (6) with a 3.00 GPA

Is this student-athlete eligible to participate during the fall semester in soccer?

ANSWER:
Yes. This student-athlete has met the requirements of Section 2.D.2.c by accumulating 24 semester hours in two previous full-time terms. This student-athlete also meets the second season requirement of Article V, Section 2.D.3 by having 24 credit hours with a 2.00 GPA.

Case 4
Semester Example, Eligible

SITUATION:
The following credits were earned by Student-Athlete R:
- Fall semester - enrolls in 18 and passes 18 with a 2.00 GPA (swimming, first season)
- Spring semester - enrolls in 18 and passes 18 with a 2.00 GPA (swimming, first season)
- Fall semester - enrolls in 12 and passes 0 with a 0.0 GPA (swimming, second season)

Is this student-athlete eligible to continue swimming in the upcoming term?

ANSWER:
Yes. This student-athlete has passed 36 semester hours with a 2.00 GPA, with full-time enrollment in three previous full-time terms. This student-athlete met the provisions of Section 2.D.3 and 2.D.2.d.

Case 5
Quarter Example, Eligible

SITUATION:
The following credits were earned by Student-Athlete R:
- Fall quarter - enrolls in 12 and passes 12 with a 2.000 GPA at Community College A
- Winter quarter - enrolls in 12 and passes 12 with a 2.000 GPA (Participates in basketball.)
- Spring quarter - enrolls in 12 and passes 10 with a 2.000 GPA at Community College A
- Summer session - enrolls in and passes two (2) credits at Community College B

Is this student-athlete eligible for a second season of basketball competition at Community College A during the following fall quarter?
ANSWER:
Yes. The two credit hours earned at Community College B can be used for the total accumulation of credit hours needed at Community College A. This student-athlete was enrolled in three full-time quarters and therefore needs 36 quarter credit hours with a 2.00 GPA or higher to be eligible for the upcoming fall quarter.

Case 6
Semester and Quarter Hour Example, Ineligible

SITUATION:
The following credits were earned by Student-Athlete R:
- Fall semester - enrolls in 12 and passes 12 with a 2.00 GPA at Community College A
- Spring semester - enrolls in 12 and passes nine (9) with a 2.00 GPA at Community College A
- Summer session - passes three (3) quarter credits at Community College B
Is this student-athlete eligible for the upcoming fall term at Community College A?

ANSWER:
No. The credits which this student-athlete earned at Community College B were quarter credits. The quarter credits must be converted to semester credits. The formula is to multiply 2/3 x quarter credits = semester credits. In this case the three quarter credits become two semester credits. At the completion of the summer session this student-athlete has only passed 23 semester credits, and therefore does not meet the provisions of 2.D.2.d.

Case 7
Requirement Prior to the Third Full-Time Quarter

SITUATION:
The following shows the academic record of a student-athlete on the quarter system:
- Summer session - enrolls in three (3) passes 3 with a 2.00 GPA
- Fall quarter - enrolls in 12 passes 12 with a 2.000 GPA
- Winter quarter - enrolls in 12 passes nine (9) with a 1.50 GPA
Is Student-Athlete R eligible to participate in the softball spring quarter?

ANSWER:
Yes. Student-Athlete R meets the accumulation provision in Section 2.D.2.d. This provision calls for an accumulation of 24 quarter hours prior to the third full-time quarter. (GPA must be 2.00 or higher.)

Case 8
Use of Part-Time Work for Accumulation of Credits

SITUATION:
The following credits were earned by Student-Athlete R:
- Fall semester - enrolls in 12 and passes nine (9) with a 1.75 GPA
- Winter intersession - enrolls in one (1) and passes one (1) with a 4.00 GPA
- Spring semester - enrolls in 15 and passes 10 with a 2.00 GPA
- Summer session - enrolls in six (6) and passes six (6) with a 1.95 GPA
Is Student-Athlete R eligible to participate in a second season of tennis during the following spring term?

ANSWER:
Yes. Student-Athlete R has accumulated 36 credit hours at a 2.00, which meets the requirements of Section 2.D.2.d. The student-athlete must also have 24 credit hours at a 2.00 GPA prior to second season.

Case 9
Computation of GPA Using the Best Hours

SITUATION:
During the 2016-2017 academic year, Student-Athlete R participates in a first season of basketball and attempts 36 credit hours. Student-Athlete R passes 24 credit hours of the 36 attempted. The GPA on the 24 credit hours is 1.35. Is Student-Athlete R eligible to participate during the 2017 fall term on the basis of these hours earned?

ANSWER:
Yes. Student-Athlete R must meet one of the requirements of Section 2.D.2 in addition to the second season requirements of Section 2.D.3. In this case, the best 24 credit hours may be used to determine the GPA.

NOTE:
1. Each course must be used in its entirety. It is not permissible to split a course for the purpose of GPA computation.
2. When taking the best hours, you must also take those quality points that have been awarded for those credit hours. Example: if you are taking the student’s best 36 hours, you must take the quality points that have been earned with those 36 hours.
Case 10
Computing Hours Earned and GPA – Best Hours

SITUATION:
After completing three (3) full-time semesters Student-Athlete R has attempted 44 semester hours and successfully passed 36 semester credits. Student-Athlete R did not pass 12 credit hours in the previous full-time term (2.D.2.c), and therefore must use the accumulation rule in Section 2.D.2.d. How many hours must be used to compute the GPA for Section 2.D.2.d?

ANSWER:
Thirty-six (36). The GPA may be computed on the **best hours earned**, which are being used to satisfy a particular section of the rules.

Case 11
Winter Intersession Credits

SITUATION:
Student-Athlete R participates in basketball during the fall term and passes 10 credit hours during the fall term. Student-Athlete R enrolls in a winter intersession course that ends on January 20th. At Community College A, the spring term begins on January 14th and the 15th calendar day of the spring term, as listed in the college catalog, is January 28th. Is Student-Athlete R eligible for the spring term? On what date does Student-Athlete R become eligible for competition in the spring term?

ANSWER:
Since the winter intersession course ended prior to 15th calendar day of the spring term, the course could be used for either Section 2.D.2.b or Section 2.D.2.d, to establish eligibility for the spring term. Student-athlete must cease participation 20 calendar days after the completion of the fall term. Student-athlete may begin competition any time after the completion of the intersession course (January 20th), upon positive verification of a passing grade in the course, satisfying all NJCAA eligibility rules, and having their eligibility submitted online. **This course may only be added to the total accumulation, but does not become part of the hours within the previous term to arrive at a total of 12 credit hours in the previous term.**

Case 12
Winter Mini-Courses/Intersessions

SITUATION:
A winter intersession course that is conducted between the fall and spring terms at Community College A starts on January 3rd and ends on January 12th. The spring 16-week term officially begins on January 13th. Can the credit hours earned during this mini-session be counted towards either the fall or spring terms?

ANSWER:
No. The credit hours earned during this mini-session can **only** be counted towards overall accumulation (D.2.b, D.2.d, D.2.e, and D.2.f), not towards the fall or spring terms because the class is being offered in between terms.

Case 13
How to Count Winter Intersession Classes

SITUATION:
Student-Athlete R is taking a class during the winter intersession to become eligible for the spring term in baseball. The class starts on December 20th and ends on February 1st. The spring term starts on January 15th. When must this class be completed with an official grade posted in order to count this class for spring eligibility?

ANSWER:
According to NJCAA bylaws the class must be completed with an official grade posted no later than the 15th calendar day of the spring term. In this case, the class must have been completed and official grade posted no later than January 29th in order to count it towards the accumulation requirements for the spring term.

**NOTE:** When counting calendar days, you will count the first day of the term. School days, business days, holidays and weekends are counted within the calendar days.

Case 14
Total Accumulation – Intersession Example

SITUATION:
Student-Athlete R attends Community College A, participates in his/her first season of basketball during the 2016-2017 season, and has the following academic record:
- Fall 2016 Semester - enrolls in 12 and passes 12 with a 2.00 GPA (participated 1st season of basketball)
- Spring 2017 Semester - enrolls in 12 and passes 9 with a 2.00 GPA (participated 1st season of basketball)
- Fall 2017 Semester - enrolls in 12 and passes 9 with a 2.00 GPA (not eligible for 2nd season of basketball)
- Winter Intersession - enrolls in 3 and passes 3 with a 4.00 GPA

Is Student-Athlete R eligible to participate in the upcoming spring term?

ANSWER:
No. Student-Athlete R is not eligible for the fall 2017 term nor to be added to the spring 2018 term; he/she does not satisfy any of the four bylaws in Section 2.D.2 of the NJCAA bylaws. The three (3) credit hour intersession course **cannot** be added to the fall 2016 semester to meet section 2.D.2.c. This student-athlete would need an accumulation of 36 credit hours, with a 2.00 GPA to be added for the spring 2018 term.
Case 15
Independent Study Courses

SITUATION:
Student-Athlete R needs three (3) credit hours to meet the provisions of Article V, Section 2.D.2.d to be eligible in baseball at Community College A. Student-Athlete R enrolls in and begins taking an independent study course at a four-year institution on December 30th. The spring term at Community College A begins on January 15th and the 15th calendar day of that term is January 29th. May Student-Athlete R be certified eligible to play upon his successful completion of the independent study course on February 15th?

ANSWER:
No. Article V, Section 2.D.2.d of the NJCAA bylaws states that all credit hours being used to satisfy this eligibility requirement must be successfully completed prior to the 15th calendar day of the term. Student-Athlete R did not complete the independent study course prior to January 29th (the 15th calendar day of the spring term at Community College A) and therefore may not use the hours earned to fulfill his academic requirements. This rule applies to all courses (internet, independent study, intersession, etc.).

Total Hours Accumulation Rule (Section 2.D.2.e)

Case 1
Second Season Participant with Total Accumulation

SITUATION:
Student-Athlete R has attempted four previous full-time semesters and two different part-time summer terms, and has never passed 12 credit hours in any previous full-time term. Student-Athlete R has a total accumulation of 40 credit hours with a 2.08 GPA. Is Student-Athlete R eligible for the upcoming football season as a second season participant?

ANSWER:
Yes. Even though Student-Athlete R does not satisfy the provisions of sections D.2.c or D.2.d or D.2.f, he does satisfy the provisions of section 2.D.2.e. A second season participant for a fall sport must have passed a minimum accumulation of 36 credit hours with a 2.000 GPA or higher, regardless of previous term requirements.

Case 2
Second Season Requirements for a Spring Sport

SITUATION:
Student-Athlete R has been at Community College A for five previous full-time semesters. Student-Athlete R is a baseball student-athlete that has red-shirted one season and participated one season. According to Section 2.D.2.e, what are the academic requirements for Student-Athlete R to participate in the upcoming spring term?

ANSWER:
The student is a second season athlete and must meet one of the requirements of Article V, Section 2.D.2 as well as Article V, Section 2.D.3.

Case 3
Second Season Requirements for a Spring Sport

SITUATION:
Student-Athlete R has been enrolled in college as a full-time student for five (5) previous terms accumulating a total of 50 credit hours with a 2.00 GPA. Student-Athlete R participates in their first season of 2017 spring baseball utilizing Section 2.D.2.e to be eligible. In the 2017 spring term the student enrolls in 12 credit hours and passes 6 credit hours with a GPA of 2.00. In the fall 2017 term the student enrolls in 12 credit hours and passes 5 credit hours with a 2.00 GPA. When evaluating the students eligibility for the spring 2018 season of baseball is this student eligible?

ANSWER:
Due to the fact the student has attempted more than one term of full-time enrollment and has used D.2.e, the student must meet one of the following requirements; D.2.c, or D.2.d.
D.2.c – Student does not meet as they only passed five credits in the previous term of full-time enrollment.
D.2.d – Student does not meet as they have only accumulated 61 credit hours.
D.2.e – Student used D.2.e in the spring of 2017 for a first season of eligibility. D.2.e is no longer an option as it is only permitted to be used once.
The student in question is not eligible for a second season of baseball in the spring 2018 season as they do not meet D.2.c, or D.2.d which is required following the use of D.2.e in the spring 2017 season.

Case 4
Semester Example, Ineligible

SITUATION:
The following credits were earned by Student-Athlete R:
Fall semester - enrolls in 12 and passes 12 with a 2.00 (basketball, first season)
Spring semester - enrolls in 12 and passes 12 with a 2.00 (basketball, first season)
Fall semester - enrolls in 12 and passes 9 with a 2.00 (basketball, second season)
Is this student-athlete eligible to continue basketball in the spring term?
ANSWER:
No. This student has three previous full-time terms and is a second season athlete. This student-athlete does not meet any provision of Section 2.D.2. Did not pass 12 credit hours in previous full-time term nor D.2.d: 3 x 12 = 36 total accumulation. Also, D.2.e would require 48 credit hours with a 2.00 GPA for a second season spring sport.

Case 5
Quarter Example, Ineligible

SITUATION:
The following credits were earned by Student-Athlete R:
Fall quarter - enrolls in 12 and passes 12 with 2.00 (Participates in volleyball.)
Winter quarter - enrolls in 12 and passes 10 with a 1.85 GPA
Spring quarter - enrolls in 12 and passes 10 with a 2.50 GPA
Summer session - enrolls in 2 and passes 2 with a 4.00 GPA
Is this student-athlete eligible for the second season volleyball season?

ANSWER:
No. The student has attempted three terms of full-time enrollment and is a second season athlete. This student-athlete is not eligible under D.2.c because she did not pass 12 credit hours in the previous full-time term. She is not eligible under D.2.d because she did not pass 36 credit hours for the three previous full-time terms. This student-athlete also does not satisfy the provisions of D.2.e. Additionally this student-athlete does not meet the second season provisions of Section 2.D.3.

NOTE: The 2-credit hours earned in the summer session cannot be added to the 10 earned in the spring quarter to meet D.2.c as part-time term credits can only be used in meeting accumulations.

First Participating Term Accumulation (Section 2.D.2.f)

Case 1
First Season Participant

SITUATION:
Student-Athlete R attends college as a full-time student-athlete for three terms, and does not participate in intercollegiate athletics. The following is the academic record for Student-Athlete R:
Fall Semester - enrolls in 12 and passes nine (9) with a 2.00 GPA
Spring Semester - enrolls in 12 and passes nine (9) with a 2.25 GPA
Fall Semester - enrolls in 12 and passes nine (9) with a 2.00 GPA
Student-Athlete R has a total accumulation of 27 semester hours, with a 2.10 GPA, and has never participated in softball. Is Student-Athlete R eligible to participate in softball in the upcoming spring term?

ANSWER:
Yes. Because Student-Athlete R has never participated, she would satisfy the provisions of 2.D.2.f (24 semester hours with a 2.00 GPA or higher) since the spring term is her first (initial) term of participation.

Case 2
Non-Participant Transfer

SITUATION:
Student-Athlete R attends Four-Year Institution A for four (4) concurrent full-time semesters passing 10 credit hours in the previous full-time term and having accumulated 32 credit hours with an overall GPA of 2.86. Student-Athlete R has never participated in intercollegiate athletics. Is Student-Athlete R eligible for immediate participation at an NJCAA member college?

ANSWER:
Yes. Because Student-Athlete R has never participated, he/she would satisfy the provisions of Section 2.D.2.f. A first season participant must have passed a minimum of 24 credit hours with a 2.00 GPA or higher, regardless of previous term or other accumulation requirements.

Case 3
Two-Term Sport

SITUATION:
Student-Athlete R has accumulated 24 semester hours with a 2.00 GPA prior to the beginning of a first season of basketball, in four (4) full-time terms of attendance. This accumulation allows Student-Athlete R to be eligible for basketball in the fall term. What is the eligibility requirement for Student-Athlete R to continue basketball into the spring term?

ANSWER:
Once the season began for Student-Athlete R in basketball (a two-term sport) the student-athlete may become eligible by utilizing Section 2.D.2.c., 2.D.2.d. or 2.D.2.e. Section 2.D.2.f cannot be used for the spring term of basketball because the fall term was Student-Athlete R’s initial term (first term) of participation. The spring term is the student-athlete’s second term of participation and this rule can no longer be used in eligibility for this student-athlete in the sport of basketball. If the student-athlete had not participated during the fall term, the spring term would then become his/her first (initial) term of participation and then first participating term exception could be used in determining the student-athlete’s eligibility.

NOTE: Section 2.D.2.f does not constitute eligibility for a full season of participation in a two-term sport, but only for the initial term (first term) of participation.
Second Season Academic Accumulation (Section 2.D.3)

Case 1
Requirements Prior to a Second Season of Participation in a Fall Sport

SITUATION:
Student-Athlete R, a freshman, enrolls in 15 credit hours at Community College A and participates in soccer. At the completion of the semester, Student-Athlete R has earned 15 credit hours with a 4.00 GPA. Student-Athlete R does not attend the spring term and returns to college the following fall semester. Is Student-Athlete R eligible to participate in soccer?

ANSWER:
No. In this case Student-Athlete R has earned only 15 credit hours and he/she must have earned a total accumulation of 24 semester credit hours with a 2.00 GPA or higher to participate in a second season.

Case 2
Quarter Example – Requirements Prior to a Second Season of Participation

SITUATION:
The following credits were earned by Student-Athlete R:
Fall quarter - enrolls in 12 credit hours and passes 12 credit hours with a 1.75 GPA (Participates in indoor track, 1st season.)
Winter quarter - enrolls in 12 credit hours and passes 12 credit hours with a 2.25 GPA (Participates in indoor track, 1st season.)
Spring quarter - enrolls in 10 credit hours and passes 10 credit hours with a 2.00 GPA
Is Student-Athlete R eligible for a second season of indoor track?
ANSWER:
Yes. Section 2.D.3 requires 28 quarter credit hours with a 2.00 GPA prior to a second season of participation, if the student-athlete has attempted only two (2) or less full-time quarters. If the student-athlete was full-time during the spring quarter then he/she would need 36 credit hours earned for three (3) full-time quarters.

Case 3
Semester Example – Requirements Prior to a Second Season of Participation

SITUATION:
The following credits were earned by Student-Athlete R:
Fall semester - enrolls in 12 credit hours and passes 12 credit hours with a 2.50 GPA (Participates in cross country, 1st season.)
Spring semester - enrolls in 15 credit hours and passes 13 credit hours with a 3.50 GPA
Is Student-Athlete R eligible for a second season of cross country?
ANSWER:
Yes. Student-Athlete R has attempted two semesters and must have earned 24 credit hours with a 2.00 GPA or higher prior to a second season of participation. In this case, Student-Athlete R has earned a total of 25 credit hours and is eligible. The student-athlete also satisfies Section 2.D.2.d and 2.D.3.

Case 4
Use of Part-Time Credits to Meet Second Season Requirement

SITUATION:
The following is the academic record for Student-Athlete R:
Fall semester - enrolls in 12 credit hours and passes 12 credit hours with a 2.75 GPA (Participates in basketball, 1st season.)
Spring semester - enrolls in 12 credit hours and passes 9 credit hours with a 2.00 GPA (Participates in basketball, 1st season.)
Summer session - enrolls in three (3) credit hours and passes 3 credit hours with a 2.000 GPA
Is Student-Athlete R eligible for the upcoming basketball season, his second season?
ANSWER:
Yes. Credit hours used in the accumulation requirements of Section 2.D.3 can be acquired any time prior to the second season of participation.
NOTE: Transfer student-athletes must meet the requirements of Section 2.D.3 prior to the start of his/her second season.

Case 5
Eligibility at Mid-Year for Second Season Participant

SITUATION:
What are the eligibility requirements of a second season student-athlete entering his/her third semester or fourth quarter of full-time attendance?
ANSWER:
Before a student-athlete can participate in a second season of competition the requirements of Section 2.D.3 must be satisfied.

Case 6
Counting Developmental Classes for a Second Season Athlete

SITUATION:
Student-Athlete R is a second season athlete and has earned a total of 36 hours over three (3) full-time terms. Three (3) of the 36 hours are from a developmental class (Math 001) which Student-Athlete R successfully completed during his/her last term of enrollment. Can the three (3) credits for the Math 001 course be counted to meet NJCAA eligibility requirements?
ANSWER:
Due to the fact that Student-Athlete R successfully exited the developmental class, three (3) hours may be used to meet NJCAA eligibility requirements for a second season of participation. However, if student-Athlete R had not successfully exited the class, no hours could be used to satisfy section 2.D.2 and/or 2.D.3.

Case 7  
Accelerated Courses – 2.D.3

SITUATION:
Second season Student-Athlete R enrolls for the fall term at Community College A in 15 credit hours. A three (3) credit hour course begins August 28th and is completed October 15th. The basketball season begins on November 28th. Can Student-Athlete R use the three (3) credit hour course towards his/her accumulation of 24 credit hours to satisfy Article V, Section 2.D.3?

ANSWER:
Yes. All students have until they participate to accumulate the required credits to meet Article V, Section 2.D.3. It is not required that 2.D.3 be met within the first 15 calendar days of the term only prior to participation.

Case 8  
Second Season Athlete who is Not a High School Graduate

SITUATION:
Student-Athlete R is not a high school graduate. He participated in his first season of intercollegiate baseball during the spring 2017 season at a non-member college. The non-member college allows non-high school graduates to participate in their organization. Because he is a second season athlete, is he able to participate in the upcoming spring 2018 baseball season?

ANSWER:
No. The fact the student-athlete has previously participated in their first season of intercollegiate athletics does not provide them an avenue to participate in the NJCAA as a non-high school graduate for their second season of participation. The student in the above situation must have passed an equivalency exam recognized by the state department of education or received his high school diploma in order to participate in the NJCAA.

Certified Disabled Student-Athlete (Section 2.E.1)

Case 1  
Section 2.E.1.d.i – Student’s Class Schedule

SITUATION:
Student-Athlete R’s class schedule for the fall term is showing that he/she is enrolled in 13 hours. Will a certified learning disability be approved by the National Office?

ANSWER:
No. As per Section 2.E.1.d.i the “appropriate institutional academic authority (e.g., registrar) that the institution has defined the student-athlete’s full-time enrollment to be less than 12 credit hours to compensate for the student-athlete’s disability.” Therefore, if the student is enrolled in 12 or more hours, the college has not deemed that less than 12 hours is appropriate for the student’s disability.

Case 2  
Section 2.E.1.d.vi.d – Written Documentation of Certified Disability

SITUATION:
Community College A submits documentation to the NJCAA National Office relative to a certified disability for Student-Athlete R. The documentation is from the summer of 2012, during Student-Athlete R’s high school enrollment. Will this documentation suffice, or will an updated evaluation be required?

ANSWER:
The NJCAA requires a current diagnosis, which must have been made within the last three (3) years. Circumstances of this case may allow the NJCAA to waive this requirement.

Case 3  
Institutional Policies on Disabled Student-Athletes

SITUATION:
Community College A does not have a policy or a program in place for disabled students at their institution. Can Community College A receive relief under the provisions of the NJCAA disabled student-athlete policy?

ANSWER:
No. The NJCAA’s policy requires that the student-athlete in question be in the college program designed to support and accommodate the student-athlete’s disability.

Case 4  
Exempt Rules for Disabled Student-Athletes

SITUATION:
Which NJCAA regulations can be adjusted or exempted under the disabled student-athlete policy?

ANSWER:
The eligibility regulations set forth in Article V, Sections 2.D.2 and 2.D.3 may be granted adjustments to or exemptions from. These sections refer to full-time enrollment and previous term eligibility requirements. Disabled student-athlete adjustments and or exemptions must be approved by the NJCAA National Office prior to participation.
Case 5

Student-Athlete Notification to the College

SITUATION:  Does the student-athlete have an obligation to notify the college of his/her disability prior to the beginning of the academic term or year?

ANSWER:  Yes. Any student-athlete applying for relief under this section must notify the college of his/her disability prior to the beginning of the academic term or year as per the American Disabilities Act (ADA) of 1990. If the student-athlete does not notify the college and thereby does not enroll in the support program offered by the college, relief cannot be granted until the following academic year.

Case 6

Disabled Student-Athlete – Second Season

SITUATION:  Student-Athlete R has a certified learning disability and has been approved through the NJCAA National Office to participate while being enrolled in less than 12 credit hours. Student-Athlete R participated in one season of intercollegiate soccer. What is the number of credits the student will need to have successfully accumulated in order to participate in a second season of NJCAA soccer?

ANSWER:  The second season requirement for Student-Athlete R under these circumstances would be as follows. Assuming the NJCAA National Office approved the student for participation while being enrolled in nine (9) credit hours during his/her first season of participation, the number would double for the second year requirement. Student-Athlete R would be required to have passed 18 credits with a 2.000 GPA prior to their second season of participation to be eligible. If the approval had been for 11 hours then the second year requirement would be 22 credits at a 2.000 GPA level.

Case 7

Disabled Student-Athlete – Continued Participation in a Two Term Sport

SITUATION:  Student-Athlete R has a certified learning disability and has been approved through the NJCAA National Office to participate while being enrolled in less than 12 credit hours. Student-Athlete R has been approved to participate while being enrolled in nine (9) credits hours. Student-Athlete R is a basketball athlete. What is the requirement for this student to continue to participate on the basketball team during the spring term?

ANSWER:  The student is required to have accumulated nine (9) credits at a 1.75 GPA in order to meet the requirements of Article V, Section 2.D.2.b (one previous full-time term) and maintain his/her eligibility.

Eighteen (18) Months Non Full-Time Attendance (Section 2.E.2)

Case 1

Method of Counting Eighteen Calendar Months

SITUATION:  Before the completion of a term, Student-Athlete R withdraws from college. After a time lapse of approximately a year and a half of non-college attendance, Student-Athlete R decides to enroll at an NJCAA member college. How does one determine if Student-Athlete R satisfies the 18-calendar month rule of Section 2.E.2?

ANSWER:  The procedure is to count 18 full months beginning with the student-athlete’s official date of withdrawal as recorded by the college (i.e. February 15 to March 14 = 1 month). If the student-athlete did not officially withdraw, the countdown begins after the last day of the term which the student-athlete was enrolled as a full-time student. A 15-calendar day allowance will be given to benefit the student-athlete. If a student-athlete was not in full-time attendance 17 months and 15 days he/she will have satisfied this rule.

NOTE:  If the student-athlete did not serve in the U.S. Armed Forces, a church mission or with a recognized foreign aid service of the United States Government the provisions of Section 2.D.3, 24 semester or 28/36 quarter hours prior to a second season of participation, must be met prior to participation.

Case 2

Eighteen Calendar Months After Participation

SITUATION:  Student-Athlete R attends Community College A during the course of two semesters and participates in basketball. Student-Athlete R has an accumulation of 22 semester credits. Student-Athlete R chooses to serve in the Armed Forces of the United States for the next two years. If Student-Athlete R returns to Community College A after not attending college for a period of 18-calendar months or longer, is he/she immediately eligible to participate in a second season of basketball competition?

ANSWER:  Yes. Student-Athlete R is exempt from Section 2.D.3 of the eligibility rules.

NOTE:  Student-Athlete R must serve in the United States Armed Forces, a church mission or with a recognized foreign aid service of the United States Government to be exempt from the 24 semester or 28/36 quarter hour requirement for a second season athlete (2.D.3). Documentation of this service must be sent to the NJCAA National Office for pre-approval.
Case 3
Eighteen Months Out, One Term Back

SITUATION:
Student-Athlete R attends college two full-time terms, passing only 15 credit hours with a 1.50 GPA, but does not participate in sports. Student-Athlete R joins the U.S. Military for two full calendar years, then returns in the fall term to participate in wrestling. Student-Athlete R is eligible for the fall term based upon the 18 calendar month rule exempting him from Section 2.D.2. However, Student-Athlete R passes only 10 out of 12 credit hours from the fall term. Is Student-Athlete R eligible for the spring term?

ANSWER:
No. Student-Athlete R is responsible for three previous full-time terms and therefore must have passed either 12 credit hours with a 2.00 GPA in the previous full-time term or 12 x 3 = 36 credit hours with a 2.00 GPA. Once the student-athlete enrolls full-time after the 18-month break, he/she may no longer use this exemption.

Case 4
18 Month Non-Attendance Rule – Occurring Twice

SITUATION:
Student-Athlete R graduates from high school and attends Community College A for two terms during the 2005-2006 academic year and does not participate in intercollegiate athletics. He joins the military in August 2006 and is deployed for a period of 24 months. He comes back to Community College A, attends full-time, and participates in baseball during the spring 2009. He qualified for the 18-Month Non-Attendance Rule for spring 2009 eligibility. After the spring 2009 term he is unable to attend college as a full-time student for another 30 months. May he use the 18-Month Non-Attendance rule again and be eligible to compete for his second season of participation?

ANSWER:
Yes, as long as he has met Section 2.D.3 prior to the start of his second season he is eligible to participate.

Case 5
Ten Month Church Mission

SITUATION:
Student-Athlete R participates in football at Community College A during the 2004 season. Student-Athlete R then goes on a certified mission with his church for a period of ten months. At this time, Student-Athlete R then enters the work force for one year. Is Student-Athlete R exempt from Article V, Section 2.D.3 (second season requirement)?

ANSWER:
No. Section 2.E.2.b requires that the student-athlete be on a mission for eighteen (18) calendar months or longer in order to receive an exemption from Section 2.D.3. However, he/she is exempt from Sections 2.D.2 and 2.D.3.

COMPLIANCE ELIGIBILITY

Falsification of Eligibility

Case 1
Student-Athlete Falsifies Eligibility Information

SITUATION:
Student-Athlete R is a transfer from a non-member college and participated in one season at that institution in wrestling. He then transfers to Community College A. On the NJCAA Eligibility Affidavit form he states that he did not participate at the non-member college and in addition he provides transcripts to the athletic department. Research is conducted concerning his participation and transcripts and it is found that his statements on the Affidavit and his transcripts have been falsified. Is Student-Athlete R still eligible for competition?

ANSWER:
No. Because the student-athlete falsified information/materials used to determine his eligibility, he is ineligible for competition in any sport at any school in the NJCAA. Any falsified information regarding a student-athlete’s eligibility will result in a ban in participation within the NJCAA indefinitely.

Case 2
Member Institution Falsifies Eligibility Information

Should a member college be found to have falsified eligibility Information, the immediate penalty will be probation. The case may be reviewed by the Standards and Ethics Committee for further sanction.

General

Case 1
Practice with another College while the Season is in Progress

SITUATION:
While a member of Community College A’s program, Student-Athlete R practices with Four-Year Institution X. Is this considered a violation of NJCAA bylaws?
ANSWER: Yes. While the season is in progress, Student-Athlete R may not play or practice with another collegiate program or any other team.

Case 2
Participation on Two Different Teams

SITUATION: While a member of Community College A's basketball team, can Student-Athlete R participate with a recreational basketball team while also participating with his/her college team?

ANSWER: No. NJCAA bylaws prohibits participation on any team in the same sport while the season of that sport is in progress.

Case 3
Playing Two Sports at Same Time

SITUATION: Student-Athlete R, a basketball player at Community College B, would like to compete in an indoor track and field meet representing Community College B during basketball season. Will Student-Athlete R's participation in the indoor track and field meet jeopardize his/her eligibility to continue playing basketball?

ANSWER: No. Student-Athlete R will be eligible to compete in both basketball and indoor track and field for Community College B. This bylaw is referring to participating for more than one team in the same sport while the season of that sport is in progress.

Case 4
Participation after the Season

SITUATION: After the basketball season at Community College A has ended, members of the basketball team join teams which are not associated with the college. Can a freshman who plans to return to Community College A the following year participate on a non-college team without having an NJCAA sanction?

ANSWER: Yes. Once the season has been completed, student-athletes may participate on non-college teams without it affecting their eligibility.

Case 5
Team Participation in Community Recreation League

SITUATION: Community College A wants to have their baseball team participate in the local fall men's league which is run by the local Recreation Commission. Is this possible in place of having a traditional fall college baseball season?

ANSWER: No. Teams that are associated to member institutions are not permitted to participate in non-intercollegiate leagues. The Community College team may participate against some of those same teams but would not be permitted to join the league.

Case 6
Participation in Open Meets

SITUATION: Community College A enters student-athletes in an open wrestling tournament which is listed as an open event on their regular schedule. The college provides transportation and pays the entry fees for the student-athletes. Can Community College A enter student-athletes in this tournament who are not academically eligible, and listed on the college eligibility form?

ANSWER: No. Only those student-athletes who satisfy all provisions of the NJCAA Rules of Eligibility shall be allowed to compete in the open tournament. Any type of competition in which student-athletes represent the college must be a part of the college wrestling schedule. NJCAA member colleges may not provide funding for student-athletes not listed on the eligibility form for that sport and that year. This funding includes, but is not limited, to transportation and meals. The community college coaching staff may not coach or provide assistance to an athlete not listed on the NJCAA eligibility form for that sport, submitted online by the member college to the NJCAA National Office.

CERTIFICATION ELIGIBILITY
Certifying Eligibility Form (Section 3.B.1)

Case 1
What to do after Submitting an Eligibility Form
1. After submitting an eligibility form, the online program will immediately take you back to the "Student-Athlete Eligibility Form" page which will show the creation date of the form, the term, the status of the form, and the date that form was submitted.
2. On the "Student-Athlete Eligibility Form" webpage you will need to make sure that all student-athletes are on the form that you have just submitted. You can do this by clicking on the view icon under the Actions column on the line of the form that you have recently submitted to reopen the form. The submitted form will pop up in a new window. In addition, this is the official eligibility form that must be signed by all parties.

What to do if you see a new “NOT SUBMITTED” form:
If you see a new “Not Submitted” form this means that at least one student-athlete did not go through on the newly submitted form or there was a problem submitting the form. The new “Not Submitted” form is automatically created when student-athletes are ineligible and have “X’s” by their names. The “X” means that the program determined that the student-athlete is ineligible and will not allow ineligible athletes to be submitted on an eligibility form, thus a new form is automatically created. Your next step here is to determine why there is an “X” by the student’s name. Maybe this is because the student is ineligible, a box was left blank or a box was typed incorrectly - i.e. the GPA of 3.25 is typed in as 3,25 (a comma instead of a decimal).

CONFIRMATION EMAILS:
The eligibility program will send a confirmation email when the form has been submitted online. Although these emails are helpful, sometimes a submitted form can be blank so do not solely rely on these emails to confirm that your forms have been submitted. Again go through the process of reopening all forms immediately after submitting them.

- The confirmation email is emailed to the person who logged in and created the eligibility submission. If you do not receive your confirmation emails it could be because your junk mail or spam blocker is preventing the email from going through to your inbox.
- It is important to check the submission of your eligibility forms to remain compliant with the deadlines located in the bylaws. It is also wise to take the initiative in starting the eligibility process early enough to give yourself enough time to enter the eligibility and to solve any problems that may occur along the way.
- Again if you are ever late submitting an eligibility form notify the Office of Eligibility at the NJCAA National Office.
- The online eligibility instructions are located on the NJCAA website under the school site.

Case 2

Online Eligibility Submission

SITUATION:
Community College A begins its fall term on September 5th. The first Volleyball match is scheduled for August 22nd. What is the date the online eligibility must be submitted?

ANSWER:
NJCAA bylaws require eligibility to be completed in the online system prior to a student’s initial participation. In this case the eligibility must be completed and submitted in the NJCAA Online Eligibility system prior to the match on August 22nd.

Case 3

Online Eligibility Submission using Projected Enrollment

SITUATION:
Community College A begins its fall term on September 5th. The first volleyball match is scheduled for August 22nd. Student-Athlete R has not yet enrolled in classes at the time of the first match. Can the eligibility form be completed and submitted using a project enrollment for student-athlete R?

ANSWER:
No, the fact the student is not enrolled in 12 or more credits that meet NJCAA requirements leaves the student-athlete ineligible for participation. Student-Athlete R may not be certified using projected enrollment. Using projected enrollment would be a case of falsification of information resulting in sanction.

Case 4

Online Eligibility Submission

SITUATION:
Community College A begins its fall term on September 1st. The first date of competition in volleyball is September 6th. When must the online eligibility for all participating student-athletes be submitted?

ANSWER:
Online eligibility for all student-athletes must be submitted prior to participation (Article V, Section 3.B.2). Penalties for failure to submit are identified within Article V, Section 3.B.4 and due to student-athletes not becoming officially eligible until the eligibility forms have been submitted online, all games in which the team has participated must be forfeited as per Article V, Section 3.D.

Case 5

Beginning Date of Outdoor Track and Field Season

SITUATION:
Community College A participates in the NJCAA National Championship Indoor Track and Field Meet. Because of their geographic location and the cold weather conditions, Community College A continues to participate in indoor track and field meets after the National Championship Meet. Are the meets which are held indoors following the NJCAA National Championship Indoor Meet considered a part of the indoor or the outdoor season?
ANSWER: Any meets which are conducted after the NJCAA Championship Indoor Meet must be considered as part of the outdoor track and field season even though they may be conducted as indoor meets. An outdoor eligibility form is required to be submitted online as per the deadlines in Article V, Section 3.B.2.

Case 6
Deadline for Submitting Eligibility Forms

SITUATION: The fall quarter at Community College A ends on November 15th according to their college catalog. The first basketball game of the published schedule is November 15th at 9 p.m. Must Community College A submit a basketball eligibility form online for the fall quarter? NOTE: The next quarter begins on November 16th.

ANSWER: Yes. The first basketball game was played during the fall quarter; therefore, the college must submit an eligibility form online prior to the first regularly scheduled contest as well as submitting a form for the following quarter as per the recertification deadlines in Article V, Section 3.B.2.b - Recertification. If the game would have been played on November 16th instead of November 15th, the eligibility would be required to be submitted prior to participation in the first game but no recertification would be required at that time.

Case 7
Submitting Eligibility Forms for All-Star and Open Competitions – (Fall Baseball/Softball/Golf/Tennis)

SITUATION: Community College A has three softball players that have been chosen to compete in a conference All-Star game in October. Does Community College A have to file fall softball eligibility for these players?

ANSWER: Yes. Community College A must file eligibility for all players who participate in any open or all-star competitions that are sponsored by a conference or region.

NOTE: If the student-athletes are competing in an open or all-star event not sponsored by a region or conference then the student-athlete cannot represent Community College A and eligibility does not need to be filed. Community College A may not provide entry fees, equipment, transportation, lodging, meals, etc. to the student-athlete to these non-conference/region sponsored events. (Please refer to Article V, Section 4.C for more information about Student-Athlete Participation in All-Star and Open Competitions.)

Case 8
Submitting an Eligibility Form for Participants in Open Tournaments

SITUATION: Does an eligibility form have to be submitted for Community College A’s wrestling team which competes only in open tournaments during the fall term?

ANSWER: Yes. Any scheduled tournaments which student-athletes enter as representatives of a member college, either open or invitational, all student-athletes must satisfy the NJCAA Rules of Eligibility and an eligibility form must be submitted online prior to participation in order for those student-athletes to be eligible to compete. (Please refer to Article V, Section 4.C for more Open Tournament Information and Article V, Section 3.B.2.b for more Recertification information since wrestling is a two-term sport.)

Case 9
Seasons which begin between Terms (Outdoor Track example)

SITUATION: At Community College A, the winter term ends on March 15th and the spring term begins on March 20th. The first outdoor track and field meet is scheduled for March 16th. Is the outdoor track and field season part of the winter term or the spring term?

ANSWER: Spring term. Whenever the first scheduled meet or game begins between terms, the sport season shall be considered a part of the next term. Eligibility form must be submitted prior to participation.

Case 10
Seasons which begin between Terms (Basketball example)

SITUATION: The fall semester at Community College A ends on December 10th and the spring semester begins on January 12th. The first basketball contest is scheduled for January 2nd. When must eligibility information be submitted online to the Office of Eligibility?

ANSWER: Eligibility must be filed prior to initial participation. In this case eligibility must be filed prior to the game on January 2nd.

Case 11
Fall Qualification for Spring Championships

SITUATION: Does an eligibility form have to be submitted for an individual or a team which qualified during the fall term for a National Championship held in May?
ANSWER:
No. An eligibility form does not need to be submitted, but instead, a list of the names of the student-athlete qualifiers for the Spring National Championship must be submitted to the National Office on college letterhead showing the number of credit hours each student-athlete is enrolled in for the spring term or the college may provide spring class schedules for each student-athlete verifying full-time status. The student-athletes must have valid physical examinations. This information will need to be submitted to the National Office prior to the deadlines listed in Article V, Section 3.B.3 and the athletic director will need to sign this letter.

Case 12
No Schedule – Deadlines for Eligibility Information

SITUATION:
Community College A does not schedule any regular season bowling matches. They do however, plan on entering the National Championship Bowling Tournament. When is it necessary for Community College A to submit eligibility information online?

ANSWER:
Eligibility information must be approved before the deadline dates established in Article V, Section 3.B.3.a. The form must be submitted online to the National Office in advance of the printed deadline.

Adding Participants on Eligibility Forms (Section 3.B.3)

Case 1
Section 3.B.3.a – Supplementing Individuals

SITUATION:
Community College A begins their basketball season on November 20th. Student-Athlete R joins the team on December 1st and is not listed on the original eligibility form. Can Student-Athlete R be supplemented to the eligibility roster?

ANSWER:
Yes. Student-Athlete R must be submitted online through the official NJCAA eligibility program before participating. Student-athletes can be supplemented at any time during the regular season schedule if they satisfy all provisions of the NJCAA Rules of Eligibility (see deadline dates in Section 3.B.3.a).

Case 2
Section 3.B.3.a – Supplementing Individuals

SITUATION:
Community College A begins their cross country schedule on September 5th. When is the last day Student-Athlete R may be added to the eligibility form, and be eligible for Regional and National competition?

ANSWER:
Section 3.B.3.a lists the deadline dates for submitting, approval and additions for each sport.

Case 3
Section 3.B.3.a – Adding Players to Roster

SITUATION:
The last day of the spring semester at Community College A as shown on its academic calendar is May 15th. The regular baseball schedule ends on May 10th. Can student-athletes who were not eligible during the spring term participate in postseason play if they satisfy the provisions of Article V, Section 2.D.2 following the completion of the spring term?

ANSWER:
No. Once the regular season schedule has ended, no additions can be made to the team's roster. It should be noted that because the regular season schedule ended before the last day of the term, all student-athletes who were team members during the spring term remain eligible through all postseason games as long as the student-athletes maintained full-time enrollment throughout the end of the spring term.

Case 4
Section 3.B.3.a – Regional Qualifications for the Spring National Tournament

SITUATION:
If a region conducts a Regional qualifying tournament during the fall term and the National Championship is held during the spring, what academic requirements must the student-athlete satisfy to be eligible for the National Championship?

ANSWER:
The student-athlete must be enrolled full-time in 12 or more credit hours during the semester or quarter that the Spring National Championship is held. Spring class schedules must be provided to the NJCAA National Office for those athletes that plan to participate in the National Championship no later than the deadlines listed in Section 3.B.3.a.
Case 5
Eligibility of Student-Athletes if Season begins Between Terms

SITUATION:
The basketball season at Community College A begins on December 20th. The fall term ended on December 15th, five (5) days prior to the beginning of the basketball season. Because the season schedule begins after the fall term ends, basketball at Community College A is not conducted during the fall term but is considered as having its season conducted during the spring term. What are the requirements for student-athletes to be eligible for the first contest which is being played between the fall and winter terms?

ANSWER:
Student-athletes must satisfy the following rules:
1. Enrolled in 12 or more credit hours for the spring term.
2. Satisfy the provisions of academic progress requirements from the previous term(s) of full-time enrollment if the student-athlete has previously attended college.
3. Satisfy the provisions of Article V, Section 2.D.3 if the student-athlete is beginning his/her second season of competition.

NOTE: In this case, student-athletes were not required to have been enrolled full-time or even enrolled at all during the immediate previous term. The student-athlete's eligibility is based on the last term of full-time enrollment.

Case 6
Eligibility of a New Student-Athlete Between Terms

SITUATION:
The first indoor track and field meet at Community College A begins on January 15th. The January 15th date falls between the end of the fall semester and the beginning of spring semester. Can Student-Athlete R, a new student-athlete, participate at the first indoor meet scheduled for January 15th?

ANSWER:
Yes. Student-Athlete R, a first term freshman, is eligible if he/she is appropriately enrolled full-time in the spring term at Community College A.

Case 7
Participation after Completion of Term

SITUATION:
The last day of the spring semester at Community College A is May 5th. The last regularly scheduled baseball game (excluding postseason competition) is May 3rd. Student-Athlete R, a member of the baseball team, completes the spring semester having earned only 9 credit hours. Is Student-Athlete R eligible to compete in the Regional Tournament scheduled on May 10th and if his team wins, continue to play in the District and National Tournament?

ANSWER:
Yes. Because the last regularly scheduled game occurred on or before the last day of the spring semester, Student-Athlete R remains eligible for the duration of the postseason tournaments. NJCAA bylaws state "if the regular season schedule of a sport ends before the last day of the term, all student-athletes remain eligible for postseason competition (Regional and National competition), provided full-time enrollment is maintained throughout the term."

Case 8
Supplementing Individuals after Academic Probation

SITUATION:
Student-Athlete R, a transfer from a four-year institution, is serving 16-calendar weeks of probation when the basketball season at Community College A begins. Student-Athlete R's probation ends after the first semester but will be completed before the beginning of the next semester. Can Student-Athlete R participate before the beginning of the next term?

ANSWER:
Yes. Student-Athlete R can be submitted on a supplemental online eligibility form after the first semester ends provided the 16-calendar weeks of probation has expired. Student-Athlete R becomes eligible on the date in which he/she was submitted online through the NJCAA online eligibility program. Student-Athlete R must also meet one of the academic progress requirements to be removed from the ineligible transfer list.

Recertification

Case 1
When to Submit Eligibility for the Second Term of a Two-Term Sport

SITUATION:
Community College A ends their fall term on December 15th, the next upcoming games are on December 28th and 29th as well as January 5th and 10th. When must the recertification eligibility be submitted by?

ANSWER:
NJCAA bylaws allow for the fall eligibility to cover the first 20 calendar days following the end of the fall term. With the fall term ending on December 15th, the 20 calendar day window extends through the 4th of January. Community College A must submit the recertification of eligibility prior to the game on January 5th as it is the first game outside of the 20 calendar day window. Failure to submit recertification prior to the game on the 5th will result in sanctions as Community College A does not have any eligible athletes for that contest without submitting the recertification of eligibility.
When to File for the Second Term of a Two-Term Sport when Student-Athlete is Taking a Winter-Intercession Class

SITUATION:
Community College A ends their fall term on December 20th, and conducts a winter intersession from January 2nd to January 18th, with the spring term beginning on January 25th. What dates are key for the student-athlete who is trying to establish eligibility for second term basketball?

ANSWER:
This student-athlete would remain eligible for 20 calendar days from December 20th based on their fall eligibility. On or before January 9th the student must stop participation. If the student-athlete satisfactorily completes the course on January 18th and meets the eligibility progress requirements, he/she may be added to the eligibility form, the student-athlete becomes eligible on the online submission date. In addition, the course must be completed on or before the 15th calendar day of the spring term in order to use the intercession course to satisfy academic progress requirements for that spring term participation.

Case 3
Recertification – Submitting Mid-Year Eligibility

SITUATION:
Community College A has a 30-game basketball schedule which spans both the fall and the spring semesters. Must an eligibility form be submitted for the second term?

ANSWER:
Yes. The eligibility forms must be submitted through the online eligibility program prior to the first game outside of the allowable 20 calendar day window of the spring term. Newly added athletes to the roster must be submitted on eligibility prior to their initial participation. Any athletes who have maintained their eligibility from the fall term must be recertified in accordance with the appropriate scenario listed below. (Please refer to Section 3.b.2.b for more Recertification information.)

Case 4
Recertification Scenarios – When to Recertify for the Second Term for a Two-Term Sport

All athletes remain eligible from the fall.
~ Recertify the team prior to participation in the first contest outside of the 20 calendar days after the term.

All athletes who participated during the fall are all eligible for the spring and ineligible athletes who did not participate in the fall but have become eligible for the spring term.
~ If you are adding these athletes before the 20th calendar day after the end of the fall term, the entire team must be recertified for the spring term at the same time. Those athletes completing a probationary period can be added once their terms of the probation are completed.
~ If you are adding these athletes after the 20th calendar day after the end of the fall term, then you must certify that athlete on a spring term eligibility form and recertify the remainder of the team prior to participation in the first contest outside of the 20 calendar days after the term.

There are ineligible athletes from the fall who cannot play during spring term and there are no new athletes to add for the spring term.
~ Ineligible athletes may participate during the next 20 calendar days following the end of the fall term. On the 21st calendar day those ineligible athletes may not continue participating.
~ Recertify the remainder of the team prior to participation in the first contest outside of the 20 calendar days after the term.
~ Student-Athletes who become ineligible may resume participation once they regain their eligibility and are submitted online.

There are ineligible athletes from the fall who cannot play during spring term and newly eligible athletes to be added for the spring term (2 different scenarios):
1. If you allow ineligible athletes to participate for the 20 calendar days following the end of the fall term, you may not allow the newly eligible athletes to participate during those 20 calendar days. If you choose this scenario, the ineligible athletes must cease participation on the 21st calendar day and the newly eligible athletes can be added anytime on or after this 21st calendar day on a spring eligibility form. These athletes must be certified prior to participation.
   ** The remaining team members must be recertified prior to participation in the first contest outside of the 20 calendar days after the term.
2. If you choose to exchange the ineligible athletes for the newly eligible athletes before the 20th calendar day after the end of the fall term, the remainder of the team must be recertified for the spring term at the same time. The exchange of these athletes must occur on the same day. Ineligible and newly eligible athletes cannot be participating at the same time.

Case 5
Recertification – Two-Term Sports – Officially Posted Grades

SITUATION:
When determining eligibility for the spring term for basketball, what grades should Community College A use? Can letters from teachers containing the student-athletes’ grades suffice or are official posted grades necessary?

ANSWER:
Community College A must wait until official grades from the registrar’s office are posted prior to determining and submitting eligibility for the basketball team for the spring term. Only those grades from the registrar’s office are official. (Please refer to the Recertification section in Section 3.B.2.b for when to submit for the second term of a two-term sport.) A letter from the teacher stating the student-athletes grade is not sufficient for NJCAA eligibility purposes.
Case 6
Recertification – Precedence

**SITUATION:**
Once the recertification process has taken place and that recertification took place within the 20 calendar day window following the end of the fall term, may student-athletes who were eligible in the fall term but will not be eligible in the spring term continue to participate for 20 calendar days beyond the end of the fall term even though recertification has taken place?

**ANSWER:**
Once recertification has been completed that eligibility supersedes any and all previous eligibility submissions. The students listed on the recertification are the only student-athletes eligible for participation at that time. The previous fall certification becomes null and void.

Non-Participation Form

**Case 1**
The Purpose of the Non-Participation Form

**SITUATION:**
What is the purpose of the Non-Participation Form that is required to be completed online with a deadline of July 1st for each academic year?

**ANSWER:**
Submitting the information for all participants and non-participants online for each sport season every year will create a database of all student-athletes who have been submitted on the NJCAA Eligibility System. Therefore member colleges and the National Office can search for this information to know which student-athletes have participated and have not participated within the NJCAA.

**Case 2**
When a Sport has been Dropped or the College will not be Fielding that Sport?

**SITUATION:**
Community College A has indicated it will sponsor the sport of women’s lacrosse for the 2017-2018 academic year. Prior to the start of the lacrosse season, Community College A determines they do not have enough players to field a team and cancels the sport for that season. Therefore the college will not be submitting an online eligibility form. When should the NJCAA National Office be notified that the college has cancelled the season or cannot field the sport?

**ANSWER:**
The NJCAA National Office should be notified of Community College A’s decision to officially cancel the sport for the season as soon as the college has made this decision. That way, the Office of Eligibility can update the NJCAA website as well as other office records to avoid having to ask for Community College A’s women's lacrosse eligibility form during the season.

**Case 3**
When to Submit Eligibility for Fall Golf and Tennis when the College’s Main Season is in the Spring

If any of the following occur for any team, eligibility must be submitted:
1. The college pays for any or all expenses for a team or individual student-athlete participating in an open competition. Expenses include, but are not limited to the following: food, lodging, transportation, gas money and entry fees. Expanding further on #1: students cannot travel in college provided transportation or in a coaches’ vehicle. Students cannot borrow a coach’s vehicle for transportation to an open competition.
2. Student-athletes are representing the college by wearing college uniforms and/or showing in the results as representing the college.
3. Any member of the coaching staff coaches the student-athlete before, during and/or after the competition.
4. Due to this bylaw, eligibility must be submitted for those players/teams that participate in competitions that are outside of the regular season. This rule does not only apply to fall tennis and golf - this is the same rule for any sport: wrestling, track, baseball and softball, etc.

If any of the four items above apply, eligibility must be submitted online prior to the first competition date even if the team’s main season occurs in a different term.

Eligibility is not required to be submitted for a scrimmage season, however be aware that in order for a scrimmage to be counted as a scrimmage, it must meet the requirements for a scrimmage including, all teams/colleges participating in the competition must distinguish the competition as a scrimmage. One team/college cannot count the competition as a scrimmage and all other teams/colleges count it as a regular season game. Therefore prior to going to an invitational or tournament, please know how to count the competition.

Ineligible Players Dressing in Uniform

**Case 1**
Ineligible Student-Athletes Not Allowed to Dress for Competition

**SITUATION:**
Community College A competes against four-year institution junior varsity teams as part of their regular basketball schedule. Can Community College A allow student-athletes, who are ineligible, to dress or participate in those contests with the four-year institution junior varsity team?
ANSWER: No. All student-athletes participating in official contests must meet all provisions of the NJCAA eligibility. This is applicable to all member colleges that are competing against any outside team regardless if they are a member or not, in an official contest.

Case 2
Red-Shirt Student-Athletes Dressing for a Competition

SITUATION: Student-Athlete R is "red-shirting" during the 2017-2018 basketball season, however he/she is dressed for competition. Is this a violation of NJCAA bylaws?

ANSWER: If Student-Athlete R has not been submitted on the eligibility form, he/she is technically an ineligible athlete. A student-athlete is not eligible until his/her eligibility has been officially submitted online. Therefore the student-athlete in this example may not dress for competition. A NJCAA redshirt is someone who has practiced with the team but has not been certified.

Case 3
Ineligible Player Participating in Pre-Game Warm-Ups

SITUATION: Student-Athlete R is not certified on the baseball team’s eligibility roster and therefore is ineligible. The baseball team takes batting practice two hours prior to the official start of the game. Is it permissible for the ineligible player to be in uniform taking batting practice with the team?

ANSWER: The batting practice, although two hours prior to the game, is still part of the game activities. It would not be permissible for the ineligible player to be in uniform and participate in pregame activities.

 Eligibility – Audits

Audit Information (Section 3.B.6)

Case 1
Section 3.B.6 – Common Questions Concerning Eligibility Audits

1. What information is required for Eligibility Audits? Please look in Section 3.B.6 for all required information for an Eligibility Audit. This information is also included on the Notification of Audit Form that a college will receive via email from the National Office once chosen for an audit.

2. How will the college be notified by the National Office of an Eligibility Audit? The National Office will contact the college via email sending the Notification of Audit Form and by phone. Once the college is contacted, the college has 72 hours from the initial date of contact to have all audit information into the National Office.

3. What form of postal service should the college use to ensure on-time delivery of the audit? The college should use overnight or comparable tracking means.

4. How are the teams chosen for audits at the college? First, the National Office will audit those teams/sports that are currently on probation. Secondly, the NJCAA National Office may audit a program based on cause or concern. Thirdly, the NJCAA will randomly select programs to audit. The NJCAA National Office reserves the right to initiate an audit of any college at any time.

5. How many teams/colleges will be audited every year? The National Office will audit a minimum of 5% of the teams in each sport, every academic year.

6. How will the college be notified about the outcome of the audit review? The National Office will notify the college by email regardless if there is information missing, if the audit has cleared, if there are ineligible student-athletes, if there are corrections, or a violation of the eligibility or Letter of Intent rules.

7. Will the same college be audited more than one time per academic year? If the college is on probation during an academic year, the sport which is on probation as well as an additional three (3) sports at the college will have an audit conducted during that academic year or if the National Office deems it necessary to audit more than one team at a college that is not on probation.

8. In financial records, is a transaction marked as “Cash Payment” adequate information for the NJCAA National Office? Should financial documents be requested as part of the audit process, “Cash Payment” is not an acceptable form of financial documentation. Student-Athletes needing to make a ‘Cash Payment’ should be advised to further document the transaction. The NJCAA National Office will require additional information to clarify this unacceptable financial transaction.
Case 2
The Submitted Copy vs. Preview Copy of the Eligibility Form

SITUATION:
Which of the online eligibility forms must be submitted with eligibility audits?

ANSWER:
The “Submitted Copy” is the only copy of the eligibility form the National Office will accept in eligibility audits. The “Preview Copy” is the “unofficial” copy of the eligibility form that can be printed off any time before submission of the form. Eligibility forms must be successfully submitted online and student-athletes become eligible on the date of their eligibility submissions. If a Preview Copy form is the only online form that has been included in an eligibility audit, the National Office will request a signed copy of the Submitted Copy before clearing the eligibility audit.

Case 3
Transfer Transcripts from Four-Year and Two-Year Colleges

SITUATION:
Student-Athlete R attends a four-year institution and two different community colleges prior to his/her transfer to Community College K. Student-Athlete R’s eligibility at Community College K is based on the accumulation of credits from all previous colleges. Which transcripts does Community College K need to have to establish eligibility as well as preparing for a NJCAA audit of Student-Athlete R’s team – transcripts from all colleges or a transcript from only the last college which he/she attended as a full-time student?

ANSWER:
Official transcripts from all previous colleges which he/she attended are required because Student-Athlete R is basing his/her eligibility on the accumulation of credits earned. (Section 3.B.6.e and 3.B.6.f have listed the required information necessary for Eligibility Audits. This information should be kept in hard copy in case of notification of an Audit.)

NOTE: The rule of thumb in counting credits for eligibility is that all credits must show on an official college transcript in order to count those credits for eligibility. If a transcript cannot be obtained for eligibility, those credits cannot be counted for eligibility.

Case 4
Break of Enrollment and Delay of Enrollment Statement Definitions

Break of Enrollment – A break of enrollment is when a student-athlete attends college full-time for at least one term and after the end of that term he/she takes a “break” of not attending full-time for at least a period of one term, then enrolls again as a full-time student. A statement must be provided in the eligibility for this student-athlete explaining what he/she was doing during this break of enrollment. Was he/she attending part-time or none at all, was he/she working or not working, was he/she living at home, etc?

Delay of Enrollment – A delay of enrollment is when a student-athlete does not enroll full-time in the term immediately following high school graduation. (This term is not considered as the summer term for a May/June/July high school graduate.) Like the break of enrollment, a statement as to why this student-athlete was not enrolled immediately after high school graduation must be provided in the eligibility. The statement also needs to include what the student was doing during this time.

Eligibility – Transfers
Article V, Section 3.C

Case 1
Definition - Transfer
Student-athletes who have been enrolled full-time and attended any college beyond the first 15 calendar days of a term OR who have participated in an athletic contest and at a later date enroll/attend classes at another college are considered transfer student-athletes.

Case 2
Transfer Tracking Form – Requirement

SITUATION:
Student-Athlete R transfers from a university to Community College A. Since they are transferring from a non-member institution and did not participate in athletics, do they need a Transfer Tracking form?

ANSWER:
The NJCAA Transfer Tracking form is not required. However, it is strongly recommended to use this form to confirm participation and collect information for all transfers.

Case 3
Transfer Tracking Form – Returning Student-Athlete

SITUATION:
Student-Athlete R attended university X in the fall of 2015 as a full-time student. Student-Athlete R transferred to Community College A in the spring 2016 term and participated in his first season of baseball. Is Student-athlete R required to have a Transfer Tracking Form on file from University X to be eligible in the spring 2018 season of baseball?

ANSWER:
The NJCAA Transfer Tracking form is not required. However, it is strongly recommended to use this form to confirm participation and collect information for all transfers.
Case 4
Transfer Student-Athlete who withdrew in Previous Terms

SITUATION:  
Student-Athlete R, attends Community College A full-time for three terms. Student-Athlete R has withdrawn from all  
classes in each of the three terms because of personal and medical issues. Can Student-Athlete R transfer to Community  
College B and be eligible?

ANSWER:  
Student-Athlete R must have withdrawn to part-time or completely from Community College A on or before the 15th  
calendar day of that term in order to not have that term count as a full-time term. Because the student-athlete was full-time  
after the 15th day of that term, he/she is considered as a transfer student.

Case 5
Transfer Student-Athlete who has Graduated from a Community College

SITUATION:  
Student-Athlete R graduates from Community College A. He/she decides to enroll at Community College B and pursue  
another course of study. Is Student-Athlete R eligible to participate in athletics at Community College B?

ANSWER:  
Yes. Student-Athlete R is eligible in those sports which he/she has not participated in for two or more seasons. Student-Athlete R must satisfy the transfer rules of Article V, Section 3.C even though he/she has graduated from Community College A.

Transcripts

Case 1
Transfer Grade Reports vs. Transcripts

SITUATION:  
Community College A has a transfer student-athlete that they would like to certify for the fall semester. The student-athlete  
has grade reports from their prior institutions, but not official transcripts. Does the grade report suffice as a document to use for  
credit and GPA certification, and will this be accepted as part of the audit process?

ANSWER:  
Effective August 1, 2014, the NJCAA requires official transcripts or copies of official transcripts to be on file for NJCAA  
eligibility purposes. Neither unofficial transcripts nor grade reports are permissible to be used for NJCAA eligibility.

Case 2
Transfer Transcripts from a Previous Institution

SITUATION:  
After one term of attendance at a four-year institution, Student-Athlete R transfers to Community College A. The four-year  
institution does not release Student-Athlete R’s transcript. Can Student-Athlete R participate in athletics at Community College  
A without submitting a transcript to verify his/her eligibility?

ANSWER:  
No. The official transcripts are necessary to verify Student-Athlete R’s academic standing at the four-year institution and to  
certify their NJCAA eligibility. Grade reports or unofficial transcripts are no longer acceptable documents to determine the  
student-athlete’s eligibility. The student-athlete will remain ineligible until the official transcripts are received and the student  
meets all NJCAA requirements.

Case 3
Participate in Fall Sport (Fall Golf) and Transfer in Same Year – Eligible for Participation?

SITUATION:  
At the completion of the fall term, Student-Athlete R transfers from Four-Year Institution X to Community College B. Both  
Four-Year Institution X and Community College B provide a fall and spring golf season in which the records do not carry over  
from the fall to the spring. If Student-Athlete R participated in fall golf at Four-Year Institution X, is he/she eligible to participate  
in spring golf at Community College B, providing he/she meets all other provisions of the Eligibility Rules when transferring?

ANSWER:  
Yes. Student-Athlete R is not participating in the same sport season because fall golf is considered a separate sport season  
from spring golf in the NJCAA. In the NJCAA, both a fall and spring season are offered in the following sports: Baseball, Bowling,  
Golf, Lacrosse, Soccer, Softball and Tennis. However, if Community College B’s fall golf records carry over to the spring golf  
season, golf would be considered a two-term sport and therefore the student-athlete would be ineligible for the spring term since  
they were not enrolled as a full-time student at the college for which they choose to play when the sport season began. The  
institution the student is transferring from must consider fall and spring golf as two separate seasons as well.

Case 4
Non-Member College Drops the Sport – Eligible to Participate?

SITUATION:  
Student-Athlete R participates in basketball during the fall 2017 term at Four-Year Institution X during the 2017-2018  
academic year. Four-Year Institution X drops the sport after the end of the fall 2017 term. Can Student-Athlete R transfer to a  
member college in the NJCAA and be eligible to participate in basketball during the spring 2018 term?

ANSWER:  
No. Because the student-athlete was not enrolled full-time by the 15th calendar day of the fall 2016 term at the NJCAA  
member college to which he is transferring when the basketball season began, he would be ineligible for the spring 2018 term.
Case 5
Transferring – Using a +/- Grading System

SITUATION:
Community College B has Student-Athlete R who transferred from Community College A. Community College A uses a +/- (plus/minus) scoring system while Community College B does not. If Student-Athlete R got a B- at Community College A, which would be a B at Community College B (with different point values), how would this be calculated into the GPA at Community College B?

ANSWER:
Community College B must use the grade as a B- even though Community College B does not use the +/- grading system since the grade of B- is recorded as such on an official college transcript.

Academic Eligible Transfer - Examples

Case 1
Accumulation of Credits after Transferring

SITUATION:
The following is the academic record of Student-Athlete R:
Fall semester - attends Four-Year Institution X and passes 12 semester credit hours with a 2.00 GPA.
Spring semester - attends Four-Year Institution X, enrolls in 12 credit hours and passes six (6) credits with a 3.00 GPA; participates in baseball.
Fall semester - attends Community College A, enrolls and passes six (6) semester credit hours as a part-time student.
Is Student-Athlete R eligible to participate in baseball at Community College A during the following spring semester?

ANSWER:
Yes. Student-Athlete R has passed an accumulation of 24 semester credit hours with a 2.00 GPA or higher prior to his full-time enrollment at Community College A, he is academically eligible to participate. The six (6) credit hours taken during the fall semester at Community College A can be used for satisfying the academic progress requirements.

Case 2
Transfer after being Enrolled Part-Time – No Probation

SITUATION:
What is the eligibility status of a student-athlete who has only been enrolled part-time at Community College A and subsequently transfers to Community College B? Is a probationary period required before the student-athlete is eligible to compete in the intercollegiate athletic program at Community College B?

ANSWER:
No. The status of the student-athlete while enrolled at Community College A was that of a part-time student. Since the student has not attempted any full-time terms, they would be academically eligible upon transfer to another NJCAA member college.

Academic Ineligible Transfer – Examples

Case 1
Student-Athlete Transferring from a Semester College to a Quarter College

SITUATION:
Student-Athlete R attends Four-Year Institution X one semester and earns 12 semester credit hours with a 3.00 GPA. During the fall semester, Student-Athlete R participates in cross country. Following the fall semester, Student-Athlete R does not attend college again until the following year when he/she enrolls at Community College A during the spring quarter. At the completion of the spring quarter, Student-Athlete R earns 12 quarter credit hours with a 3.00 GPA. Is Student-Athlete R eligible for a second season of cross country competition at Community College A the following fall quarter?

ANSWER:
Yes. Student-Athlete R has one full-time semester term and one full-time quarter term. The hours must be converted to quarter hours since the student is looking to participate at a quarter hour school. After the conversion, the student has two and a half (2.5) quarters term attempted and has accumulated 30 quarter hours with an associated GPA of 3.00. Two and a half (2.5) quarter terms multiplied by 12 hours is a requirement of 30 quarter hours to be eligible for a second season of participation. Student-Athlete R has met that minimum accumulation requirement of 30 quarter hours with a GPA above the minimum 2.00.

The general rule is that the conversion itself cannot make a student eligible.

Case 2
Ineligible Student Transferring

SITUATION:
Student-Athlete R Transfers from Community College A for the fall 2016 term to participate in basketball at Community College B. However, Student-Athlete R is academically ineligible for the fall term of basketball. How long is Student-Athlete R ineligible?

ANSWER:
Student-Athlete R is transferring as an ineligible student-athlete. The student must sit out 16 weeks and complete one academic term of probation. Therefore if he/she after the end of the fall term satisfies one of the academic progress
requirements, he/she will be eligible for the spring term of basketball. This is provided they have a Transfer Tracking Form on file and they have a Transfer Waiver Form if applicable.

**Case 3
Probation Period for Ineligible Transfer from a Four-Year Institution**

SITUATION:
Student-Athlete R initially enrolls in Four-Year Institution K for the fall 2016 term. After attending both the fall 2016 and spring 2017 semesters and participating in basketball, Student-Athlete R would like to transfer to Community College B for the fall 2017 semester. If Student-Athlete R transfers as an ineligible transfer, what is the length of his/her probation period?

ANSWER:
The length of the probation period for ineligible transfers from any institution is 16 calendar weeks, and the completion of one academic term along with meeting the academic progress requirements of Article V, Section 2.D.2.

**Probation**

**Case 1
Requirements for Probation**

SITUATION:
Student-Athlete R is required to serve a probationary period of 16 weeks and complete one academic term since they did not meet the academic progress requirements of Article V, Section 2.D.2. The basketball season spans over both the fall and the spring terms. Can Student-Athlete R begin participation on the basketball team once the probationary period is over and the student has made the appropriate academic progress?

ANSWER:
Yes. Once the probationary period is over and if the student meets the academic progress requirements of Article V, Section 2.D.2, the student may be added to the eligibility roster provided they meet all other participation requirements.

**Case 2
Probation Period – Member Colleges**

SITUATION:
Student-Athlete R is a football player at Community College A and participates in the first game of the 2017 season which occurs before the start of the fall term. After participating in this game, Student-Athlete R decides to transfer to Community College B for their 2017 football season. Is Student-Athlete R immediately eligible to compete at Community College B during the 2017 season even if he receives a signed Transfer Waiver from Community College A, is academically eligible and is enrolled full-time at Community College B by the 15th calendar day of that fall term?

ANSWER:
No. Due to the fact that Student-Athlete R participated before the term began and then decided to transfer, he has been charged with a season of participation as well as has been charged with a full-time term of enrollment. They would be transferring as an ineligible transfer therefore must serve a probationary period.

**Case 3
Probation Period – Dressing for a Contest**

SITUATION:
May Student-Athlete R dress for a home game while serving his/her probationary period?

ANSWER:
No. NJCAA bylaws do not allow an ineligible student-athlete to dress for athletic contests. This restriction applies to all ineligible student-athletes not just ones serving probation.

**Case 4
Probationary Period – Full-time Status**

SITUATION:
Are student-athletes who are serving probation because of not satisfying the transfer provisions in Section 3.C required to be enrolled full-time?

ANSWER:
Yes. The students transfer status is determined on the 15th calendar day of the first full-time term following transfer. At the end of the probationary period the student must meet one of the academic progress requirements of Article V, Section 2.B.2. Failure to meet one of the requirements of 2.B.2 will result in the student remaining an ineligible transfer. The transfer status will not be determined until full-time enrollment takes place.

**Summer School**

**Case 1
Accumulation of Credits after Transferring**

SITUATION:
Student-Athlete R attends Community College A during the fall and spring semesters of their first year of college. They do not participate in cross country during their first year of college enrollment. During the fall semester, Student-Athlete R passes 12 credit hours with a 2.000 GPA. Spring semester, Student-Athlete R passes only 10 of the 12 credit hours with a 2.000 GPA. Can Student-Athlete R transfer to Community College B and make up the 2-credit hours during the summer session so that they can participate in a season of cross country during the following fall semester at Community College B?
ANSWER: Yes. Student-Athlete R can make up deficient credits necessary for the total accumulation of credits to meet academic progress requirements at any college of their choice, including Community College B. If Student-Athlete R does not satisfy the appropriate academic progress requirements by the 15th calendar day of the following fall term at Community College B, they will be ineligible during that fall term. An official transcript from both Community College A and Community College B must be on file with the eligibility forms to verify the eligibility of Student-Athlete R.

Case 2
Using Summer School to make up Credits

SITUATION:
Student-Athlete R attends Community College A full-time during the fall and spring semesters and participates in a fall sport. At the completion of the spring semester, Student-Athlete R did not pass 24 credit hours as required for a second season student-athlete. Student-Athlete R would like to transfer to Community College B for his/her second season in the fall sport. Can Student-Athlete R make up deficient credits during a summer session at another college in order to satisfy the second season academic progress requirements prior to his/her enrollment in the following fall term at Community College B?

ANSWER:
Yes. Student-Athlete R can make up deficient credits during a summer session at any college including Community College B. Once Student-Athlete R enrolls full-time in the fall term at Community College B, he/she must satisfy the second season participation requirements prior to the start of his/her second season. If Student-Athlete R does not satisfy the academic progress requirements by the 15th calendar day, he/she will be ineligible during the fall term.

Case 3
Part-Time Summer Credits - Eligible Transfer

SITUATION:
The following is the academic progress of Student-Athlete R:
Fall semester - attends Four-Year Institution X, enrolls in 12 credit hours and passes nine (9) credit hours with a 2.000 GPA; does not participate.
Spring semester - attends Four-Year Institution X, enrolls in 12 credit hours and passes nine (9) credit hours with a 2.000 GPA; does not participate.
Summer session - attends Community College A and enrolls in and passes six (6) credit hours with a 3.00 GPA.
If Student-Athlete R transfers to Community College B at the beginning of the following fall semester, will he/she be eligible to participate in athletics?

ANSWER:
Yes. Student-Athlete R is academically eligible based upon Article V, Section 2.D.2.d - two previous full-time terms with an accumulation of 24 semester credit hours with a 2.000 GPA or higher.

Double Transfer

Case 1
Double Transfer using the Previous Term's Grades from Summer School

SITUATION:
The following is the academic record of Student-Athlete R:
Fall semester - attends Community College A, enrolls in and passes 12 credits with a 1.75 GPA. (Participates in cross country, first season.)
Spring semester - attends Community College A, enrolls in 12 credits and passes zero (0) credits.
Summer session - attends Community College B, enrolls in and passes 12 credits with a 2.00 GPA.
Can Student-Athlete R transfer to Community College C and participate in cross country during the following fall semester?

ANSWER:
Student-Athlete R is academically eligible at Community College C prior to his/her second season of participation by meeting the requirements of Article V, Section 2.D.2.c. The Student-Athlete will be a second season athlete in cross country and must also meet the requirements of section 2.D.3.

Case 2
Section 10.B.1 – Double Transfer Using the Accumulation of Credits

SITUATION:
The following is the academic record of Student-Athlete R:
Fall semester - attends Community College A, enrolls in and passes 12 credit hours with a 1.75 GPA.
Spring semester - attends Community College A, enrolls in 12 and passes 10 credit hours with a 4.00 GPA.
Summer term - attends Community College B, enrolls in and passes four (4) credit hours with 2.00 GPA.
If Student-Athlete R transfers to Community College C for the beginning of the following fall semester, does Student-Athlete B meet the academic requirements of an eligible transfer?

ANSWER:
Yes. Student-Athlete R meets the academic requirements of Article V, Section 2.D.2.d. Student is academically eligible. Student may need a Transfer Waiver Form.
Case 3
Double Transfer from a Member College that Does Not have the Sport

**SITUATION:**
Student-Athlete R initially attends Community College A during the fall 2016 semester. While at Community College A, Student-Athlete R competes in volleyball. Student-Athlete R attends Community College B the following spring 2017 semester as a full-time student. Community College B does not have a volleyball program. Does Student-Athlete R need to obtain a Transfer Waiver to participate in volleyball at Community College C the following fall 2017 term?

**ANSWER:**
Student-Athlete R requires a Transfer Waiver from all member colleges in which they were signed to an NJCAA Letter of Intent in the previous, current or upcoming academic year. Transfer Waivers are only required for those students who were previously signed to a Letter of Intent.

Case 4
Double Transfer – Community and Four-Year Institution

**SITUATION:**
Student-Athlete R attends Community College A during the fall and spring terms of his/her first year of college. Both terms, Student-Athlete R enrolled in 12 credit hours and passed 10 credit hours during each term. The following summer term Student-Athlete R transfers to Four-Year Institution X. At the completion of the summer term, Student-Athlete R passed 12 credit hours with a 2.000 GPA. If Student-Athlete R transfers to Community College B at the beginning of the following fall semester, will he/she be eligible? Will a Transfer Waiver Form from Community College A be necessary?

**ANSWER:**
Student-Athlete R is an eligible transfer from Four-Year Institution X (2.D.2.c) and therefore will be immediately eligible for a first season of competition in a given sport. Student-Athlete R will be required to obtain a Transfer Waiver form from Community College A if he/she was signed to an NJCAA Letter of Intent with Community College A in the previous, current or upcoming academic year.

### Transfer Waiver Form

**Case 1
Rule of Thumb – Transfer Waiver**

**SITUATION:**
What is the rule of thumb when determining if the student-athlete who has transferred from a member college needs a Transfer Waiver?

**ANSWER:**
The student-athlete will need a Transfer Waiver if and only if they were signed to a Letter of Intent with a member college in the previous, current or upcoming academic year.

**Case 2
Transfer Student-Athlete – Letter of Intent Signee**

**SITUATION:**
Student-Athlete R initially enrolls at Community College A for the 2016-2017 academic year and signs an NJCAA Letter of Intent. At the completion of one semester Student-Athlete R has passed 15 credit hours with a 2.75 GPA. Student-Athlete R did not participate in basketball while attending Community College A. Student-Athlete R would like to attend Community College B for the 2017-2018 academic year and participate in his first season of basketball. Is the student eligible to play at Community College B?

**ANSWER:**
Student-Athlete R has attempted one full-time term therefore he must meet the academic requirements of Article V, Section 2.D.2.b to be an eligible transfer. The student meets 2.D.2.b by having accumulated 12 or more credits with a GPA of 1.75 or higher. Due to the fact Student-Athlete R is a transfer and was signed to a Letter of Intent in the previous year he must have a signed Transfer Waiver to be immediately eligible.

### Transfer Tracking Form

**Case 1
Using the Eligibility Affidavit in Determining Previous Participation for a Transfer**

**SITUATION:**
Student-Athlete R has previously attended another college prior to transferring to Community College A. The athletic director at Community College A has the student-athlete complete the Eligibility Affidavit and the student indicates on the affidavit that he has not participated in any collegiate athletics. What should the athletic director’s next step be in determining Student-Athlete R’s participation or does the athletic director have enough information from the affidavit to determine the transfer’s eligibility?

**ANSWER:**
Although the student-athlete has completed the Eligibility Affidavit, the athletic director should follow up the student’s statement of non-participation by doing the following: sending the Transfer Tracking Form to the other college to complete and return back to Community College A. The Transfer Tracking Form is not mandatory but highly recommended for student-athletes who were either enrolled as a full-time student beyond the 15th calendar day of the term or they participated in
intercollegiate athletics. The forms purpose is to aid member colleges in determining and confirming previous collegiate participation.

COMMENT:

Please be aware that although verbal statements from other colleges regarding a transfer’s eligibility may be helpful, statements and remarks should always be in writing preferably signed by the athletic or compliance director and not the coach.

It should also be mentioned that in some cases transfer students may not be entirely truthful with the athletic staff about their eligibility or participation either because they do not understand the eligibility rules or they will say anything to try to get another season of eligibility. If you do not follow up their statements by checking with their previous colleges and it turns out that these transfers are, in fact, ineligible, the responsibility lies on the athletic director and the result could be a sanction up to or including probation.

Article V, Section 3.A.2: “Student-athletes who falsify any academic and/or athletic participation record shall be ineligible for further competition in an NJCAA member college at any time.” By having the students complete and sign the Eligibility Affidavit and/or the Amateurism Questionnaire they are telling the college about their previous eligibility and if they have falsified this information, they could be banned from participation in the NJCAA. And again, it is the responsibility of the athletic department to follow up on their statements.

Two Term Sports

Case 1
Participation in a Two-Term Sport (Basketball) and Transfers within the Same Year – Eligible for Participation?

SITUATION:
Student-Athlete R transfers from Four-Year Institution X to Community College B at the end of the fall quarter and in time for winter quarter enrollment. At Four-Year Institution X, he/she participated in one junior varsity basketball contest. Is Student-Athlete R eligible to participate in basketball at Community College B, which begins its schedule during the winter quarter?

ANSWER:
No. Participation in the basketball game at Four-Year Institution X prior to transferring exempts Student-Athlete R from being eligible for basketball at Community College B during the same academic year because of this rule: a student-athlete cannot participate in the same sport during the same year at two different colleges.

Student-Athlete R will be eligible, however, for any other sport which begins during the winter quarter at Community College B providing he/she satisfies the provisions of the academic progress requirements prior to his/her transfer to Community College B.

Case 2
Two-Term Sport (Basketball) Athlete Transferring after the end of the First Term

SITUATION:
Student-Athlete R attended Community College A during the fall 2017 term as a full-time student-athlete past the 15th day of the term. Student-Athlete R is also a member of the men’s basketball team at Community College A but does not participate during the fall term and wishes to transfer to Community College B after the end of the fall term. He is also looking to participate at Community College B during the spring term. Is he eligible to participate during the spring term?

ANSWER:
No. Because Student-Athlete R was not enrolled full-time during the fall term at the college where he wants to participate (Community College B) he is ineligible to compete during the spring term at Community College B.

Case 3
Mid-Year Transfers of a Two-Term Sport – Ineligible

SITUATION:
Student-Athlete R attends Community College A during the fall 2017 as a full-time student and does not participate in intercollegiate sports. She transfers to Community College B after the end of the fall 2017 term and wishes to participate in swimming which is a two-term sport. Is she eligible to participate during the spring 2018 term if she meets all academic progress eligibility requirement?

ANSWER:
No. Student-Athlete R needed to be full-time at the college where she wishes to participate during the term in which the sport starts. In this case, she was attending Community College A during the fall term (the term in which the sport started), therefore she would be ineligible for competition during the spring term at Community College B.

Amateur Eligibility

Case 1
Give Lessons for Compensation

SITUATION:
Student-Athlete R is an NJCAA tennis athlete. During the summer months Student-Athlete R coordinates to instruct lessons to adult beginners on a fee for lesson basis. Is this permissible under current NJCAA bylaws?

ANSWER:
This would be permissible under current NJCAA bylaws provided the fee which Student-Athlete R receives is appropriate for the service provided and consistent with the appropriate going rate.
Case 2
Prize Money – Based on Athletic Ability

SITUATION:
Student-Athlete R who is a lacrosse athlete participates in a basketball half-court shooting contest where if he makes the shot he can win a $200 cash prize. Is Student-Athlete R permitted to accept this cash prize without jeopardizing his NJCAA amateur status?

ANSWER:
If the student accepts the prize and the prize was won on or after his 19th birthday or after his initial enrollment as a full-time college student, he will have jeopardized his NJCAA amateur status in the sport of basketball since the award is won using athletic ability in the sport. If student-Athlete R wins and accepts the prize prior to his 19th birthday or his initial full-time enrollment in college he will not have jeopardized his NJCAA amateur status.

NOTE: Regardless of his age when he wins and accepts the cash prize for the half-court basketball shot, Student-Athlete R has not jeopardized his lacrosse eligibility as the contest was not based on lacrosse ability or skill.

Case 3
Golf and Hole-In-One

SITUATION:
While competing in an open golf tournament, Student-Athlete R wins a car for a hole-in-one. May Student-Athlete R accept the prize and retain his/her amateur status?

ANSWER:
If Student-Athlete R wins and accepts the prize on or after his/her 19th birthday or after his/her initial full-time enrollment in college, Student-Athlete R has forfeited his/her NJCAA eligibility in golf for accepting the prize since the prize is earned based off of athletic ability. If Student-Athlete R wins and accepts the prize prior to his/her 19th birthday or their initial enrollment in college (whichever comes first) then their NJCAA eligibility remains in place. The previous exception for golf was deleted effective August 1, 2014.

Case 4
Participation in Road Races

SITUATION:
Student-Athlete R participates in a summer 10K and road races to stay in condition for the upcoming cross country season. May Student-Athlete R accept prize money or gift certificates for merchandise?

ANSWER:
If Student-Athlete R wins and accepts the prize on or after his/her 19th birthday or after his/her initial full-time enrollment in college, Student-Athlete R has forfeited his/her NJCAA eligibility in running sports in the NJCAA by accepting the prize since the prize is awarded based on athletic ability. If Student-Athlete R wins and accepts the prize prior to his/her 19th birthday or their initial enrollment in college (whichever comes first) then their NJCAA eligibility remains in place.

Case 5
Participation in Adult Bowling Leagues

SITUATION:
Student-Athlete R participates in an adult bowling league. At the end of the league, prizes are awarded based on league standings and individual averages. May Student-Athlete R accept prize money or other forms of compensation based on his/her league performance?

ANSWER:
If Student-Athlete R wins and accepts the prize on or after his/her 19th birthday or after his/her initial full-time enrollment in college, Student-Athlete R has forfeited his/her NJCAA eligibility in the sport of bowling by accepting the prize since the prize is based on athletic ability and performance. If Student-Athlete R wins and accepts the prize prior to his/her 19th birthday or their initial enrollment in college (whichever comes first) then their NJCAA eligibility remains in place. The previous exception for bowling was deleted effective August 1, 2014.

Case 6
Use of the TAC Trust Fund

SITUATION:
Student-Athlete R participates in both cross country and track and field for Community College A. Student-Athlete R participates in meets which pay athletes based upon their performance. Can Student-Athlete R place these funds into the TAC Trust Fund and continue to have eligibility within the NJCAA?

ANSWER:
No. Athletes with collegiate eligibility remaining are not allowed entrance into the TAC Trust Fund. Once the athlete enters into the TAC Trust Fund he/she forfeits all collegiate eligibility.

Case 7
Participation in Professional Baseball

SITUATION:
Student-Athlete R is a baseball player and is drafted by a professional organization out of high school at the age of 17. Student-Athlete R signs a contract with the professional organization and participates in the minor leagues. Student-Athlete R is unconditionally released from the professional organization at the age of 18. Is Student-Athlete R eligible to participate in baseball at the NJCAA level following his professional career as outlined?
ANSWER:
Yes. Since Student-Athlete R was unconditionally released prior to his 19th birthday, he has maintained his NJCAA amateur status in baseball and may participate in the NJCAA. Had Student-Athlete R been released after his 19th birthday or after his initial full-time enrollment in college, he would not be eligible in the NJCAA in the sport of baseball.

Case 8
Acceptance of Prize Money – TENNIS

SITUATION:
Prior to enrollment in any college at the age of 18, Student-Athlete R participated in a tennis tournament and was awarded a winning prize of $75.00. Can the $75.00 be considered as expense money so that Student-Athlete R can participate in tennis at a NJCAA member college?

ANSWER:
No. In this case, the individual had to win to receive the money. The $75 is prize money and Student-Athlete R can maintain their tennis eligibility since the prize was won and accepted prior to their 19th birthday or their initial full-time enrollment in college.

Note: Prize money in the sport of tennis is researchable through the following websites: www.itftennis.com, www.wtatennis.com and www.atpworltour.com.

Case 9
Declares for a Professional Draft

SITUATION:
Prospective Student-Athlete R declares for the NBA Draft, but does not get drafted by any NBA team. Is Student-Athlete R eligible to participate within the NJCAA in the sport of basketball?

ANSWER:
No. Once a student-athlete declares their intent to participate in professional athletics, by signing a contract, hiring an agent, participating professionally OR entering the professional draft, that student-athlete would no longer retain eligibility within the NJCAA in that sport provided the student enters the draft on or after his 19th birthday or after his initial full-time enrollment in college (whichever comes first). Withdrawal from the draft prior to being drafted does not change the fact the individual declared for the draft.

Case 10
Amateur Status – Student-Athletes Tutoring vs. Teaching/Coaching

SITUATION:
Student-Athlete R is a tutor at Community College A during the academic year. Is this a violation of NJCAA bylaws?

ANSWER:
No. Tutoring is not considered the same as teaching a class. If Student-Athlete R was hired by the college to teach a class or coach in any capacity at the college, the student-athlete would be in violation of this rule.

Case 11
College Arranging Employment for the Student-Athlete

SITUATION:
The men’s tennis coach at Community College A is employed outside of the college at a city owned tennis academy. In the recruitment of Student-Athlete R to their Division I program, the coach promises employment at this tennis academy should Student-Athlete R choose to sign with Community College A. Is this a violation of the Eligibility Rules?

ANSWER:
Yes. Community College A or a representative of their athletic interest may not arrange for, offer or guarantee a student-athlete employment of any kind during the recruitment process, or at any time thereafter, on or off campus regardless of the division of the sport.

Case 12
Playing Ability Test / PGA Apprentice Program

SITUATION:
May a student-athlete participate in golf at a member college if he/she has taken the PGA Playing Ability Test (PAT)?

ANSWER:
Yes. An NJCAA student-athlete may maintain his/her amateur status even if he/she has participated in a Playing Ability Test. If the student-athlete enrolls in the PGA Apprentice Program on or after their 19th birthday or after their initial enrollment in college (whichever comes first), they are no longer eligible in golf in the NJCAA.

Case 13
Professional Sport Participation

SITUATION:
Student-Athlete R played professional soccer prior to initially enrolling as a full-time college student when he was 18 years old. Does this participation preclude such a student-athlete from competing on Community College A’s soccer team?

ANSWER:
No. Student-Athlete R’s amateur standing in the sport of soccer remains in place since the student’s participation in professional soccer took place prior to his 19th birthday and prior to his initial enrollment as a full-time college student.
Case 14
Professional Sport Participation

SITUATION:
Student-Athlete R played indoor professional soccer at the age of 20. Does this participation preclude such a student-athlete from competing on Community College A’s soccer team?

ANSWER:
Yes. The individual participated in professional soccer beyond the age of 19 therefore has forfeited his NJCAA amateur status in the sport of soccer. The fact that it was indoor soccer does not have a bearing since it was the same sport using the same carryover skills just in a different format. The same would apply to volleyball / beach volleyball, arena football / football etc.

Case 15
ITA Amateur Reimbursement Form and NJCAA Certification (Tennis)

SITUATION:
Student-Athlete R is a tennis athlete and has participated in nine professional main draw events in tennis. Since Student-Athlete R has participated in less than 10 main draw events, is Student-Athlete R automatically eligible in the NJCAA?

ANSWER:
No. Student-Athlete R is not automatically eligible in the NJCAA based on having only participated in nine main draw events in tennis. Student-Athlete R must meet the allowances of Article V, Section 4 just as all other NJCAA athletes must do. The previous exception that existed for tennis was deleted effective August 1, 2014. The ITA Amateur Reimbursement Form is no longer required for NJCAA participation.

Case 16
Main Draw Events (Tennis)

SITUATION:
Student-Athlete R participates in an ITF main draw or other comparable main draw event during the summer between their first and second seasons of NJCAA tennis. They know they cannot accept the prize money should they qualify for it but has Student-Athlete R forfeited their remaining NJCAA eligibility and amateur status by participating in this main draw event after their initial full-time enrollment in college?

ANSWER:
Yes, Student-Athlete R has forfeited their remaining NJCAA eligibility and amateur status by participating in this professional main draw event. Main draw events are professional events and participation in these events on or beyond their 19th birthday or after their initial full-time enrollment in college forfeits the student's NJCAA amateur status.

Case 17
Semi-Professional Team

SITUATION:
Student-Athlete R participates on the Up-State Marauders Semi-Professional Football team for one season following high school graduation at the age of 19. Student-Athlete R did not receive any compensation for playing on the Up-State Marauders Semi-Professional Football team and was responsible for all of his expenses including travel. Does Student-Athlete R’s participation with the semi-professional team affect his NJCAA eligibility in any manner?

ANSWER:
Yes. Due to the fact the Up-State Marauders refer to themselves as a semi-professional team and the fact that Student-Athlete R participated with the semi-professional team on or after his 19th birthday, Student-Athlete R’s participation with the team has nullified his NJCAA eligibility in the sport of football.

Case 18
Expenses Received

SITUATION:
Student-Athlete R participates on a European club basketball team. While on the team the individual receives $2,000 per month to cover all expenses including, transportation, housing and meals. What must be on file to assure the student has maintained NJCAA amateur status?

ANSWER:
An individual’s participation on an amateur team where expenses were covered or provided must have the following documents on file to assure compliance with NJCAA bylaws:
1. Detailed breakdown of all expenses showing the expense and payment of expenses. In this case the expenses must total in excess of the $2,000 monthly allotment.
2. Written statement from the governing association that the club team is an amateur team.
3. Statement from the club team identifying the period of time the individual was associated with the club and what the specifics of the association were.

Seasons of Participation

Case 1
Definition

The NJCAA charges a student a year of eligibility for participation against outside competition on a varsity, junior varsity or club team. In cases where an athlete is participating on a team not directly affiliated with a college but the team requires the student to be enrolled at the college in order to participate, the NJCAA will charge the student with a season of eligibility for that participation.
Case 2
Eligibility After a Break in Enrollment
SITUATION:
Student-Athlete R initially enrolls at a four-year institution. After four consecutive full-time terms of attendance, Student-Athlete R withdraws and does not attend for a period of five years. While at the four-year institution, Student-Athlete R did not participate in any athletics. If Student-Athlete R enrolls at an NJCAA member college, will he/she be eligible to participate in athletics?
ANSWER:
Yes. A student-athlete has unlimited terms (semesters, quarters, trimesters) to complete two seasons in any one particular sport.

Case 3
NJCAA College Offering Four-Year Degrees
SITUATION:
Community College A offers four-year degrees in certain specialized areas of emphasis. May student-athletes at Community College A participate even though they may be in their junior or senior year academically?
ANSWER:
Yes. Student-athletes may only participate two seasons in each one of the NJCAA certified sports. Student-athletes may be in their junior year academically yet have only participated one season previously. Such student-athletes must be academically eligible and may only participate two seasons. The degree must be through the NJCAA member college, not part of a satellite program of a separate college.
NOTE: Transcript must show hours gained through that NJCAA member college.

Case 4
First Season in Two Different Sports
SITUATION:
The following is the academic record of Student-Athlete R:
- Fall semester - enrolls in and passes 12 credit hours with a 2.00 GPA (Participates in soccer.)
- Spring semester - enrolls in and passes six (6) credit hours with a 2.50 GPA
- Fall semester - enrolls in and passes three (3) credit hours with a 3.00 GPA
Is Student-Athlete R eligible to participate in tennis in the upcoming term?
ANSWER:
Yes. This upcoming season will be the first season of participation in spring tennis. Student-Athlete R's eligibility is based upon the last full-time term of attendance in which Student-Athlete R passed 12 credit hours with a 2.000 GPA. Student-Athlete R does not need 24 semester hours because this will be the first season of participation in tennis.

Case 5
Dresses for Competition but No Participation
SITUATION:
Student-Athlete R, a member of a team competing on an intercollegiate level in an NJCAA certified sport at a member college dresses for and is a member of the squad or team for one game on the college's published schedule. Student-Athlete R did not compete in such athletic contest and immediately thereafter returned his/her uniform and withdrew as a member of the squad or team. Is Student-Athlete R charged with a year of competition in that particular sport?
ANSWER:
No. Student-Athlete R will not be charged with a season of competition in the NJCAA because he/she did not participate in an athletic contest in that sport. Even if Student-Athlete R had participated in the pre-game warm-up and had his/her name included in the official game book, the student-athlete would not be charged with a season of competition. In this case the member college must complete the Non-Participation Form and submit the form online.

Case 6
Participation in only One Contest
SITUATION:
Student-Athlete R, a member of Community College A's intercollegiate basketball team, dresses for and is a member of the basketball squad for the full year. Student-Athlete R only participates in one contest during the regular season. Has Student-Athlete R used a season of the eligibility for his/her participation in this one contest?
ANSWER:
Yes. Participation in any fraction of any regularly scheduled contest during the collegiate year shall constitute one season of participation in that sport.

Case 7
Charged with a season of participation at a Non-Member college but would not have been charged under similar conditions at an NJCAA Member College
SITUATION:
Student-Athlete R, has transferred from Four Year College X where they were affiliated with the basketball team but did not participate in any officials games. When Four Year College X completed the Transfer Tracking Form they indicated that the student used a season of basketball eligibility while at Four Year College X. Since Student-Athlete R never played in any contests should they be charged with a season of participation?
While at Four Year College X, Student-Athlete R is under their rules and bylaws. When determining NJCAA eligibility, an NJCAA member institution may not apply NJCAA rules to a situation that happened at a non-member college. The student was charged a season of eligibility while at Four Year College X based on the governing regulations of that college and the association which they are a member. NJCAA bylaws cannot be applied to situations or season of participation that did not occur at NJCAA member colleges.

**College Graduate**

**Case 1**

**Eligibility of a Community College Graduate**

**SITUATION:**
After two years of college attendance, Student-Athlete R completes the degree requirements and graduates from Community College A. During the two years of college attendance, Student-Athlete R was a member of the basketball team during his/her freshman year and did not go out for the team during his/her second year of college. After graduating from Community College A, Student-Athlete R decides to return to the same college to obtain a degree in another subject. Can Student-Athlete R participate in basketball during his/her third year of college?

**ANSWER:**
Yes. The fact that he/she has already graduated from Community College A does not affect his/her eligibility in any one particular sport. Student-Athlete R's academic eligibility is based on the previous term or terms of full-time enrollment.

**Case 2**

**Eligibility of a Four-Year Institution Graduate**

**SITUATION:**
Student-Athlete R, a graduate with a Bachelor's Degree from a four-year institution, enrolls in Community College A as a full-time student. Is Student-Athlete R eligible to compete in bowling at Community College A if he/she has never competed collegiately?

**ANSWER:**
Yes. Even though Student-Athlete R has graduated from a four-year institution, he/she has two seasons of eligibility in any one of the certified sports of the NJCAA, subject to the academic provisions of the NJCAA.

**Case 3**

**Eligibility After Diploma**

**SITUATION:**
Student-Athlete R was awarded a diploma upon completion of a one year drafting program at Community College A. After the lapse of a number of years, Student-Athlete R enrolls in the two-year construction technology curriculum at Community College A. Does the diploma preclude Student-Athlete R from being eligible to compete in the intercollegiate athletic program of Community College A?

**ANSWER:**
No. Even though awarded a diploma, Student-Athlete R remains eligible to participate for two seasons in any one sport, subject to the eligibility rules of the NJCAA.

**Prep Schools**

**Case 1**

**Prep Schools- First year**

**SITUATION:**
Student-Athlete R graduates from high school in May of 2016. During the 2016-2017 academic year he/she attends a prep school and participates in their basketball program and wishes to attend Community College A for the 2017-2018 year. Has he/she used a season of eligibility during the 2016-2017 year?

**ANSWER:**
No. The NJCAA would not count his/her participation at the prep school towards the two years of eligibility in the NJCAA. Therefore the 2016-2017 season will not count as a season of eligibility and Student-Athlete R will have two seasons of NJCAA eligibility in the sport of basketball. He/she would be entering Community College A as an incoming freshman and his/her delay of enrollment statement will need to be documented on the eligibility form.

**Case 2**

**Prep Schools- Second Year**

**SITUATION:**
Student-Athlete R graduates from high school in May 2015. He enrolls in a NJCAA member college for the fall 2015 and spring 2016 academic term and participates in his first season of basketball. In the 2016-2017 academic year the student attends a prep school and participates on their basketball team. The student enrolls at a NJCAA member school for the fall 2017 academic term as a full-time student. Does this student have any NJCAA eligibility remaining in the sport of basketball?
No. The NJCAA allows a student to attend a prep school immediately out of high school and participate in a sport without using a season of eligibility. The fact that this student has competed at a member college using his first season of NJCAA eligibility, then attends a prep school, it is the NJCAA’s interpretation that this student has used two seasons of eligibility in basketball and has exhausted his NJCAA eligibility. The only exception the NJCAA has for not counting prep school participation is when it is during their first year of post high school participation.

Case 3
Prep Schools- Second Year

SITUATION:
Student-Athlete R graduates from high school in May, 2015. Attends a prep school during the 2015-2016 and 2016-2017 academic years and participates in basketball both years. Fall 2017 Student-Athlete R enrolls at Community College A. Has Student-Athlete R used a season of basketball eligibility? How many credits does student-athlete R need to eligible?

ANSWER:
Yes, Student-Athlete R has used one season of NJCAA basketball eligibility since he attended and participated at the prep school the second year out of high school. Student-athlete R has used one season of NJCAA basketball eligibility and is a second season athlete. However, because Student-athlete R has never been enrolled full-time in college an exception to the second season athlete eligibility progress requirements may be waived by the NJCAA National Office.

Junior Varsity

Case 1
Participation at Four-Year Institution (Junior Varsity)

SITUATION
Student-Athlete R participates in one junior varsity basketball contest at a four-year institution. The next year Student-Athlete R transfers to Community College A. How many seasons in basketball does Student-Athlete R have at Community College A?

ANSWER:
One. This section allows only two seasons in any one sport regardless of the amount of playing time. It should also be noted that junior varsity and club participation are considered the same as varsity participation.

Case 2
Participation at NJCAA Institution (Junior Varsity)

SITUATION
Student-Athlete R participates in two soccer games on the member college’s junior varsity team. Are they charged a season of eligibility for this participation?

ANSWER:
Yes, Any competition against outside individual or team while representing an institution is charged with a season of eligibility.

Case 3
A “How To” for Junior Varsity Eligibility

SITUATION:
If a member college has a varsity and a junior varsity team in the same sport, how is the college to submit eligibility?

ANSWER:
*The college is to keep records of those who are on each team and when they participate; varsity and JV. Student-athletes may not participate in more than the number of games/scrimmages allowed as listed in the Sport Procedures. Baseball example: student-athletes are only allowed to play in 56 games in the spring season therefore if a student-athlete who participates on the JV team in 30 games and is moved up to the varsity team may only participate at the varsity level for a maximum of 26 games for a maximum of 56 games for the entire regular season.
* Stats accumulated in JV games are not to be submitted as national stats. Only stats earned at the varsity level are to be entered into the online stats program.
* Eligibility must be submitted for all student-athletes participating on either the JV or varsity team.
* Participation on either the JV or the varsity team constitutes a season of eligibility being used regardless of the number of games which they participated.
* In the case of an eligibility audit, all information for all student athletes in the program must be submitted regardless if they are on the JV or varsity program.
Club Teams

Case 1
College “Club” Team Participation

SITUATION:
Student-Athlete R attended University X for two semesters and participated on the “club” soccer team during the fall semester. The club soccer team at University X regularly competes against other university club teams in the area but never against a varsity team. Student-Athlete R transfers to Community College A and wants to play soccer. How many seasons of NJCAA eligibility does he have remaining?

ANSWER:
Student-Athlete R has one (1) season of NJCAA eligibility remaining in the sport of soccer. Participation in intercollegiate sports regardless of the level (varsity, JV, club), will utilize a season of NJCAA eligibility.

Sport Examples

Case 2
Definition of a Season – FALL BASEBALL Example

SITUATION:
Student-Athlete R attends Community College A for one term and participates as a member of the fall baseball team. At the completion of the term, Student-Athlete R does not enroll at any college. The next academic year, Student-Athlete R enrolls at Community College B and after satisfying the transfer rules, is permitted to participate in the spring baseball program. How many seasons of baseball eligibility has Student-Athlete R completed after the spring season at Community College B?

ANSWER:
One. Student-Athlete R has completed one season in the fall and one season in the spring, and will have one season left at a NJCAA member college to compete in both fall and spring baseball.

Case 3
Definition of a Season – GOLF Example

SITUATION:
Student-Athlete R attends Four-Year Institution X during the fall term and participates as a member of their golf team. After completing the term passing 15 credit hours with a 3.00 GPA, Student-Athlete R withdraws from Four-Year Institution X. The next academic year, Student-Athlete R enrolls at Community College B and participates in golf during the spring season. Is Student-Athlete R participating in his/her first or second season of spring golf?

ANSWER:
First. Since fall golf is considered a separate sport season from spring golf in the NJCAA, Student-Athlete R has two seasons of spring golf and one season left in fall golf.

Case 4
Number of Seasons – TENNIS Example

SITUATION:
Student-Athlete R participates in two seasons of fall tennis at a NJCAA member college which does not carry its record over to the spring term. How many seasons of spring tennis does Student-Athlete R have left?

ANSWER:
Two. NJCAA bylaws provide for a fall season and a spring season in the following sports: Baseball, Bowling, Golf, Lacrosse, Softball, Soccer and Tennis. Note: If the records are carried over to the spring term then the student-athlete has exhausted their NJCAA eligibility in tennis as their participation in the fall will constitute a full year of participation both fall and spring season being used.

Case 5
Sport Season Which Spans Over Two Terms – GOLF

SITUATION:
Community College A is a member of a conference which conducts regular season golf matches during the fall and spring terms. The matches which are conducted during the fall and spring terms are used to determine a regional champion. If a student-athlete participates only during the fall term, but not during the spring, will he/she have used a season of spring golf?

ANSWER:
Yes. Because the records are carried over into the spring term, golf at Community College A is a two-term sport and not a sport with two seasons (a fall season and a separate spring season). The eligibility requirements will be like the sport of basketball with a continued season. A student-athlete’s participation during the fall term will count as a full season of golf eligibility.

Case 6
Participation at Two Different Colleges During the Same Year – TENNIS

SITUATION:
Student-Athlete R attends Four-Year Institution X during the fall term and participates in their fall tennis program. Is Student-Athlete R eligible to participate in tennis at Community College A during the spring term of the same academic year if all other eligibility rules are satisfied?

ANSWER:
Yes. In those sports listed in NJCAA bylaws as having two distinct seasons (fall and spring), a student-athlete can participate at two different colleges during the same academic year providing the fall season at the four-year institution was not
their regular season of competition and the fall season records at Community College A are not carried over from the fall to the spring season.

Case 7
Records Carried over to the Spring Season – BASEBALL

SITUATION:
Community College A utilizes their fall baseball season as their league season, and wants to carry the records over to the spring season. May student-athletes that were not full-time students at Community College A in the fall participate in the spring baseball season?

ANSWER:
No. In this case the baseball season at Community College A will be considered as a two-term sport and not a sport with two seasons (a fall season and a separate spring season). The eligibility requirements will be like the sport of basketball with a continued season.

Case 8
Participation in the Canadian College Baseball Conference (CCBC) or a Similar Canadian College or University Affiliated Baseball League

SITUATION:
Student-Athlete R graduated high school in May 2016 and spent that following academic year (2016-2017) attending a college in Canada that has a baseball program affiliated with the Canadian College Baseball Conference (CCBC), formally known as the British Columbia College Baseball League (BCCBL). After the end of the academic year and his first season of baseball participation in the CCBC, Student-Athlete R wants to transfer to an NJCAA member college to play baseball. Has Student-Athlete R used a season of eligibility participating for a team in the CCBC? Is Student-Athlete R eligible for participation at the NJCAA member college?

ANSWER:
Yes, Student-Athlete R has used one season of eligibility in baseball. The NJCAA will be counting participation on a CCBC team or similar Canadian college or university affiliated league as using eligibility within the NJCAA. This participation includes participation at the varsity and club levels as well as participating as either a part-time or full-time student at that college/university.

Therefore, Student-Athlete R’s participation on the CCBC team during the 2016-2017 academic year will be counted as a first season of eligibility. In order to be eligible for participation at the NJCAA member college, Student-Athlete R will need to satisfy Article V, Section 2.D.3 as well as the other eligibility rules for a non-United States citizen and transfer student.

Hardships

Case 1
Clarification on the Season Schedule

Situation:
NJCAA member colleges are permitted to play a maximum of 56 baseball games during the spring season. Community College A plays 35 games in the spring season. When calculating the 20% participation and the mid-point, what schedule is considered?

Answer:
The season schedule is based off of the maximum number of games allowed to be played. In a 56 game schedule a student is permitted to have participated in 12 games and the mid-point of the season is between the 28th and the 29th game.

Case 2
Procedure for Hardship Application

SITUATION:
What is the proper procedure for requesting a NJCAA Hardship Waiver?

ANSWER:
There are two types of hardships that can be applied for through the NJCAA Office of Eligibility.

Hardship #1 involves an injury or illness that results in the student-athlete's inability to complete a season and must be documented with a medical doctor's statement.

Hardship #2 involves cases other than those effecting a season of competition that are beyond the student-athlete’s control.

There are application forms for each type of hardship available on MVP site. Each form must be completed and signed by all parties with each request. Hardships may not be submitted to the National Office by student-athletes, parents or other outside parties unrelated to the college. The following information must be included with each request:

1. Appropriate hardship request form.
2. Letter from the Athletic Director explaining the situation, circumstances, amount of participation, etc.
3. All of the student-athlete's post-secondary/college transcripts.
4. Documented proof of the hardship (i.e., Medical Doctor's (MD) statements, medical records, letters of verification from parents and others who are familiar with the case).
5. Printed season schedule with the student-athlete's participation in each contest identified on the schedule.
Case 2
Medical Hardship – Second Half of Season

SITUATION:
Community College A has an 11-game football schedule. Student-Athlete R is injured during the first half of the college's sixth game and as a result is incapacitated for the remainder of the college's intercollegiate football season. Is Student-Athlete R's injury considered to have occurred during the first half of the college's season?

ANSWER:
No. In as much as the injury or illness occurred in the sixth contest of an 11-game schedule, the participation would be considered as having occurred during the second half of the institution's season and would not be approved by the National Office.

Case 3
Medical Hardship – Second Half of Season

SITUATION:
Student-Athlete R participates in the first two soccer games of a 22 game schedule prior to an injury. Student-Athlete R did not participate in any other games until the last game of the regular season. Will Student-Athlete R qualify for an additional year of eligibility under the hardship rule?

ANSWER:
No. If Student-Athlete R competed during the second half of the season schedule, he/she will not be granted a hardship season even though his/her competition during the conference championship was on a limited basis and came as a result of the original injury. In reality, the original injury did not result in incapacity to compete for the remainder of the season.

Case 4
Medical Hardship – Participation in More than 20% but in Only 2 Contests

SITUATION:
Student-Athlete R is in training for the NJCAA Half Marathon Championship. In preparation for that event, Community College A registers Student-Athlete R to compete in three road races. During the second road race, Student-Athlete R incurs a season ending injury. Is Student-Athlete R eligible to receive a medical hardship for that season?

ANSWER:
Yes. Although participation in two of three road races constitutes 67% of the regular season schedule, NJCAA hardship regulations allow for a student-athlete to participate in no more than 20 percent of the college’s regular season schedule OR have participated in no more than two of the institutions’ completed events in that sport, whichever is greater. Because Student-Athlete R participated in only two road races and those races were in the first half of the schedule, he/she would be eligible to receive a hardship.

Case 5
How Postseason Contests Affect the Hardship Rule

SITUATION:
Community College A conducts a 30-game schedule in basketball which includes a conference championship at the end of the season. Subsequent to the 30 games, Community College A participates in regional competition. When determining 20 percent and the first half of the regular season schedule for the application of the hardship rule, does one include postseason contests such as the regional tournaments?

ANSWER:
No. For the purpose of this bylaw, the regular season schedule excludes any games or contests which are used to qualify teams for national competition. In this case, a student-athlete must be incapacitated as the result of an illness or injury during the first 15 games of the 30-game schedule and he/she could not have participated in more than six games which is 20% of the regular season.

Case 6
When to Apply for the Hardship

SITUATION:
Student-Athlete R participates for Community College A in one wrestling match during the 2016-2017 season and is injured. Student-Athlete R wants to participate for Community College A during the 2017-2018 season. When should Community College A file for NJCAA hardship approval?

ANSWER:
Community College A should file for hardship approval immediately following the end of the 2016-2017 season in case the student-athlete returns to participation during that season. Under no circumstance may Student-Athlete R begin a third season of wrestling under the assumption that "approval will be granted". Prior hardship approval must be granted by the NJCAA National Office before Student-Athlete R may begin participation in his hardship season.

NOTE: Hardships may not be granted retroactively after participation in a third season of competition has already begun.

Case 7
Application of the Hardship Rule for Multi-Team Events

SITUATION:
A college offers individual sports (i.e.: cross country, golf, swimming, tennis, track and field, wrestling) as well as team sports (baseball, basketball, lacrosse, soccer, softball, volleyball). For the purpose of determining the number of contests in which a student-athlete participates prior to an incapacitating injury or illness, how are tournaments and multiple team vs. team events treated in terms of being considered a contest?
ANSWER:
In individual sports as listed above, any competition involving participants from more than two institutions conducted and organized as one event at one location on one calendar day (i.e.: triple dual meet in wrestling, team invitational track meet) shall count as one contest, even though team scores against all participating colleges are kept separately or the student-athletes participate against more than one opponent. Each day of an individual's participation in a tournament or meet in an individual sport shall count as one contest.

An institution's participation against another institution in each contest in a tournament, doubleheader or multiple team engagement in team sports shall count as one contest. For example, a doubleheader on the same day in baseball would count as two games. A doubleheader in softball would count as one date. (Please refer to NJCAA Sport Procedures for when to use games/contests and dates for hardship submissions to the National Office.)

Case 8
Hardship During First Season

SITUATION:
Student-Athlete R participates in the first cross country meet of his/her first term of college. Prior to the next scheduled meet, Student-Athlete R becomes seriously ill and withdraws completely from the term and does not attend the following spring term. If Student-Athlete R returns to college the following year, will he/she be eligible to participate in cross country?
ANSWER:
If a hardship is approved by the NJCAA Office of Eligibility, Student-Athlete R may participate in his/her first season of competition. To participate in a second season, regardless of hardship approval, Student-Athlete R must have passed an accumulation of 24 semester credit hours or 28/36 quarter credit hours with a 2.000 GPA or higher.

Case 9
Application of the Hardship Rule

SITUATION:
Student-Athlete R is injured and incapacitated during the third game of a 30-game schedule. The NJCAA National Office grants a hardship season. Are there any stipulations connected with the hardship?
ANSWER:
Yes. The hardship granted by the NJCAA only pertains to eligibility within the NJCAA, and is not subject to automatic approval by any other intercollegiate athletic organization. Hardships awarded by the NJCAA will grant an entire season of participation back to the student-athlete.

Case 10
Second Season Application of the Hardship Rule

SITUATION:
While enrolled at Community College A, Student-Athlete R participates in volleyball in the fall term. She becomes ill in the spring term and withdraws completely from college prior to the completion of the term. The following fall will be the students second season of volleyball. Will Student-Athlete R be granted a hardship waiving the second season requirements so she can participate in her second season of volleyball?
ANSWER:
No. Student-Athlete R will not be eligible to participate in her second season of volleyball as she has not met the second season academic accumulation requirements. It should be noted that the NJCAA does not exempt any student from meeting the accumulation requirements for a second season of participation.

Case 11
Application of the Hardship Rule

SITUATION:
Student-Athlete R initially enrolls in Community College A and participates in football. Student-Athlete R is injured during the second game and as a result is incapacitated for the remainder of the college's intercollegiate football season. If approved, how many contests must Student-Athlete R sit out during the next season?
ANSWER:
If approved, the student will be granted their entire season back in the case of a hardship. Beginning in the 1996-1997 academic year, the NJCAA no longer grants a partial season in the case of a hardship. If approved the entire season would be granted back to the student-athlete.

Case 12
Application of the Hardship Rule – Baseball Example

SITUATION:
Student-Athlete R is a pitcher for Community College A's baseball team and pitches in the first 8 games of a 56-game schedule. In the 40th game, he pitches in 3 innings then has a season ending injury. Will a medical hardship be approved for Student-Athlete R?
ANSWER:
No. Although Student-Athlete R has played under 20% of the season, he has played past the halfway point during the season. The halfway point of the season was game 28. Participation in any fraction of any regularly scheduled contest shall constitute as one contest. In this case, pitching in one inning constitutes as playing in one game.
Case 13
Hardship from a Four-Year Institution

SITUATION:
Student-Athlete R attends a four-year institution as a first year student-athlete and is injured in the first soccer match of the season. What process should be followed in order to regain that season of eligibility if the student-athlete transfers to a NJCAA member institution?

ANSWER:
The four-year institution must first apply for hardship status with the association/athletic conference that governs athletics at their level. If Student-Athlete R gains hardship approval from the NCAA or the NAIA, a copy of that approval must be forwarded to the NJCAA with a cover letter from the member college Athletic Director for adoption. Approval from the four-year governing body must be granted prior to review by the NJCAA. The NJCAA cannot rule on hardships of an academic or athletic nature that occurred at a non-member institution.

Case 14
Definition of a “Red-Shirt”

SITUATION:
Student-Athlete R participates in two baseball games early in the season, and then does not participate for the remainder of the season. There is no injury or illness situation present that causes Student-Athlete R to cease participation. May Student-Athlete R regain this season of NJCAA baseball?

ANSWER:
No. Once a student-athlete participates in one contest, the only avenue to regain a season of eligibility is through the injury/illness provisions of Article V, Section 5.B. Within the NJCAA, the term red-shirt would only refer to a student-athlete that is not submitted on eligibility and does not participate in any game or contest during the season. During this red-shirt season, the student-athlete may not participate in open competition using college expenses, equipment, etc.

Case 15
Required in the Medical Documentation

SITUATION:
When applying for a NJCAA Medical Hardship what is the minimum information that is required from the doctor?

ANSWER:
At a minimum, the information from the Medical Doctor must include the following for hardship consideration.
1. Name of patient.
2. Date patient was seen by doctor.
3. Detailed diagnosis of the injury.
4. Plan of treatment for the injury.
5. Projected recovery time.

This information must be on the doctor’s letterhead and signed by the Medical Doctor (MD).

Case 16
NJCAA College that Permanently Drops a Sport After Games have been Played

SITUATION:
Community College A begins their basketball season during the fall term. At the end of the fall term, Community College A decides to permanently drop their basketball program. Can student-athletes who participated as members of the Community College A team transfer to Community College B and join their team during the following term?

ANSWER:
Yes. The student-athletes may transfer to any NJCAA member college and begin participation after the completion of the term as long as they are academically eligible. Student-athletes may also apply for a hardship to regain that year of eligibility only if he/she does not participate at another college during that same academic year.

Case 17
NJCAA College that Cancels Remainder of Season After Games have been Played

SITUATION:
Community College A begins their basketball season during the fall term. At the end of the fall term, Community College A determines that an insufficient number of players remain on the team due to academic and discipline issues and is unable to complete the season. Community College A makes the decision to cancel the remainder of the season. The college will field a basketball team the following year. Can student-athletes who participated as members of the Community College A team transfer to Community College B and join their team during the following term?

ANSWER:
No. Community College A has only cancelled the remainder of the season and has not dropped the program. Student-athletes may apply for a hardship to regain that year of eligibility provided they meet the hardship parameters.
Eligibility – Penalties

Case 1
Using an Ineligible Player during the Regular Season

SITUATION:
After the basketball season, Community College A learned that Student-Athlete R who had participated in all of the regular season games was ineligible. An investigation revealed that Community College A had no knowledge until after the season that Student-Athlete R was ineligible and in reality had used due diligence in checking the eligibility of each player prior to the start of the season. Must Community College A forfeit all of the games in which Student-Athlete R participated?

ANSWER:
Yes. The penalty for using an ineligible player is forfeiture of all of the games in which such player participated even though it was not done knowingly by the school and/or the student-athlete. If it was done knowingly by the school and/or the student-athlete, additional sanctions could be levied.

Case 2
Reporting Forfeitures

If your college is required to forfeit a game(s) there are two things that the National Office is requesting of your college:
1. Send forfeiture letters to those teams/colleges for the games/events that are being forfeited. Copies of these forfeiture letters should be sent to the National Office and to your regional director and/or conference office.
2. The NJCAA National Office will update the win/loss record on that sport's schedule posted on the NJCAA website. Game and individual statistics will remain the same, however any records broken during that game(s) will not count.

Case 3
FYI’s about Forfeitures

1. Only games that have been won are required to be forfeited. Losses are not to be forfeited.
2. When a forfeit of a game is required, the college must send a letter of forfeiture regardless if that team is at a non-member or a member college. There have been false assumptions that if a game was played against a non-member college/team then the forfeit does not count or that college/team does not need to be notified which is not true.
3. Forfeiture letters can contain any information that the college feels is pertinent. Some colleges give detailed descriptions as to the reason of the forfeiture, the name of the student, etc. The National Office would like to see at least the name of the sport and the dates of those games that have been forfeited.
4. Forfeiture letters need to be written on college letterhead and have the athletic director's signature for verification of the forfeited game(s).
5. The National Office would like to see faxed, mailed or scanned copies of the signed forfeiture letters for office files. Emails without scanned letters will not be accepted as a substitute for a forfeiture letter.
6. Individual sport forfeitures – if a student-athlete in an individual sport (bowling, cross country, golf, half marathon, swimming/diving, tennis, track and field, and wrestling) is found ineligible, what is to be forfeited? The student-athlete’s individual scores and place/rank are to be forfeited; essentially as if the student-athlete never participated in that competition. If the student-athlete participated as part of a team (doubles in tennis, a golf tournament, or relay, for example) then that team’s rank/place and scores will be forfeited.
7. Double forfeitures – there have been cases of both teams who have participated in the same competition who are required to forfeit. In that case, both teams record the game as a forfeit where there is no winner.

Case 4
Using an Ineligible Student-Athlete that has Lost their Amateur Status in the NJCAA

SITUATION:
Community College A competes in the entire basketball season. After the conclusion of the basketball season it is discovered that Community College A had competed the entire season using a student-athlete who had previously competed on a professional team beyond their 19th birthday. What are the penalties associated with the violation?

ANSWER:
NJCAA bylaws do not allow for a student-athlete to have previously participated on a professional team beyond their 19th birthday or their initial full-time enrollment in college (whichever comes first). All games contested and won by Community College A must be forfeited. NJCAA bylaws also requires the team be prohibited from postseason participation the next academic year.

Case 5
Using an Ineligible Player during the Postseason

SITUATION:
After the volleyball season, it was discovered by Community College A that Student-Athlete R dropped to below full-time status before the start of the regional tournament which is a postseason competition. Participating while being enrolled in less than 12 hours is a violation of NJCAA enrollment requirements and Student-Athlete R was ineligible for competition at the time she dropped below full-time. What penalties are enforced at this point seeing that this ineligible student-athlete participated in the postseason? Does Community College A forfeit all of the games in which Student-Athlete R participated?
ANSWER:
Yes. The penalty for using an ineligible player is forfeiture of all of the games in which such player participated even though it was not done knowingly by the school and/or the student-athlete. An automatic penalty of athletic probation for Community College A’s volleyball program for the next academic year for allowing an ineligible student-athlete to participate in the postseason. The volleyball program will not be allowed to participate during the following year in any Regional, District, or National Championship competitions (postseason competitions).

Eligibility – All-Star Competitions

Case 1
All-Star Competition

SITUATION/ANSWER:
NJCAA student-athletes may compete in all-star competitions, only if the event is sponsored by a conference and/or region of the NJCAA. An NJCAA Athletic Event Questionnaire must have been filed by the conference or region with the NJCAA National Office. If the conditions listed above are satisfied, the student-athlete may receive the support of the NJCAA member college. Also, those student-athletes participating in these all-star competitions where the college is paying for all expenses, eligibility for each participant must be submitted prior to that competition.

If the event is not sponsored by a conference or region, the NJCAA member college may not be involved with providing support of any type for this event. This would mean that the NJCAA member college may not provide support which may include but is not limited to: entry fees, equipment, transportation, lodging, meals, etc. for the student-athlete.

Case 2
All-Star Competition – Online Eligibility

SITUATION:
Region A sponsors an annual All-Star baseball game in the fall to promote the region’s second year players. Do the student-athletes who are chosen to participate in this fall all-star contest have to be academically eligible in order to participate?

ANSWER:
Those student-athletes participating in all-star competitions sponsored by the region or conference must be eligible athletes and must have been submitted on the online eligibility system prior to their participation even though the season in question is outside of the traditional championship season.

Case 3
Unattached Participant

SITUATION:
While attending Community College A, Student-Athlete R becomes academically ineligible to compete in track and field during the spring term. Is it permissible for Student-Athlete R to travel with the track team and compete as an unattached entry?

ANSWER:
No. Ineligible athletes may not be transported or receive expenses from a member college to attend or participate as an unattached competitor in open contests or events. This student-athlete may transport him/herself to this competition, however the student may not represent the college in any fashion (wearing clothes with the college’s name, showing in the results as a representative of the college, etc.). The coaches may not advise or coach the student-athlete, the student-athlete should not sit in the college’s team area, the student must pay for all expenses (food, travel, lodging, entry fees, etc.) associated with this competition.

Case 4
Participation with Outside Club Teams during the College Season

SITUATION:
Student-Athlete R, a member of Community College A’s track and field team, is invited to participate in a track and field meet which is not a part of Community College A’s schedule. Can Student-Athlete R participate in the track and field meet?

ANSWER:
Yes. Student-Athlete R can participate in the track meet as an "unattached" entry. Under no circumstances can Student-Athlete R be a representative of another track team or club and also be a member of a college track team.

Case 5
Individual Participation in Non-Scheduled Events

SITUATION:
Student-Athlete R is a member of the cross country team at Community College A. While the cross country season is in progress, Student-Athlete R enters a "road race" which is not a part of Community College A's schedule. Can Student-Athlete R participate in such an event without NJCAA approval?

ANSWER:
Yes. Student-Athlete R may participate in the "road race" without NJCAA approval providing he/she does not in any way represent Community College A. Student-Athlete R may not wear the college uniform nor shall the college pay the entry fee or any expenses related to the event.
Case 6  
State Games
NJCAA coaches and facilities may be involved with the official “state games” of their respective state under the following guidelines:

- The state games must request approval from the NJCAA National Office by use of the NJCAA Event Questionnaire AND a letter of request from the appropriate authority for the state games (ex. Nebraska Sports Council).
- The state games must be multi-sport.
- The state games must be held during the off-season (as defined by NJCAA Sports Procedures for each sport).
- The state games may be the one and only “official state games” for that year.
- If the event is held on a member campus, NJCAA coaches may also be involved in the administration of the event.
- No member of the member college’s staff, or the college itself including its respective booster club members, may be involved in providing expenses to any student-athlete, including transportation.
- There currently is no limit as to how many student-athletes from each NJCAA member college may be on a given team, in any sport.
- No college apparel may be used, and no college equipment may be used if the games are held off campus.
- No participant may sign an NJCAA Letter of Intent at the state games location, during the state games event.
- The competition must be organized and scheduled by the outside state games authority. (State games commission.)
- NJCAA coaches may not participate on the same team with current NJCAA student-athletes or athletes that have signed an NJCAA Letter of Intent with their college.
- Practice for the state games event must occur in compliance with the current NJCAA Off Season practice.

This ruling will allow NJCAA coaches to be directly involved with administration and coaching of their own student-athletes during those official state games receiving NJCAA approval.

Case 7  
Competing Against International Teams

SITUATION:
Community College A schedules a basketball game with a team from a foreign country. Does such a game require NJCAA notification?

ANSWER:
Yes. NJCAA member college teams participating in games involving international competition must send a NJCAA Athletic Event Questionnaire to the NJCAA National Office.

Region/Conference Sponsored Showcase

Case 1: Region Sponsored Showcase / Combine

SITUATION:
Region A sponsors and organizes a baseball combine which is held in the fall. During the combine all participants have an opportunity to display their skill level in running, hitting and throwing. Is it permissible to divide the participants up into teams and have them play 3-4 innings to further display their skill level?

ANSWER:
No. It is not permissible to conduct simulated game competition under NJCAA bylaws. Under the region/conference sponsored showcase allowance only skill demonstration is permitted. No game simulation is permitted.

Case 2: Outside Sponsored Showcase / Combine

SITUATION:
Region A would like to offer a baseball combine to promote its second year athletes. Is it permissible to contract with an outside group to organize and run the combine?

ANSWER:
No, NJCAA bylaws only permits the region or conference to organize and run the combine. The region or conference may not work with an outside group or individual to facilitate the activity. Association with an outside group or individual to run the showcase/combine would be a violation of NJCAA bylaws.

Health

Physical Exams

Case 1: Physical Examination

SITUATION:
Community College A sets up a day to have all athletes come to campus and have a physical administered by certified and licensed medical care providers. Is this permissible to do?
ANSWER:
Yes. Community College A may set up a day and have physical provided for all student-athletes in the program. It is
permissible for the college to pay the expenses associated with this service.

Case 2
Physical Examination

SITUATION:
Community College A uses a player who did not pass a physical examination in compliance with NJCAA bylaws. Does this
subject the college and/or the person involved to any penalty or sanctions?

ANSWER:
Yes. Community College A must forfeit all the games in which the player competed. In addition, if it can be proved that this
was done knowingly, the college may be subject to additional sanctions.

Case 3
Date of Physical Examination

SITUATION:
In order to meet the entrance requirements of Community College B, high school Student-Athlete R receives a physical
exam on March 15, 2017. Will this physical exam meet the provision of NJCAA bylaws qualifying Student-Athlete R to compete
in all sports for the 2017-2018 academic year?

ANSWER:
The physical examination date of March 15th will qualify Student-Athlete R to participate in those sports which have their
first scheduled contest on or before April 15, 2018. It will be necessary for Student-Athlete R to be re-examined for those sports
which practice or have competitions after April 15th.

Case 4
Physical Exam – 13 Months

SITUATION:
Student-Athlete R, a second season men’s soccer player, receives a physical examination administered by a qualified
health care professional licensed to administer physical examinations on September 15th of his initial season of competition. As
a second season athlete, when will Student-Athlete R need to have another physical examination to remain eligible under the
rules of the NJCAA?

ANSWER:
Student-Athlete R must receive another physical examination no later than 13 months after the original exam was given. In
this case, the examination must be administered prior to October 15th of the current year to allow Student-Athlete R to continue
his participation in men’s soccer.

Case 5
Physical Exam Prior to the First Practice

SITUATION:
Community College A holds their first volleyball practice on August 25th, and the first competition on September 5th. When
must the student-athletes at Community College A have their physical exam?

ANSWER:
Each student-athlete must have completed and passed their physical exam prior to the first practice date for that particular
sport; for that particular student-athlete. If the student-athlete practices on August 25th, the exam must be successfully cleared
prior to this date.

Case 6
Physical Exam for Off Season Workouts

SITUATION:
Community College A holds off season workouts for the volleyball team during the summer prior to August 1st. Does the
prospective player need to have a physical in order to participate in off season training?

ANSWER:
Yes. In order to participate in any workout associated with the college program, all participants must have a valid physical
on file and be enrolled in the current academic term.

Article VI - Scholarship & Letter of Intent
General

Case 1
Cash Payments

SITUATION:
Student-Athlete wants to pay their tuition or other similar fee/charge at the college in cash. Are cash payments an
acceptable means for payments from student-athletes?
ANSWER:
Should financial documents be requested as part of the audit process or as part of an inquiry from the NJCAA National Office, "Cash Payment" is not an acceptable form of financial documentation. Student-Athletes needing to make a "Cash Payment" should be advised to further document the transaction. The NJCAA National Office will require additional information to clarify this unacceptable financial transaction.

Permissible Aid

</tbody>
</table>

Case 2
Tuition and Fees

SITUATION:
Community College A offers a tuition and fees scholarship to Student-Athlete R. May Community College A pay the parking fee for the student-athlete?

ANSWER:
No. The NJCAA interprets the "Fees" portion of Tuition and Fees to be course related fees. In addition to course related fees the NJCAA will allow for graduation fees and dormitory fees, provided the student-athlete is signed to a room and board scholarship. Parking fees are not course related and are not required for all students. The student is responsible for paying the parking fee even if they are on a full scholarship.

Case 3
Required Course-Related Books

SITUATION:
Community College A offers a tuition, fees and books scholarship to Student-Athlete R. May Community College A purchase pens, pencils and notebook paper for Student-Athlete R?

ANSWER:
No. This section of the bylaws only allows those books and required supplies as listed on the syllabus as required by the college and the instructor for that specific course. The student’s Letter of Intent must indicate an allowance for course required supplies if those are part of their terms of the Letter of Intent.

Case 4
Transportation to and from College – Airfare

SITUATION:
Community College A awards Student-Athlete R the maximum grant-in-aid as provided under NJCAA bylaws for a Division I program. Included is a one-way airfare to Community College A at the beginning of the fall term. Can Community College A pay for Student-Athlete R’s airfare to his/her home and back to the college during the Christmas break if they paid for his/her initial trip to the college?

ANSWER:
No. NJCAA bylaws allow transportation costs one time per academic year for a round trip. Community College A could pay for Student-Athlete R’s transportation back home at Christmas but not for the return trip to college since that leg of the trip had already been provided.

Case 5
Transportation to and from College – By Car

SITUATION:
Student-Athlete R receives a full scholarship from Community College A for the upcoming academic year. Included in this scholarship is transportation for the year, on a one time round trip basis. May Community College A pay for the round trip if Student-Athlete R is going to drive from his/her home to the college?

ANSWER:
Yes. The college may pay mileage for one round trip from the student-athlete's home to the college by the most direct route. The reimbursement should be consistent with the amount paid to college employees for the use of their personal vehicle, at the particular college involved. (Please refer to Article VI, Section 1.A.4.)
Case 6
Transportation to and from Other Events

SITUATION:
Community College A offers a full scholarship to Student-Athlete R for the academic year. May Community College A transport Student-Athlete R to events such as, but not limited to: daily ride to the college campus, ride home after late night games and practices, professional games, scouting trips, combines, exposure camps, etc., during the academic year?

ANSWER:
NJCAA scholarships may not include any of the above listed trips because this goes above and beyond the scholarship allowances. The only transportation allowance for Division I scholarships is limited to one round trip provision to and from campus.

Case 7
$250 Course Required Supplies

SITUATION:
Student-Athlete R is a scholarship volleyball player studying in the Medical Assistant program at Community College A. As a student in the Medical Assistant program the college requires all students to wear medical scrubs to class and also to clinics. Is it permissible for Community College A to provide medical scrubs to Student-Athlete A as part of her scholarship/Letter of Intent?

ANSWER:
Yes. It is permissible for Community College A to provide course required supplies to Student-Athlete A provided the terms are included on the student’s Letter of Intent. A limit of $250 is set for the entire academic year per student-athlete for course required supplies. In order to cover the cost of such supplies the requirement must be listed in the college catalog or on the course syllabus.

Case 8
Host Families

SITUATION:
Student-Athlete R is a student-athlete from out of the area who signs an NJCAA Letter of Intent with Community College A for the 2017-2018 academic year. There is a host family that is interested in having Student-Athlete R live with them during the year. Can Student-Athlete R live with a host family while also having signed an athletic scholarship at Community College A?

ANSWER:
Yes, only if all of the following conditions apply:
1. Host families are offered to all students at Community College A.
2. The host family program at the college is run by the college and not by the athletic department.
3. No one in the athletic department arranges the host family for the student-athletes.
4. If a Division I scholarship is given to the student-athlete, housing may not be a part of the athletic scholarship.

Case 9
Adopt a Player Program

SITUATION:
May Community College A, a Division II program, initiate an Adopt a Player program for their athletic department?

ANSWER:
Each college, regardless of division, may utilize the adoptive parent program stipulated in NJCAA bylaws. Pay careful attention to the "occasional and excessive" stipulations. Within Division II and III, no housing arrangement may exist between the "adoptive parent" and the student-athlete.

Additional Benefits

Case 1
Meal Allowance / Reimbursement outside of the academic term.

SITUATION:
Community College A brings all volleyball players onto campus on August 1st to begin in season practice. Is Community College A permitted to provide meals to those members of the volleyball team who are not on a board scholarship?

ANSWER:
Yes. It is permissible for member schools to provide meals to all student-athletes who are required to be on campus for athletic reasons during periods of time outside of the official dates of the term. The meals may not exceed $15 per day or the amount of on campus dining charges. Once the term begins, this benefit is no longer permissible to those students not on a board scholarship.

Case 2
Meal Allowance / Reimbursement

SITUATION:
Community College A brings all basketball players onto campus on January 1st following the winter break. The school does not have on campus dining available. Is it permissible for Community College A to negotiate with a local establishment to provide meals to the players at a cost of $25 per day during the time period of January 1st to January 15th when the spring term begins?

ANSWER:
No. It would not be permissible to negotiate with a local establishment to provide meals to the student-athletes as the per day cost of $25 is in excess of the allowable $15 per day. Since the college does not have on-campus dining, the maximum allowance is limited to $15 per day per student-athlete. The college may negotiate with a local establishment to provide this service but may not exceed $15 per day.
Case 3  
Meal Allowance / Reimbursement inside of the Academic Term

SITUATION:  
Community College A schedules baseball games during spring break when the college is closed. Since the student-athletes are required to be on campus for practice and games, may the college provide meals to those student-athletes required to be on campus over spring break?

ANSWER:  
Yes. The athletic department may provide meals to all student-athletes who are required to stay on campus when the college is closed within an academic term. The college may provide meals one time in the fall term and one time in the spring term for no more than seven (7) consecutive days not to include Saturday and Sunday. Meals may be provided to all athletes who are required to remain on campus for practice or games regardless of division.

Case 4  
Meal Allowance - Home Athletic Contest

SITUATION:  
Community College A is hosting a baseball double header. Is it permissible for the college to purchase drinks and sandwiches for all of the players on the team between games even though it is a home contest?

ANSWER:  
Yes. NJCAA bylaws allow member colleges to provide one meal per day to all student-athletes participating in a home athletic contest on game day.

Case 5  
Campus Housing Allowance

SITUATION:  
Community College A brings all volleyball players onto campus on August 1st to begin in season practice. Is Community College A permitted to open the dorms to student-athletes who are not on a room scholarship? The dorms are closed to all students other than student-athletes.

ANSWER:  
Yes. It is permissible for Community College A to open the dorms up to student-athletes who are not on a room scholarship and provide them with a place to stay while they are required to be on campus even though the dorms are not yet available to other students who are non-athletes. This allowance is permissible from the first day of in season practice until the beginning of the official academic term. Once the term begins, this benefit is only allowable to those student-athletes who are on a room scholarship.

Case 6  
Campus Housing Allowance

SITUATION:  
Community College A sponsors a Division III soccer team. Community College A has on-campus dormitories. Is it permissible to bring all soccer players onto campus on August 1st and provide housing for all of the players in the dorm?

ANSWER:  
Yes. It is permissible for Community College A to provide housing to the members of the DIII soccer team provided the benefit is only provided during the time period outside of the regular academic term and the student-athletes are required to be on campus. The benefit is only allowable during the in season portion of the year.

Case 7  
Off-Campus Housing Allowance

SITUATION:  
Community College A sponsors a Division II softball team. Community College A does not have on-campus dormitories. Is it permissible to bring all softball players onto campus on August 15th and provide housing for all of the players in a local hotel?

ANSWER:  
No, since the college does not have dorms it is not permissible to provide housing for any student-athlete, especially not a Division II student-athlete. The students in this case are fully responsible for taking care of their own living arrangements. NJCAA bylaw only allows for housing on campus.

Case 8  
Housing Information

SITUATION:  
May Community College A, who has a Division II program, provide housing information/materials to student-athletes?

ANSWER:  
Yes. As long as the athletic department does not arrange for the housing between the student-athletes and the complex or owners of the complex, there is no violation. Housing materials may be provided to all student-athletes regardless of the division in that sport. Division II and III programs may only provide the housing materials. No member of the athletic department or its representatives may have any other dealings regarding the students housing beyond providing the materials.

Case 9  
Coach/Athletic Director Assisting Student-Athlete in Housing Arrangements

SITUATION:  
Community College A does not provide on-campus housing for their students. The coach/athletic director wants to help his/her student-athletes by giving them the name of an “apartment finder” located in the town to help his/her student-athletes in
finding housing. Is the coach/athletic director at Community College A permitted to give out the name and contact information to his/her student-athletes?
ANSWER:
Yes. The athletic department may provide housing information but cannot arrange housing for the student-athletes. Please remember that only Division I may provide housing/room and board scholarships. Divisions II and III may not provide athletic scholarships that include housing/room or board.

**Letter of Intent Number Limits**

**Case 1**
Scholarship Limitations (NJCAA Sport Procedures)

SITUATION:
Community College A has 12 returning second season baseball players who they submit on NJCAA Letters of Intent as receiving athletic aid. How many additional scholarships does Community College A have remaining in the sport of baseball?

ANSWER:
Community College A has 12 remaining scholarships to give to reach the maximum number of scholarships allowed in the sport of baseball (24) as per NJCAA Sports Procedures. Community College A may not exceed a total of 24 players on scholarship for the academic year.

**Case 2**
Scholarship Limitations (NJCAA Sport Procedures)

SITUATION:
Community College A has 12 available Letters of Intent to offer in women’s basketball and the college signs 12 individuals to those 12 Letters of Intent. Community College A also signs 5 individuals in women’s basketball to Letters of Intent for “No Athletic Aid”. Is Community College compliant with the rules as per the numbers in the NJCAA Sports Procedures?

ANSWER:
No. Community College A is in violation of this bylaw because in the sport of basketball only 15 individuals may sign NJCAA Letters of Intent regardless of the amount of athletic scholarship that student is receiving from the college. Therefore in this case 17 women’s basketball players have signed NJCAA Letters of Intent, thus exceeding the maximum number of signees allowed by two (2) student-athletes.

The numbers listed per sport under the “# of Letter of Intent Signees/ Scholarships” column in the Sports Procedures is the number of individuals who may sign a Letter of Intent during that academic year. Those athletes who sign Letters of Intent for “No Athletic Aid” are still counters towards the total number of signees.

**Non-Athletic Aid**

**Case 1**
Non-Athletic Aid Letters of Intent = Counters

SITUATION:
Community College A is a Division III college who cannot offer athletic scholarships of any type in any sport. Community College A desires to utilize the NJCAA Letters of Intent for their student-athletes by selecting “No Athletic Aid” on the NJCAA Letter of Intent. Are those signees of these Letters of Intent counters towards the maximum number of student-athletes on scholarship in that sport?

ANSWER:
Yes. A signee of an NJCAA Letter of Intent counts towards the overall maximum number of individuals in that sport regardless of the amount of athletic scholarship. Example: A Division III baseball program may sign 24 student-athletes to “no athletic aid” Letters of Intent. Another example is a Division I soccer program may sign 14 student-athletes to Letters of Intent who are receiving some form of athletic aid leaving only 4 other student-athletes who may sign NJCAA Letters of Intent with no athletic aid for a total of 18 Letters of Intent signees.

**Case 2**
Athletic Aid – Ineligible Athlete

SITUATION:
Can an academically ineligible player receive institutional athletic aid from the college he/she has signed with?

ANSWER:
Yes. A student-athlete may receive athletic aid if an NJCAA Letter of Intent has been properly executed. The letter of intent for the ineligible player is one of the allowable counters and is considered when determining the overall number of letter of intents allowed.

**Case 3**
Entertainment Allowance

SITUATION:
Community College A is participating in an out-of-state tournament and on their way to the tournament they stop at a four-year institution to see a home basketball game at that college. Can Community College A pay for their team’s tickets?

ANSWER:
Community College A is permitted to expend money for reasonable entertainment expenses when traveling for intercollegiate competition. The monies used must be approved through the regular financial approval processes of the college.
Case 4
Entertainment Allowance

**SITUATION:**
Community College A is wanting to take their men’s basketball team to see the local four-year university’s game. Is it permissible to pay for tickets and provide transportation to the local four-year university’s basketball game as a team outing?

**ANSWER:**
It is not permissible to provide tickets or transportation to the local university’s basketball game as a team outing since the trip is not associated to intercollegiate competition travel nor is it a leadership activity.

Case 5
Complimentary Admissions – Home Athletic Contests

**SITUATION:**
Community College A would like to boost attendance at home games. Is it permissible for each member of the team to provide a list of names of people who can attend the home games free of charge?

**ANSWER:**
NJCAA bylaws allow for every member college to provide a maximum of four (4) complimentary admissions per home game to each student-athlete in the sport in which the individual participates.

Case 6
Complimentary Tickets – Local University

**SITUATION:**
Community College A would like to take the members of the basketball team to see a game at the local university. Is it permissible for Community College A to coordinate with the local university to provide complimentary tickets for the members of the basketball team?

**ANSWER:**
No. It would not be permissible for the college to coordinate for the complimentary tickets since the outing is not associated with Community College A’s intercollegiate travel. Providing the game tickets would be above and beyond the permissible allowances of what a member college may provide to student-athletes.

Impermissible Aid

The following are examples of impermissible aid. In no way does this section of the casebook cover all impermissible aid.

Case 1
Housing/Financial Agreement Between Coach and Student-Athlete

**SITUATION:**
Community College A does not award any financial aid to student-athletes. Since on-campus student-athlete housing does not exist, each student-athlete is responsible for finding his/her own room and board. Is it permissible for the coach to enter into a housing agreement with Student-Athlete R? Would this be possible if Community College A did award financial aid to student-athletes?

**ANSWER:**
No in both cases. The coach is not permitted to enter into any kind of a financial agreement with the student-athlete. This is viewed as financial assistance which is not administered by the college.

Case 2
Housing Arrangements with Coach

**SITUATION:**
The following situations are prohibited by the NJCAA bylaws in this section.

1. The coach at Community College A owns rental units that he rents to members of any of the college’s athletic teams.
2. A coach allows members of his/her program to rent the basement of their house during the summer months.
3. Student-Athlete R, a basketball player at Community College A is kicked out of the dorm in the middle of the fall term. Student-Athlete R then moves into the home of the basketball coach for the duration of the semester.
4. Athlete R is signed to a Division I full ride which includes housing. When the student arrives on campus his apartment is not ready. A member of the college coaching staff permits Student-Athlete R to stay with them until his apartment is ready.
5. In a Division III setting, any arrangement made by the coach which allows a student-athlete to live rent free or reduced rent.
6. Coach collects rent from student-athletes, then writes a personal or college check to the landlord.
7. Coach collects rent from student-athletes and then pays the landlord to ensure payment.
Case 3
Financial Assistance – Posting Bail for Student-Athlete

SITUATION:
Student-Athlete R, a basketball player at Community College A, gets in trouble with the police and is placed in jail. May the coach at Community College A post bail to get Student-Athlete R out of detention?

ANSWER:
No. Neither college personnel nor a member of the college’s athletic interest may post the bail for Student-Athlete R. Additionally, it should be noted that the college may not provide for legal counsel and may not co-sign a loan for any student-athlete.

Case 4
SEVIS Fees

SITUATION:
Community College A is recruiting a player from Brazil. Anyone wishing to enter the United States either as a student or an exchange visitor with a Form I-20 or DS-2019 dated on or after September 1, 2004 must pay the SEVIS (Student and Exchange Visitor Information System) fee before going to the United States Embassy or Consulate for their visa interviews. May Community College A pay this fee on behalf of the student-athlete?

ANSWER:
No. NJCAA bylaws makes no provisions for Community College A to pay for this fee within any sport division (I, II or III) of the NJCAA due to the fact that this is a United States government fee not a college related fee.

Case 5
Game Tickets to Professional Games

SITUATION:
A minor league baseball team located in Community College A’s city wants to honor the college baseball team by inviting Community College A’s team to come to one of their home games. The minor league team will be paying for the costs of the game tickets for the student-athletes on the baseball team at the college. Is there a violation if Community College A allows this professional team to pay for these game tickets or any other expenses for their student-athletes?

ANSWER:
Yes. Free game tickets to any event that are given to student-athletes in the NJCAA are above and beyond an NJCAA athletic scholarship/Letter of Intent. Therefore it would be a violation if these student-athletes accepted free game tickets to this event. The team may be verbally honored at the event by being announced, but that is the only recognition the team and the college may receive.

Case 6
Expending Athletic Scholarship Funds Prior to a Student’s Signing of an NJCAA Letter of Intent

SITUATION:
Student-Athlete R is being recruited to play football at Community College A for the fall 2017 season. He has not yet signed a NJCAA Letter of Intent at any member college including Community College A but attends the football tryouts at Community College A. (This tryout session is not an official recruiting trip to the campus.) Community College A pays for his travel expenses to get to campus as well as paying for his room, board, and food while attending the tryouts. After the tryouts, Community College A does not keep Student-Athlete R on the team and he does not sign a Letter of Intent. As a result, Student-Athlete R must leave the college and does not attend classes that fall term. Is this a violation on the part of Community College A?

ANSWER:
Yes. The college paid for his expenses to attend the tryouts prior to any signing of an NJCAA Letter of Intent. The college may pay for the expenses if Student-Athlete R was on an official recruiting trip or has signed a valid NJCAA Letter of Intent. However in this case, the tryouts were not part of an official recruiting trip therefore none of his expenses could be paid for prior to signing an NJCAA Letter of Intent.

Case 7
Expending Team Travel Funds Prior to a Student’s Signing an NJCAA Letter of Intent

SITUATION:
Student-Athlete R, a volleyball player at Community College A, attends the college and participates in her first season during the fall 2017 term. She was recruited by the college but has not yet signed a Letter of Intent. She has been traveling with the team to away matches where her food, transportation and lodging have been paid for by the college. Has a violation of this rule occurred in this situation since she has not signed a Letter of Intent?

ANSWER:
No. The college may pay for the expenses associated with traveling to away games which in this case would not be a violation. However, if and when Community College A decides to offer her a Letter of Intent, once the signatures of Student-Athlete R and the athletic director are entered into the online Letter of Intent program, the college at that point may start paying for those provisions as outlined in her athletic scholarship.

Case 8
Recruiting Athletes – Loaning Money

SITUATION:
While recruiting Prospective Athlete R, the coach at Community College A loans him/her a small sum of money for personal needs. Can this loan be construed as an inducement for Prospective Athlete R to attend Community College A?

ANSWER:
Yes. Any financial agreement outside of NJCAA bylaws is a violation.
Case 9  
Student-Athlete Employment – Athletic Camps

**SITUATION:**
NJCAA bylaws restrict a member college or its representatives from arranging employment for any of its student-athletes or its recruits. That being the rule, in many cases the student-athletes are the most qualified to serve as counselors in athletic camps. How may a student-athlete serve as a camp counselor and remain within the bylaws of the NJCAA?

**ANSWER:**
The following process must be adhered to in order to utilize a current student-athlete and or LOI signee as a camp counselor at the member college:
1. Athletic camps must be conducted on campus.
2. There must be a formal application process where anyone interested could apply.
3. Student-athletes must go through the formal application process just as all other candidates.
4. College must document that the most qualified applicant was selected for the camp counselor position(s).
5. All camp counselors must be paid the going rate for similar duties and position.

Cancellation of Scholarship

**Case 1**  
Cancellation of Grant-in-Aid & Reimbursement – Student Leaves Team Before First Game

**SITUATION:**
Student-Athlete R, a basketball player at Community College A, accepts an athletic scholarship for the 2017-2018 academic year. On October 1\textsuperscript{st}, prior to Community College A’s first date of competition, Student-Athlete R voluntarily leaves the team. Can Community College A demand reimbursement of Student-Athlete R’s athletic scholarship?

**ANSWER:**
Because Student-Athlete R voluntarily left the team prior to Community College A’s first contest, Student-Athlete R will be responsible for all expenses from October 1\textsuperscript{st} until the end of the term or the year in which the scholarship was awarded. Those expenses would be pro-rated from October 1\textsuperscript{st}, based on the cost of attending Community College A as reflected in the college catalog.

**Case 2**  
Cancellation of Grant-in-Aid & Reimbursement – Student Leaves Team in Middle of Season

**SITUATION:**
Student-Athlete R, a member of Community College A’s basketball team, voluntarily withdraws from the team in the middle of the season. Can Community College A cancel Student-Athlete R’s basketball grant-in-aid as a result of him/her withdrawing from the team?

**ANSWER:**
No. The grant-in-aid cannot be canceled because Student-Athlete R quit the team after the start of the season. Cancellation is permissible only if the student-athlete withdrew prior to the start of the regular season.

**Case 3**  
Cancellation of Grant-in-Aid & Reimbursement – Student Leaves After Term

**SITUATION:**
Student-Athlete R signs an NJCAA Letter of Intent in baseball and attends Community College A during the fall term. After the fall term, Student-Athlete R does not return to Community College A. Can Community College A demand reimbursement of all athletic aid received during the fall term?

**ANSWER:**
No. Community College A cannot demand reimbursement or any scholarship moneys for the fall term.

Letter of Intent

**General**

**Case 1**  
General Information

The following guidelines have been established to help clarify the interpretation of adding, canceling and releasing athletes receiving athletic aid. In addition, the use of summer school by scholarship athletes has also been addressed.

- The NJCAA academic year begins on August 1\textsuperscript{st} and ends on July 31\textsuperscript{st}.
- If athletic aid for the summer term is awarded, it must be included on an NJCAA Letter of Intent.
- Summer school is considered part of the previous fall and spring academic year, not part of the upcoming calendar/academic year. A class beginning prior to August 1\textsuperscript{st} would be considered part of a summer school term.

**ADDITION:**
- A student-athlete must be provided with written notification of the terms of the original grant-in-aid within the first 15 calendar days after the beginning of classes of the academic terms in which he/she is receiving aid.
Special permission from the NJCAA National Office must be obtained for any student-athlete being awarded athletic aid after the first 15 calendar days of the term.

If the grant-in-aid becomes vacant, it may be awarded to a different individual for the remainder of that academic year, beginning with the next term.

Limitations on the number of scholarships allowed by NJCAA bylaws are listed in the NJCAA Sports Procedures Chart.

A student-athlete may be added to a college's scholarship list for summer school if they remain in compliance with the above items.

**CANCELATION:**

- Cancellation of a grant-in-aid, during the period of its effectiveness is permitted for the following reasons:
  - If the student-athlete becomes ineligible for participation in athletics because of academic and/or disciplinary reasons;
  - For misconduct (unrelated to athletic ability) found by the person or body in charge of general discipline at the institution, after following the same procedures as in other disciplinary matters, to be serious enough to warrant permanent suspension or dismissal from the athletic program;
  - If the student-athlete voluntarily withdraws from a sport prior to the institution's first competition in that sport;
  - Graduation.

- An athletic scholarship may be canceled based on the four reasons listed above and can be replaced at the next term, or at any term thereafter. A Release Agreement for the vacating student-athlete must be signed and submitted online with the NJCAA National Office at the time of replacement, and the new student-athlete's Letter of Intent must be submitted online by the 15th calendar day after the beginning of classes in the first term the student-athlete is receiving aid.
- Cancellation/replacement must be at term, not mid-term.

**Case 2**

**Clarification on NJCAA Letters of Intent**

The following case is regarding NJCAA Letters of Intent: who is to be submitted online, who is to sign a Letter of Intent and who is considered to be a counter towards the total number of Letters of Intent/athletic scholarships.

All NJCAA Letters of Intent are to be submitted online starting with the 2007-2008 academic year. In the past there were two ways to report scholarships to the NJCAA: the Letter of Intent and/or the Scholarship Certification Form. The Scholarship Certification Form is no longer being used beginning with the 2007-2008 academic year. All athletes receiving athletic aid must sign a Letter of Intent and that Letter of Intent must be submitted online.

A common misconception is that every athlete on the roster must sign a letter of intent. That is not currently, nor has it ever been, an accurate statement. **ONLY those athletes receiving athletic aid must sign a letter of intent and that letter of intent must be submitted online.**

*Please keep in mind - All athletes who will be participating during the season (regardless of whether or not they are signed to a letter of intent) must have their eligibility submitted online through the Online Eligibility Program.*

**An example:** A men's basketball team has 20 players, only 15 may sign an NJCAA Letter of Intent as per the NJCAA Sport Procedures. If a college was required to sign every player on their roster to an NJCAA Letter of Intent, then the roster of certified players would be limited to 15 players. This is not an accurate interpretation of the rules. Only if your college is giving athletic aid to a student-athlete must an NJCAA Letter of Intent be signed by the athlete and that NJCAA Letter of Intent submitted online.

**Walk-ons:**

Must "walk-ons" sign an NJCAA Letter of Intent? That answer is "yes" only if that walk-on is receiving athletic aid. That NJCAA Letter of Intent must be submitted online and the walk-on is now considered a counter towards the overall number of individuals permitted on scholarship in that sport. If that walk-on is not receiving athletic aid, he/she may sign a letter of intent for no athletic aid but it is not mandatory.

**No Athletic Aid:**

Additional confusion centers around those athletes who are signing NJCAA Letters of Intent but are not receiving athletic aid: "no athletic aid". A college may choose to sign a student-athlete to an NJCAA Letter of Intent without offering any athletic aid. That NJCAA Letter of Intent would bind the student-athlete to that college and would also count towards the maximum number of allowable NJCAA Letters of Intent as per the numbers in the NJCAA Sports Procedures.

**Maximum Number of Signees:**

In reviewing the NJCAA Sports Procedures, the third column from the right is titled: "# of Letter of Intent Signees/ Scholarships". This is a head-count of individuals who have signed Letters of Intent which includes those athletes receiving athletic aid and those who have signed an NJCAA Letter of Intent whether or not he/she is receiving athletic aid.

**The Rule of Thumb here is:** Any individual who signs an NJCAA Letter of Intent is a counter regardless of the amount of athletic scholarship he/she is receiving.

**Example:** Baseball is allowed 24 individuals signed to an NJCAA Letters of Intent. Twenty (20) athletes have been recruited, are receiving athletic aid and have signed NJCAA Letters of Intent. At that point the college has four (4) Letters of Intent left for...
athletes to sign. Those final four Letters of Intent can be walk-ons, recruits or individuals receiving no athletic aid. If a college signs student-athletes to the remaining four Letters of Intent, regardless of the amount of athletic aid and regardless of what type of athlete (recruited, a walk-on, etc.), the college has signed 24 Letters of Intent and has reached the maximum number of Letters of Intent allowed to sign in the sport of baseball.

**Case 3**  
**Online Letter of Intent Q&A**

The following questions and answers are regarding the Online Letter of Intent program. All student-athletes receiving athletic aid will need to sign NJCAA Letters of Intent for the 2017-2018 academic year.

1. **Question:** When must a college complete and file a NJCAA Letter of Intent?  
   **Answer:** Any time a college is providing athletic aid to a student-athlete or are using the NJCAA Letter of Intent to commit a student-athlete to their college, an online form must be completed and submitted.

2. **Question:** Do I have to complete an online Letter of Intent for each student-athlete I am having commit to my college but am offering no athletic aid?  
   **Answer:** The only way for a recruit to “commit” to a member college is through the online Letter of Intent system. You must still complete the online Letter of Intent, have it signed by all appropriate parties, and submitted online. If the college is not providing any scholarship money you would simply indicate, “No Athletic Aid” in the scholarship information on the online Letter of Intent. This will count as one of your Letters of Intent/scholarships allowed per the NJCAA Sports Procedures in that sport.

3. **Question:** Do I have to sign all of my walk-ons with the online NJCAA Letter of Intent system?  
   **Answer:** No. You are not obligated to sign a player if he/she is not receiving any athletic aid and you are not concerned about committing him/her to your college with an NJCAA Letter of Intent.

4. **Question:** What do I do with the physical NJCAA Letter of Intent once it has been signed by all parties?  
   **Answer:** All NJCAA Letters of Intent must be kept on file at the college and submitted should your program be audited. The signature dates that were handwritten on the physical forms must match the signature dates entered online. A violation has occurred if the information and signature dates on the signed NJCAA Letter of Intent do not match the information on the submitted Letter of Intent online.

5. **Question:** Can I input the signing date on the NJCAA Letter of Intent form prior to the student-athlete’s signing if I know the date the student will sign?  
   **Answer:** No. The only printed date that should appear on the signed NJCAA Letter of Intent is the Athletic Directors date of signature. All other dates must be handwritten by the person signing the form; once the signatures and dates are obtained you must go back into the online Letter of Intent program, enter those dates and submit the form once all signature dates are entered. Sanctions will be imposed by the NJCAA National Office if the correct signing procedures are not followed.

6. **Question:** How do I release a student-athlete from his/her Letter of Intent?  
   **Answer:** The Release Agreement must be completed and submitted through the online Letter of Intent program. The Release Agreement form can be found under the Action column to the right of the student’s name. Click on release option, complete and print the form. The form must be signed by the student-athlete (as required on the form), athletic director and president to be valid. If the student-athlete’s signature is not required per the Release Agreement the form can be submitted without the student’s signature. Once all the signatures and dates are obtained you must go back into the online Letter of Intent program and enter the signing date and submit the Release Agreement. The status of that student’s Letter of Intent will show as ‘Released’ once the form has been submitted.

7. **Question:** What do I need to do if the form goes “Inactive”?  
   **Answer:** Once the form becomes inactive it is invalid and a new form must be recreated, resigned and resubmitted.

8. **Question:** How do I release a student-athlete from his/her Letter of Intent?  
   **Answer:** The Release Agreement must be completed and submitted through the online Letter of Intent program. The Release Agreement form can be found under the Action column to the right of the student’s name. Click on release option, complete and print the form. The form must be signed by the student-athlete (as required on the form), athletic director and president to be valid. If the student-athlete’s signature is not required per the Release Agreement the form can be submitted without the student’s signature. Once all the signatures and dates are obtained you must go back into the online Letter of Intent program and enter the signing date and submit the Release Agreement. The status of that student’s Letter of Intent will show as “Released” once the form has been submitted.

9. **Question:** What do I do with the physical Release Agreement once it is signed?  
   **Answer:** All Release Agreements must be kept on file at the college and included in the file should your program be audited. The physical forms submitted must match the online forms in terms of information and signing dates. If the forms submitted do not match the information submitted online the college will be notified of a violation.

**Case 4**  
**Faxed Copies of the LOI**

**SITUATION:**  
Student-Athlete R receives their NJCAA Letter of Intent in the mail and accepts the offer and signs the LOI. Student-Athlete R sends a faxed copy of the signed LOI back to Community College A. Is the faxed copy of the signed LOI a valid and official copy?  
**ANSWER:**  
Yes. The NJCAA considers the signed faxed copy a valid and official document. The NJCAA requests that the original still be collected but the member college may act using the signed faxed document as valid and official. The faxed copy and the original should both be filed in the student’s eligibility file to answer questions regarding the timeline and process for the signing when possible.

**Case 5**  
**Dividing Scholarships**

**SITUATION:**  
Community College A is a Division I community college offering 24 full baseball scholarships. Can Community College A offer 48 players each half a scholarship? Can they offer 12 full scholarships and 24 half scholarships?
ANSWER:
No. A scholarship is counted by the individual, not by the dollar amount. Community College A can offer 24 scholarships to 24 individuals, regardless of the dollar amount. No athletic aid can be offered to any individuals over the 24 limit.

Case 6
Scholarship Limitation – Summer Term

SITUATION:
Community College A has utilized 15 men's basketball scholarships for the academic year. At the completion of that year, Community College A wishes to scholarship Student-Athlete R, who is a transfer student-athlete, for the summer term. Can they scholarship Student-Athlete R?

ANSWER:
No. Community College A does not have an available scholarship to use for Student-Athlete R. The NJCAA defines an academic year as August 1st-July 31st. Therefore, Community College A has already utilized all of their available scholarships (15 in men's basketball), they have no scholarships available for Student-Athlete R during the summer session. In order to offer a scholarship to this student-athlete, the college must first release one student-athlete as per the reasons in Article VI, Section 1.D.1 prior to signing this student-athlete to a Letter of Intent for the summer term.

Case 7
NJCAA Letters of Intent – Manager Scholarships

SITUATION:
Community College A wishes to give an athletic scholarship to the manager of their men's basketball team. Does this scholarship count towards the overall number of scholarships allowed for the sport of basketball as per the NJCAA Sport Procedures?

ANSWER:
No. Manager scholarships are monitored by individual colleges, regions, and/or conferences in the NJCAA and are not to be submitted in the online NJCAA Letter of Intent program. However, if a manager receiving an athletic scholarship participates during the season or any season thereafter, he/she would then be considered a student-athlete and would count towards the overall number of maximum scholarships. They would be counters in the current year as well as retroactively in years which they received the managers scholarship. Appropriate penalties would be assessed should the college be over the allowable limits in any of those years.

Case 8
NJCAA Letter of Intent - Club Team

SITUATION:
May Community College A, who has declared themselves a club team, utilize the NJCAA Letter of Intent to bind a student-athlete to their college?

ANSWER:
No. Only intercollegiate varsity/JV programs may utilize the NJCAA Letter of Intent.
Case 3  
Issuing a Letter of Intent to Another Athlete Within the Same Academic Year  

SITUATION:  
Community College A signed eight (maximum number of letters of intent) student-athletes in men's golf by the 15th calendar day of the fall term. The college had to release one student-athlete from his letter of intent during the fall term. When can that athletic scholarship be issued to another student-athlete on the men's golf team?  

ANSWER:  
That athletic scholarship may be awarded to another member of the men's golf team after the end of the fall term and that letter of intent must be submitted online by the 15th calendar day of the spring term since that is the term in which that athletic scholarship will be started.

Case 4  
NJCAA Signing Date  

SITUATION:  
Student-Athlete R is being recruited to compete in volleyball and track & field. Which signing date must Student-Athlete R abide by when signing a NJCAA Letter of Intent?  

ANSWER:  
NJCAA Letters of Intent must be signed and submitted separately – one for each sport. The signing date for each sport must be abided by.

Case 5  
Submitting NJCAA Letter of Intent  

SITUATION:  
Community College A signs Student-Athlete R to a 2017-2018 NJCAA Letter of Intent and the form is signed in accordance with the signing procedures and within the signing dates indicated on the form. Community College A then mails the Letter of Intent to the NJCAA National Office. Is this proper procedure?  

ANSWER:  
No. All signings of letters of intent beginning with the 2007-2008 academic year and beyond must be submitted online and the original signed copies of the letters of intent should be kept on file at the college and submitted to the NJCAA National Office only upon request or as part of the college’s eligibility audit.

Case 6  
Submitting NJCAA Letter of Intent  

SITUATION:  
Community College A offers a NJCAA Letter of Intent to a student-athlete. The student-athlete completes and returns the form within the 14 day period specified on the Letter of Intent. Must Community College A submit this Letter of Intent to the National Office via the online letter of intent system?  

ANSWER:  
Yes. Community College A must submit all NJCAA Letters of Intent online once the student-athlete has signed the agreement. Sanctions will be imposed on Community College A if the letter of intent is not submitted in the online.

Case 7  
Submitting NJCAA Letter of Intent  

SITUATION:  
Student-Athlete R is issued an NJCAA Letter of Intent for baseball on January 1st. After considering all other options and offers, Student-Athlete R signs the Letter of Intent on January 16th. The college attempts to submit the letter of intent online on January 17th. Is this letter of intent valid?  

ANSWER:  
No. Student-Athlete R has 14 calendar days from the date of issuance to sign the letter of intent. If the letter of intent is not signed within that 14-calendar day period, it immediately becomes invalid and the form will be unable to be submitted online. In this case the letter of intent would need to be reissued, resigned and resubmitted online.

Case 8  
Signing a High School Senior to a Current NJCAA Letter of Intent  

SITUATION:  
Community College A has an available NJCAA Letter Of Intent slot in the current year. Is it permissible to sign a high school senior to a letter of intent for ‘No Athletic Aid’ in the current year so other colleges cannot recruit the athlete in his/her senior year?  

ANSWER:  
No. This practice would be in violation of NJCAA bylaws as community College A is only signing the student to an NJCAA letter of intent so other colleges cannot recruit the student. Member colleges are permitted to sign a high school student that has yet to graduate to a current letter of intent only when the high school student is receiving a benefit.

Case 9  
Student Signing the NJCAA Letter of Intent Prior to the Athletic Director  

SITUATION:  
Student-Athlete R signs a NJCAA Letter of Intent for baseball on November 1st, the NJCAA signing date. He then returns the signed form to the school on November 5th, at which time the Director of Athletics signs and dates the form. Is this letter of intent valid?
ANSWER:

No. The NJCAA Letter of Intent must be signed and dated by the Director of Athletics prior to presentation for the student-athlete's signature. In this case the NJCAA Letter of Intent is invalid. The college is then responsible for informing the student-athlete immediately of the letter of intent’s invalid status. In this case the letter of intent would need to be reissued, resigned and resubmitted online.

Case 10
Signing Date for the NJCAA Letter of Intent

SITUATION:
Student-Athlete R signs an NJCAA Letter of Intent for soccer on November 1st, the national signing date for soccer. How many days does the administering institution have to submit the letter of intent online?

ANSWER:
The institution must electronically submit the NJCAA Letter of Intent within 21 calendar days of the student-athlete's signature. If it is not submitted within that 21-calendar day period, the Letter of Intent will be considered invalid. The college is then responsible for informing the student-athlete immediately of the Letter of Intent’s invalid status where that Letter of Intent would need to be reissued, resigned and resubmitted online.

Case 11
Handwritten Signature Dates on the Original, Signed NJCAA Letter of Intent

SITUATION:
Community College A enters all signatures dates and then prints the NJCAA Letters of Intent for each person (student-athlete, parents, coaches, president) signing. Is this a violation since all signature dates are already entered into those letters of intent?

ANSWER:
Yes. All signature dates other than the date of signature (date of issuance) for the athletic director must be handwritten by each person signing the NJCAA Letters of Intent. If the signature dates are printed on the Letter of Intent instead of handwritten, the college will be notified of a signing violation.

Case 12
NJCAA Letter of Intent Procedures – “No Athletic Aid”

SITUATION:
Community College A is planning on using the NJCAA Letter of Intent. Community College A, however, is a non-scholarship institution. Does Community College A still need to complete the scholarship information on the NJCAA Letter of Intent?

ANSWER:
Yes. All NJCAA Letters of Intent must be fully completed upon submission to the NJCAA National Office online. Therefore if a student-athlete is not receiving an athletic scholarship, the scholarship information must read “No Athletic Aid.”

Case 13
Amending an Athletic Scholarship Online - Increase

SITUATION:
Student-Athlete R is originally given $200 in athletic aid for the academic year to be used for books. During the course of the year Student-Athlete R's athletic aid is upgraded to $400 for books. How is this upgrade recorded?

ANSWER:
Any time a student-athlete’s athletic aid is upgraded, the NJCAA Letter of Intent must be edited through the online letter of intent program using the edit option for that student-athlete’s letter of intent that has already been submitted online. The edited letter of intent must be attached and filed with the original letter of intent.

Case 14
Amending an Athletic Scholarship Online - Decrease

SITUATION:
Student-Athlete R is originally given $1,000 in athletic aid for the academic year to be used for tuition. During the course of the year the Athletic Director would like to decrease the student-athlete's athletic aid down to $200 due to the student receiving an academic scholarship. What are the proper steps for a decrease to be permissible.

ANSWER:
In order to decrease the terms of an NJCAA Letter of Intent, the new terms of the scholarship must be in writing and signed by the Athletic Director and the student-athlete. This signed statement must be sent to the NJCAA National Office, once received and approved, the online NJCAA Letter of Intent can be edited.

Case 15
Second Year Athletic Aid

Effective August 1, 2014, the Second Year Signing Agreement Form is no longer used in the NJCAA. A student who received a scholarship for their first year should be resigned to a second year NJCAA Letter of Intent no later than June 15th. If the student is not resigned on or before June 15th then the student-athlete becomes recruitable by other NJCAA member colleges beginning on June 16th.
Addendums

Case 1
NJCAA Letter of Intent - Addendums

SITUATION:
Community College A wishes to create an addendum to the NJCAA Letter of Intent for all student-athletes to sign listing additional conditions in order to retain their athletic scholarships. Is this permissible and what type of conditions may Community College A outline in this addendum to the NJCAA Letter of Intent?

ANSWER:
Yes. Community College A is allowed to develop an addendum to the NJCAA Letter of Intent. The addendum must be signed at the same time as the letter of intent and attached to the signed copy of the letter of intent for the conditions of the addendum to be valid. Any information the college feels is pertinent may be listed in the addendum. A common addendum includes a statement indicating the student-athlete must adhere to the documented student-athlete code for the college. Common terms for the code are must attend practices, must attend games, must attend study halls, etc.

Case 2
NJCAA Letter of Intent - Addendums

SITUATION:
Community College A wants to begin using addendums for all of their student-athletes. Is it permissible for Community College A to add criteria to the addendum which is contradictory to NJCAA bylaws? An example may be, “In the case where a student-athlete is injured, the college may cancel the student's letter of intent and athletic scholarship”.

ANSWER:
It is not permissible for a member college to put language in an addendum statement which is contradictory to NJCAA bylaws. The college may add language that strengthens NJCAA bylaws and holds a student to a higher standard but may not contradict NJCAA bylaws.

Multi-Sport Athletes

Case 1
Multi-Sport Scholarship Athlete Participating in Multi-Division Sports

SITUATION:
Student-Athlete R attends a NJCAA member school and signs a letter of intent to participate in football (DI) and receives a full scholarship including room and board. At the end of the fall academic term Student-Athlete R decides he wants to play baseball in the spring term. Is Student-Athlete R eligible to play baseball in the spring since he signed a DI scholarship for football?

ANSWER:
Multi-sport student-athletes may only receive scholarship funding at the maximum of the lowest division. Therefore, if the baseball program at Community College A is a Division I program, Student-Athlete R could play baseball provided there is a Letter of Intent available in the sport of baseball for him. If the baseball program is a Division II or Division III program, the student-athlete would not be eligible to participate since he had received a scholarship in excess of what is allowable for the division.

Case 2
Multi-Sport Scholarship Athlete Participating in Multi-Division Sports – Example 2

SITUATION:
Student-Athlete R is recruited by Community College A to play both volleyball and softball. At Community College A, volleyball competes at the DII level and softball competes at the DI level. What is the maximum scholarship that Student-Athlete R may be awarded and receive?

ANSWER:
Student-Athlete R may only receive a scholarship for tuition, fees, up to $250 in course required supplies and books which is the maximum of a DII scholarship and compete in both DI softball and DII volleyball. If Student-Athlete R receives a scholarship package that includes room and or board they would not be eligible to participate in DII volleyball due to being over awarded by the maximum of the lowest division.

Case 3
Distributing NJCAA Scholarships

SITUATION:
Community College A has already signed 24 baseball players to scholarships for the current academic year. Community College A has signed only six (6) of eight (8) potential scholarships in men’s golf. Can Community College A sign an individual to one of the two (2) remaining golf scholarships and have that person participate in baseball as a non-scholarship player?

ANSWER:
No. Signing a scholarship in the sport of golf indicates an intention to participate in that specific sport. The only situation that may be allowed is if the student-athlete were certified to play in both sports and did indeed practice and play with both teams. Providing athletic aid in a sport in which the student-athlete does not intend to participate in order to circumvent the scholarship limitations in another sport would be a violation of NJCAA bylaws.

In this scenario, this student-athlete would be a counter in both baseball and golf and therefore in this case there would be 25 student-athletes on scholarship in baseball which would be a violation in being over the maximum number of scholarships in the sport of baseball.
Case 4
Signing NJCAA Letters of Intent in Two Sports at Two Schools

SITUATION:

Student-Athlete R signs an NJCAA Letter of Intent to play football for Community College A. Community College B wants to sign Student-Athlete R to an NJCAA Letter of Intent in baseball. Can Student-Athlete R sign NJCAA Letters of Intent for both sports at separate institutions?

ANSWER:

No. The NJCAA Letter of Intent is not sport specific. Student-Athlete R cannot sign an NJCAA Letter of Intent with more than one NJCAA member college per academic year. Furthermore, Student-Athlete R must receive a signed NJCAA Release Agreement from Community College A if he wants to attend Community College B and compete in baseball.

Transfer Waiver Requirement – NJCAA Letter of Intent Signee

Case 1
Transfer Waiver Requirement for Letter of Intent Signee

Effective August 1, 2014, to be immediately eligible, a student-athlete who was signed to an NJCAA Letter of Intent in the previous, current or upcoming academic year must receive a Transfer Waiver.

Case 2
Transfer Waiver Requirement for Letter of Intent Signee

SITUATION:

Student-Athlete R signs an NJCAA Letter of Intent with Community College A. Following the completion of his/her first year of attendance, Student-Athlete R decides to transfer to Community College B. Does Student-Athlete R need an NJCAA Transfer Waiver and an NJCAA Release Agreement to be immediately eligible for athletic participation at Community College B?

ANSWER:

To be immediately eligible for athletic participation at Community College B, Community College A must have signed the Transfer Waiver form. Effective August 1, 2014, any student-athlete who was signed to a NJCAA Letter of Intent in the previous, current or upcoming academic year is required to have a signed NJCAA Transfer Waiver to be immediately eligible. Without the Transfer Waiver the student is ineligible for participation if they signed an NJCAA Letter of Intent at any time in the previous, current or upcoming academic year. The Release Agreement is also required if the letter of intent has not expired.

Case 3
Transfer Waiver Requirement for Non-Letter of Intent Signee

SITUATION:

Student-Athlete R is a walk on at Community College A during the 2016-2017 academic year and participates in all of the teams games that season. Student-Athlete R decides to transfer to Community College B. Does Student-Athlete R require an NJCAA Transfer Waiver to be immediately eligible at Community College B?

ANSWER:

Since Student-Athlete R was not signed to a letter of intent in the previous, current or upcoming academic year, Student-Athlete R may transfer to any NJCAA member college and be immediately eligible without needing a transfer waiver. This is obviously provided they meet the academic requirements for participation.

Case 4
Transfer Waiver Requirement for Transfer Back to Home District

SITUATION:

Student-Athlete R signs an NJCAA Letter of Intent with Community College A. Following the completion of his/her first year of attendance, Student-Athlete R decides to transfer to Community College B which is located in their home district. Does Student-Athlete R need a NJCAA Transfer Waiver to be immediately eligible for athletic participation at Community College B?

ANSWER:

Since Student-Athlete R was signed to an NJCAA Letter of Intent in the previous, current or upcoming academic year, a signed transfer waiver is required from Community College A for Student-Athlete R to be immediately eligible at Community College B. The home district exception was deleted effective August 1, 2014.

Case 5
Transfer Waiver Requirement – Student Did Not Receive a Second Year Scholarship Offer

SITUATION:

Student-Athlete R signs an NJCAA Letter of Intent with Community College A and participates in his first season of competition with Community College A. Following the completion of his first season of participation, Community College A notifies the student that they will not be offering the student a scholarship for the second upcoming academic year. Student-Athlete R decides to transfer to Community College B. Does Student-Athlete R need a NJCAA Transfer Waiver to be immediately eligible at Community College B since Community College A did not offer him a scholarship for the second year?

ANSWER:

Since Student-Athlete R was signed to a letter of intent in the previous, current or upcoming academic year, a signed transfer waiver is required from Community College A for Student-Athlete R to be immediately eligible at Community College B. The Second Year Signing Agreement exception was deleted effective August 1, 2014.
Case 6

Transfer Waiver Requirement – DIII Student-Athlete Signed to an NJCAA Letter of Intent with “No Athletic Aid”

SITUATION:

Student-Athlete R signs an NJCAA Letter of Intent with Community College A and participates in a Division III sport. Student-Athlete R signs an NJCAA Letter of Intent with Community College A for no athletic aid. Student-Athlete R now wants to transfer to Community College B and participate. Does Student-Athlete R require a transfer waiver to be immediately eligible at Community College B?

ANSWER:

Since Student-Athlete R was signed to a letter of intent in the previous, current or upcoming academic year, a signed NJCAA Transfer Waiver is required from Community College A for Student-Athlete R to be immediately eligible at Community College B.

Case 7

Transfer Waiver Requirement – DIII Student-Athlete Not Signed to an NJCAA Letter of Intent

SITUATION:

Student-Athlete R participates at Community College A in a Division III sport. Student-Athlete R now wants to transfer to Community College B and participate. Does Student-Athlete R require a NJCAA Transfer Waiver to be immediately eligible at Community College B?

ANSWER:

Since Student-Athlete R was never signed to a letter of intent in the previous, current or upcoming academic year, a transfer waiver is NOT required from Community College A for Student-Athlete R to be immediately eligible at Community College B.

Case 8

Transfer Waiver Requirement – Failure to Enroll

SITUATION:

Student-Athlete R signs an NJCAA Letter of Intent with Community College A during her senior year in high school in preparation for the upcoming college season. During the summer, Student-Athlete R contacts Community College A and notifies them that she has lost the love for the sport and is just going to attend the local college and take classes and not play sports. Community College A releases Student-Athlete R to free up the letter of intent slot. Student-Athlete R enrolls at Community College B and now wants to play sports again. Does Student-Athlete R need a NJCAA Transfer Waiver from Community College A to be immediately eligible at Community College B?

ANSWER:

Since Student-Athlete R was signed to an NJCAA Letter of Intent in the previous, current or upcoming academic year, a transfer waiver is required from Community College A for Student-Athlete R to be immediately eligible at Community College B.

Simulated Letter of Intent Signing

Case 1

Simulated Letter of Intent Signing

SITUATION:

Community College A participates in a simulated signing of a NJCAA Letter of Intent for that sport. Is this a violation of the NJCAA bylaws?

ANSWER:

Yes. Signing a student-athlete to any document other than an official NJCAA Letter of Intent signifies the student has committed to the college would be in violation of NJCAA bylaws. No representative of a member college, the college coaching staff or a representative of the member college’s athletic interest may take part in any event that would indicate that a student-athlete has signed a NJCAA Letter of Intent with the college. This practice is not permitted at any time during the academic year. This would include a picture and/or an article appearing in the news media which indicates the student has “committed” to such and such college. Signing a student-athlete to a simulated Letter of Intent or staging a Letter of Intent signing for the media would provide benefits to the college that organized the event without actually signing the student to an NJCAA Letter of Intent. If you want to show the student-athlete has committed to a member college then the student must be signed to an NJCAA Letter of Intent and must be a counter in that sport.

Case 2

Offering Written Contract Before Signing an NJCAA Letter of Intent

SITUATION:

Community College A is recruiting Student-Athlete R. Prior to the official signing period in baseball, the coach at Community College A provides a written copy of the athletic aid Community College A will be offering Student-Athlete R on November 1st (the official signing date in baseball). Is it legal for Community College A to provide a student-athlete with a written copy of the verbal offer being made? If Community College A includes a disclaimer on the written copy of the offer indicating that it is not a binding contract, but for informational purposes only, is it legal?

ANSWER:

Institutions, regions and/or conferences may not provide a written offer prior to the NJCAA signing date.
Case 3

Signing Conference Letters of Intent

SITUATION:
Community College A is not using the NJCAA Letter of Intent. Instead, it is using its own conference letter. The conference signing date for football is January 15th, however the National signing date is not until after that date. Which signing date must Community College A abide by?

ANSWER:
Community College A must abide by the NJCAA signing date. No NJCAA member college can sign a student-athlete to an institutional, conference or state Letter of Intent prior to the NJCAA signing date.

Case 4

Signing Institutional Letter of Intent

SITUATION:
Community College A signs Student-Athlete R to an institutional letter of intent or athletic aid agreement. Can that institutional form be used to replace the NJCAA Letter of Intent?

ANSWER:
No. A college providing any type of athletic aid to a student-athlete must have a NJCAA Letter of Intent electronically on file with the NJCAA National Office. The institutional agreement may be signed at the same time or after the NJCAA Letter of Intent but may not be signed prior to the NJCAA Letter of Intent.

Case 5

Signing Institutional Letter of Intent – No scholarship

SITUATION:
Community College A signs Student-Athlete R to an institutional letter of intent to document the athlete’s commitment to the college even though no scholarship is being offered. Is this permissible under current NJCAA bylaws?

ANSWER:
No. A college may not sign a student to an institutional letter of intent to document the student’s commitment to the college without also signing an NJCAA Letter of Intent. The only manner in which a student can show their commitment to a member college is through the official NJCAA Letter of Intent system. Signing an athlete to any commitment letter other than the NJCAA Letter of Intent is a sanctionable violation.

Release Agreements

Case 1

General Information

RELEASE
- The NJCAA Release Agreement is available in the online Letter of Intent program to cancel a NJCAA Letter of Intent/Scholarship. Article VI, Section 2.D.1 provides the allowable reasons for cancellation. Listed below are samples of the practical situations for cancellation that fall under the formal circumstances as listed in Section 2.D.1.

- The following are situations that would allow a scholarship to be cancelled:
  1. Ineligible student-athlete.
  2. Discipline for misconduct unrelated to athletic ability.
  3. Voluntary withdrawal prior to the institution’s first contest.
  4. Failure to enroll (by the 15th calendar day of the term).
  5. Transfer.
  6. Withdrawal within the first 15 calendar days of the term.

Case 2

General Information

The following refer to situations that would allow a scholarship to be reissued:

1. Ineligible student-athlete - college is responsible for reasonable documentation of the ineligibility.
2. Disciplinary cancellations - college is responsible for reasonable documentation of the disciplinary situation.
3. Misconduct cancellations - college is responsible for reasonable documentation of the situation.
4. Voluntary withdrawal prior to the first contest - must have the signature of the withdrawing student-athlete on a Release Agreement prior to issuing the replacement scholarship.
5. Student-athletes who fail to enroll within the first 15 calendar days - college is responsible for reasonable documentation of the failure to enroll.
6. Student-athletes who transfer - must have the signature of the transferring student-athlete on a Release Agreement prior to issuing the replacement scholarship.
7. Student-athletes who sign professional sports contracts - must have the signature of the original student-athlete on a Release Agreement prior to issuing the replacement scholarship.
8. Student-athletes who join the military or go on a church mission - must have the signature of the original student-athlete on a Release Agreement prior to issuing the replacement scholarship.
9. Student-athletes who withdraw from classes within the first 15 calendar days of the term - college is responsible for reasonable documentation of the withdrawal.

Case 3
Cancellation of Scholarship During the Term

SITUATION:
Community College A, based on valid disciplinary reasons, chooses to revoke Student-Athlete R’s athletic aid on October 15th of the fall term. May Community College A replace Student-Athlete R and put Student-Athlete W on scholarship as of October 15th?

ANSWER:
No. Community College A must wait until the end of that term before replacing Student-Athlete R with Student-Athlete W on scholarship.

Case 4
NJCAA Release Agreement

SITUATION:
Student-Athlete R signs an NJCAA Letter of Intent with Community College A. Before the term begins, Student-Athlete R decides not to attend Community College A, and is unavailable to sign a Release Agreement. What can Community College A do to free that Letter of Intent and scholarship from Student-Athlete R?

ANSWER:
The Release Agreement form indicates the situations that require a student-athletes signature. In those situations if the student-athletes signature is not obtained the Release Agreement cannot be submitted and the Letter of Intent remains valid. In those situations that do not require the student-athletes signature, documentation must be provided showing the student-athlete graduated, withdrew, loss of eligibility, discipline, or failure to enroll.

Case 5
NJCAA Release Agreement

SITUATION:
Can a student-athlete who signs an NJCAA Letter of Intent with Community College A for the academic year and then transfers to Community College B during the term of that Letter of Intent, receive athletic aid from Community College B?

ANSWER:
No. A student-athlete who is bound by a Letter of Intent to Community College A is unrecruitable and cannot receive institutional athletic aid from Community College B without first receiving a signed Release Agreement from Community College A.

Case 6
Transfer Paperwork Requirements

SITUATION:
Student-Athlete R is signed to a Letter of Intent and participates at Community College A during the 2016-2017 academic year. Student-Athlete R transfers to Community College B for the 2017-2018 academic year. What documents are required for the student to be eligible at Community College B?

ANSWER:
At a minimum, the following documents must be on file at Community College B for Student-Athlete R to be considered for NJCAA eligibility at Community College B. Additional documents may be required based on the student specific history and situation.
1. NJCAA Transfer Waiver since the student was signed to a Letter of Intent in the previous academic year.
2. Complete official transcripts or copies of the student’s official academic transcript.

Case 7
Transfers without a Release Agreement/Transfer Waiver

SITUATION:
Student-Athlete R, signs an NJCAA Letter of Intent for the 2017-2018 academic year at Community College A but never enrolls. Student-Athlete R chooses to go to Community College B instead and enrolls in the fall 2017 term. In what capacity may Student-Athlete R participate at Community College B?

ANSWER:
If Student-Athlete R does not receive a Release Agreement signed by Community College A, he/she cannot participate, practice, become a manager, be associated with athletics nor may Student-Athlete R receive athletic aid at Community College B during the 2017-2018 academic year. Student-Athlete R may have contact with athletics staff at Community College B if and only if they are released from their letter of intent at Community College A or the terms of the signed NJCAA Letter of Intent expire. In addition, a Transfer Waiver is required if they are to be considered for participation at Community College B.

Case 8
Release Agreements - Student Responsible for Paying Expenses at Release Date

SITUATION:
At the end of the women’s basketball season Student-Athlete R asks her athletic director for a Release Agreement so she can be a recruitable athlete. She also wants to receive the remainder of her athletic scholarship for the academic year. Can the student still receive her athletic scholarship after a Release Agreement has been signed and submitted online?

ANSWER:
No. As per the bylaw: a Release Agreement that is submitted online is for a student-athlete “no longer receiving or intending to receive athletic aid.” Therefore once the Release Agreement has been submitted online, the student-athlete is
responsible for paying for his/her own educational and living expenses from the date the release is granted through the remainder of the year. The student-athlete will also become a recruitable athlete at the time of the release or the end of the term which the sport ended, whichever is later.

Case 9
Scholarship Limitation – Graduation

SITUATION:
As of March 12th, Community College A has 15 basketball players receiving athletic aid, 13 players that began the season and two more that were added at the beginning of the spring semester. Of those 15 players, nine of them will graduate from Community College A on May 15th. Can Community College A add nine additional players for the upcoming summer school session due to the nine players lost to graduation?

ANSWER:
Yes. Community College A will need to submit Release Agreements online for each of the nine student-athletes when they graduate to free up those scholarships prior to signing the new nine student-athletes to Letters of Intent for the summer session.

Letter of Intent Signee – Non-attendance

Case 1
NJCAA Letter of Intent Signee Attending Non-Member School

SITUATION:
Student-Athlete R signs an NJCAA Letter of Intent with Community College A. Student-Athlete R then decides to attend a college which is not a member of the NJCAA. Is Student-Athlete R’s NJCAA Letter of Intent automatically invalid?

ANSWER:
No. Community College A must submit a Release Agreement online to gain the Letter of Intent slot. Student-Athlete R may not return to a NJCAA member school and participate in athletics or receive athletic aid in that same academic year until the terms of his/her original Letter of Intent is completed or the Release Agreement has been signed and submitted online. If the student returns to a member college, they would require a Transfer Waiver from Community College A since they were signed to a Letter of Intent in the previous, current or upcoming academic year.

Case 2
NJCAA Release Agreement for a 4-Year Multiple Transfer

SITUATION:
Student-Athlete R signs an NJCAA Letter of Intent at Community College A for the 2017-2018 academic year in the sport of baseball. He decides before the start of the fall 2017 term that he wants to go to an NCAA institution instead. Student-Athlete R is not released from his NJCAA Letter of Intent. After attending the NCAA institution during the fall term he decides to transfer to Community College B to participate in baseball during the spring 2018 term. Does Student-Athlete R need a signed Release Agreement from Community College A in order to participate at Community College B?

ANSWER:
Yes. Student-Athlete R’s Letter of Intent is for the 2017-2018 academic year at Community College A. This Letter of Intent does not automatically become invalid because of his attendance during the fall term at a non-member college and therefore he must be released by Community College A before he is recruitable by any other NJCAA member college for the remainder of the 2017-2018 academic year. In this case, the original terms of the Letter of Intent have not been fulfilled and therefore the Release Agreement must be signed.

If the Release Agreement is not signed by Community College A, he remains unrecruitable and may not have any contact with any member of the athletic department at Community College B or any other member college. Student-Athlete R may not practice or be involved in any way with any athletic team at Community College B until the original terms of the Letter of Intent at Community College A have been fulfilled. Student-Athlete R also requires a Transfer Waiver from Community College A in order to be certified for participation.

Recruitment

Recruitable Athlete

Case 1
Non-Letter of Intent Signee – Season Over – Still in Term

SITUATION:
Student-Athlete R is a walk-on volleyball athlete at Community College A. She is unhappy with her playing time during the season and as soon as the season is over she begins contacting other NJCAA member colleges looking for a team for the following year. Is this student in violation of NJCAA bylaws?

ANSWER:
Yes. Student-Athlete R would be in violation of NJCAA bylaws. While she is not on a Letter of Intent she is still enrolled in the term when the volleyball season ended. She does not become a recruitable athlete until the end of the fall term.
Case 2
NJCAA Letter of Intent Signee – Representative Contact

SITUATION:
Student-Athlete R is a basketball player signed to an NJCAA Letter of Intent at Community College A. Student-Athlete R’s mother contacts Community College B to see if there is interest in her son for the following year. Has a violation of NJCAA bylaws taken place?

ANSWER:
Yes. Student-Athlete R’s mother is acting as a representative of Student-Athlete R who is currently in season and signed to an NJCAA Letter of Intent. The mother would not be able to make this contact until Student-Athlete R is released from his Letter of Intent and the spring term has come to an end.

Case 3
Released – Still in Term

SITUATION:
Student-Athlete R is a basketball player signed to an NJCAA Letter of Intent at Community College A. Immediately at the end of the season Student-Athlete R is released from their letter of intent. When does Student-Athlete R become recruitable once released?

ANSWER:
Student-Athlete R will become recruitable at the end of the spring term which is the end of the term which the basketball season ended. Even though they have been released they have to wait until the end of the term.

Case 4
Recruitable Athlete from the NJCAA – Conditional Release

SITUATION:
Student-Athlete R signs an NJCAA Letter of Intent with Community College A. Subsequently, he/she decides they would rather attend Community College B, which is located in the same Region. Can Community College A release Student-Athlete R with the limitation that he/she may not attend Community College B?

ANSWER:
No. The Release Agreement does not allow a college to release a student-athlete conditionally. Community College A can release the student-athlete which makes them recruitable. In order for the student-athlete to be eligible, they must receive a signed NJCAA Transfer Waiver from Community College A since they were signed to an NJCAA Letter of Intent in the previous, current or upcoming academic year.

Case 5
Student-Athlete Signs a Letter of Intent at a College and Visits the Campus at Another College

SITUATION:
Student-Athlete R, is currently under NJCAA Letter of Intent at Community College A for the 2017-2018 academic year, but is thinking of transferring to Community College B for the 2018-2019 academic year. At this time, the season has ended but the spring term is currently in session. He/she shows up on Community College B’s campus and has tried to contact the athletic director and/or coach about participating on the basketball team during the 2018-2019 season. What are the procedures for Community College B to follow if the student-athlete is currently on a NJCAA Letter of Intent at Community College A? When does the student-athlete become recruitable? What are the penalties for violating this rule?

ANSWER:
Because Student-Athlete R is currently still under the 2017-2018 NJCAA Letter of Intent at Community College A, this student-athlete is not recruitable by any other NJCAA member college until a NJCAA Release Agreement has been signed and the academic term which the sport season ended has concluded.

Since Student-Athlete R is still under the letter of intent at Community College A and the term which the sport season ended is still in session, the athletic director/coach/athletics interest at Community College B is prohibited from talking to or communicating with that student-athlete even if the student-athlete is on their campus.

Case 6
Recruiting Visit After Signing NJCAA Letter of Intent

SITUATION:
On April 15th, Student-Athlete R signs an NJCAA Letter of Intent for basketball. Can Student-Athlete R still receive a recruiting visit prior to the start of the next academic year?

ANSWER:
No. Once a student-athlete is signed to an NJCAA Letter of Intent, he/she immediately becomes unrecruitable and cannot be provided with an expense paid official recruiting visit nor can they be contacted by another NJCAA member college.

On Campus Recruiting – Official Visit

Case 1
Official On-Campus Recruiting Visit – High School Athlete

SITUATION:
Community College A wishes to bring a high school student-athlete to their college on an official recruiting visit during his/her junior year in high school. Is this a violation of NJCAA rules?
ANSWER:

Yes. A recruit must have completed their junior year of high school in order to receive an official visit to a NJCAA member school. Since he has not yet completed his junior year of high school it would be in violation of NJCAA bylaws.

Case 2

Official Recruiting Visits Limited to Campus & Local Community

SITUATION:
Community College A is located 100 miles from the nearest airport, in a large metropolitan area. Community College A plays a Saturday and Sunday doubleheader in the metropolitan area. May Community College A fly recruits into the metropolitan area and let them attend the weekend games?

ANSWER:
No. The recruiting visit is from the student-athlete’s home to the college campus by direct route. At no time may part of the recruiting visit be games or a visit to any other campus, town or city.

Case 3

Official On-Campus Recruiting Visit – Transporting Student to and from Airport

SITUATION:
Student-Athlete R is on an official recruiting visit to Community College A, which is located 90 miles from the nearest airport and/or bus terminal. May Community College A transport Student-Athlete R from the airport and/or bus terminal to the campus for the one official visit?

ANSWER:
Yes. NJCAA bylaws allow full compensation for one round trip by the most direct route. A college employee may pick up the potential student-athlete and transport him/her from the terminal to the campus and back to the terminal. Additionally, a college employee may pick up a potential student-athlete at his/her home and transport to the college and back home for the one official college visit.

Case 4

Official On-Campus Recruiting Visit – Entertainment Expenses

SITUATION:
While Student-Athlete R is on campus for a recruiting visit, may the college provide entertainment expenses for the Student-Athlete R, and may the college pay for long distance telephone calls made by Student-Athlete R?

ANSWER:
The NJCAA member college may pay for reasonable entertainment expenses during the recruiting visit. However, cash may not be given directly to the recruit. Therefore, the ticket, pass, or admissions fee must be purchased by the college for the prospective student-athlete. Entertainment must be limited to the community the college is located in and may not be for excessive entertainment. Receipts for all expenditures must be turned into the college accounting office to maintain consistency with NJCAA regulations.

The college may not pay for long distance telephone calls made by the recruit while on the recruiting visit.

Case 5

Official On-Campus Recruiting Visit – Professional Sport Entertainment

SITUATION:
Student-Athlete R visits Community College A, which is located 20 miles from a major metropolitan area. In fact, only a river separates the two communities. During the official recruiting visit, may Community College A take the potential student-athlete to a professional sports event in the major metropolitan city?

ANSWER:
No. Community College A is not located within the city. The duration of the recruiting visit must be limited to the community in which the college is located. Under no circumstances may the prospect be taken to a professional sports event.

Case 6

Official On-Campus Recruiting Visit – Automobile Rental & Reimbursement for Mileage

SITUATION:
Community College A is recruiting Student-Athlete R whose hometown is 100 miles from Community College A. On his/her official recruiting visit, Student-Athlete R would like to rent a car and be reimbursed by Community College A for the full cost of the rental. Is this allowable?

ANSWER:
No. Community College A may reimburse Student-Athlete R only for the mileage factor that a college employee would be reimbursed. Assuming a mileage factor of $.36 per mile, Student-Athlete R could be reimbursed $36.00 for his/her rental (100 miles x $.36/mile).

Case 7

Official On-Campus Recruiting Visit – Greens Fees

SITUATION:
A high school recruit is on an official paid recruiting visit at Community College A. He/she is being recruited for the golf program and the golf coach at Community College A wants to watch him/her play a round of golf at a local golf course. Is the golf coach allowed to pay for the high school recruit’s greens fees while on his/her recruiting trip?
ANSWER: No. The golf coach may not pay for the high school recruit’s greens fees at a golf course on or off campus while the recruit is on his/her official paid recruiting visit.

Case 8
Official On-Campus Recruiting Visit with Parents

SITUATION:
Community College A is recruiting Student-Athlete R for softball and intends to transport her to campus for an official visit. What expenses may Community College A incur if Student-Athlete R’s parents accompany her on the trip?

ANSWER:
None. Community College A may not incur any additional expenses relative to Student-Athlete R’s parents’ travel (transportation, lodging, food, etc.). In other words, if the hotel costs more due to the fact that three individuals are staying in the room as opposed to one, the parents would have to incur the additional cost.

Case 9
Official Recruiting Visit – Hosting Football Bowl Game (off campus)

SITUATION:
Potential Athlete B is on his official visit to Community College R. The same weekend, Community College R is hosting an NJCAA Football Bowl game at an off campus facility. Is Community College R permitted to take Potential Athlete B to the Bowl Game?

ANSWER:
No. Official recruiting visits are limited to on campus activities only.

Case 10
Official Recruiting Visit – Hosting National Championship Tournament (On Campus)

SITUATION:
Community College R is hosting, on campus, the NJCAA Men’s Basketball National Championship and has a team representing the college in the tournament. Potential Athlete B is on campus at the same time on an official visit. Is Potential Athlete B permitted to be admitted to the tournament at no charge?

ANSWER:
Yes. Because Community College R is represented in the tournament by its men’s team and the event is on campus. Had Community College R not been represented in the tournament field, Potential Athlete B could only be admitted if they paid their own admission.

Case 11
Other Official Recruiting Visit Rules and Regulations

The following are some examples of those situations not allowed within NJCAA bylaws as they relate to official on campus recruiting visits.

1. Allowing a potential student-athlete, on a paid recruiting visit, to extend the 48-hour stay to visit friends or relatives in the area.
2. May not utilize private charter air transportation for prospective student-athletes.
3. Allowing current student-athletes to drive recruits to a community other than the community in which the member college is located.
4. Taking potential student-athletes to a professional contest or a four-year institution event not held on the community college campus. The visit must be contained to the community in which the college is located.
5. Taking potential student-athletes to a national championship not held on the college campus.
6. The college’s coach may not pay for the meals, transportation and/or lodging for the parents of the potential student-athlete during the recruitment process.

Case 12
Official Recruiting Visit – Athletic Contact

SITUATION:
Prospective Student R is visiting Community College B on an official recruiting visit. Community College B has the recruit on campus for two days and is providing them housing and meals. Is Prospective Student R permitted to have athletic contact with current members of colleges sport team?

ANSWER:
While on an official visit, it is permissible for the recruit to have athletic contact with current student-athletes.

On Campus Recruiting – Unofficial Visit

Case 1
Unofficial Recruiting Visits Taken by Student who has Signed a Letter of Intent at Another Member College

SITUATION:
High School Student R has signed an NJCAA Letter of Intent with Community College A. He/she wants to visit Community College B on his/her own unrelated to athletics and not financed in any way by Community College B. Is the Athletic Director at Community College B allowed to meet with High School Student R when he/she is visiting Community College B’s campus?
ANSWER:
No. The Athletic Director or any other individual associated to the athletic department at Community College B is not allowed to make any contact with High School Student R since he/she has already signed an NJCAA Letter of Intent at Community College A. It is Student-Athlete R’s responsibility to inform Community College B of his/her signing an NJCAA Letter of Intent with Community College A prior to visiting their campus. (See the NJCAA Letter of Intent form.)

While on the visit to Community College B, High School Student R cannot speak with the athletic director or any athletic personnel, nor can that visit be an official paid recruiting visit. High School Student R becomes a non-recruitable athlete upon signing an NJCAA Letter of Intent at Community College A.

In addition, once High School Student R or a representative of his/her interests (i.e. high school counselor) contacts a school other than the one with which he/she has signed an NJCAA Letter of Intent, the student is in violation. Only the NJCAA Release Agreement signed by Community College A allows him/her to become a recruitable athlete.

Case 2
Unofficial Recruiting Visits – Athletic Contact

SITUATION:
Prospective Student R is visiting Community College A and Community College A has not provided any benefit to the recruit during the visit therefore it qualifies as an unofficial visit. Is Prospective Student R permitted to have athletic contact with current members of the sport team?

ANSWER:
No. It is not permissible for a recruit on an unofficial visit to have athletic contact with current member of the sport team or with anyone signed to an NJCAA Letter of Intent. If the coach wants athletic contact, this visit must be considered the recruits one and only official visit and must stay within the parameters of an official visit. If that is done, and athletic contact takes place, the visit is reclassified as an official visit and by rule is limited to one per member college.

Off Campus Recruiting

Case 1
Off Campus Recruiting Visits – Recruiting Expenses (Meals & Lodging)

SITUATION:
The baseball coach at Community College A is off campus recruiting potential student-athletes the night prior to the official signing date. The coach provides meals and lodging for potential student-athletes in their hometown in order to shield the student-athletes from other potential recruiters. Is this a violation of NJCAA bylaws?

ANSWER:
Yes. No funds may be expended, nor complimentary rooms provided during the off campus recruiting process.

Case 2
Off Campus Recruiting Visits – Recruiting Expenses (Meals)

SITUATION:
The volleyball coach at Community College A is off campus recruiting potential student-athletes for the volleyball program. May the coach purchase a meal for the potential student-athlete while off campus?

ANSWER:
No. On any off campus recruiting visit, the coach may not expend any funds other than the amount necessary for his/her own personal expenses. A recruit’s expenses may only be covered while on an official on campus recruiting visit with the college.

Case 3
Off Campus Recruiting Visits – Recruiting Expenses (Current Student-Athletes)

SITUATION:
The basketball coach from Community College A is on an off campus recruiting trip. May the coach take current student-athletes with him/her on the recruiting trip?

ANSWER:
No. It is not permissible for the college to provide any transportation to a student-athlete. This would also apply to scouting trips taken by the staff at Community College A.

Football Dead Period

Case 1
Football Recruiting Dead Period Limitations

SITUATION:
What are the limitations within the football recruiting dead period?

ANSWER:
The dead period is that frame of time where it is not permissible to make in-person recruiting contacts or evaluations on or off the member institutions campus, or to permit official or unofficial visits by prospects to the institutions campus. The provision of complimentary admissions to the prospect during such a dead period is prohibited. During the dead period, a coaching staff...
member may not serve as a speaker at, or attend a meeting or banquet at which prospects are in attendance, and may not visit the prospects’ educational institution. It remains permissible for an institutional staff member to write or telephone prospects during such a dead period.

Case 2
Football Recruiting Dead Period and the Signing Date

SITUATION:
High school Student-Athlete B has visited Community College A and desires to sign an NJCAA Letter of Intent with them. What is the earliest date that Student-Athlete B may sign an NJCAA Letter of Intent with Community College A?

ANSWER:
Student-Athlete B may sign with Community College A at 8:00 a.m. on the NJCAA football signing date. The NJCAA football dead period would prohibit Community College A from being present at this signing. Community College A may forward NJCAA Letters of Intent to student-athletes prior to and/or during the dead period. There may be no in-person contact from Monday 12:01 am (local time) prior to the First Wednesday in February until the dead period ends Friday 12:01 am (local time) following the national signing day. (Please refer to the Football section located in Article XIII – NJCAA Championships, Tournaments, Meets & Games for more on the Dead Period.)

NOTE: All times involved will be local time. For instance, the 8:00 a.m. signing time and the midnight signing time will be the local time zone within which that college falls.

Case 3
Football Recruiting Dead Period and Recruiting Visits

SITUATION:

Potential Athlete B is a high school athlete with a desire to play football at Community College A. When may Potential Athlete B take his recruiting visit to Community College A.

ANSWER:

Potential Athlete B may take the recruiting visit any time prior to the dead period and any time after the dead period for NJCAA football recruitment following their junior year of high school. Once the student-athlete signs an NJCAA Letter of Intent, he/she may not take an official recruiting trip to that college.

Tryouts & Auditions

Case 1
Tryouts & Auditions

SITUATION:
Community College A wants to hold an open tryout to see what local interest they have for building the upcoming season’s roster. They advertise that anyone interested in trying out should attend the tryout event. The member college has no idea who will attend the event. Do the rules for tryout and auditions apply to their situation?

ANSWER:
Yes, the rules for tryouts and auditions do apply fully to this situation. The key here is that it is an open tryout and Community College A has no idea of who will show up for the tryout event. Had the college invited specific recruits to the event then it is no longer an open tryout and would either be an official or unofficial recruiting visit.

Case 2
Tryouts & Auditions – Official On Campus Recruiting Visit

SITUATION:
Community College A identifies a prospective athlete at one of their two permissible on campus tryouts. Is Community College A permitted to bring the recruit back to campus on an official visit?

ANSWER:
Yes. Community College A has the ability to bring anyone that is currently recruitable back to campus for an official on campus visit following an open audition.

Article VII – Sport Policies and Guidelines

Sport Procedures

Case 1
Sport Procedures – Playing Date Limitation

SITUATION:
Wrestling is allowed 20 dates in which to compete throughout the season. Community College A is scheduled to compete in a three-day tournament. Is this tournament considered one or three dates of competition?

ANSWER:
The tournament would be considered three dates, leaving Community College A to schedule competition on 17 alternate dates.
Case 2

Sport Procedures – Participating in Different Divisions/Sports

SITUATION:
Community College A competes in Division I Cross Country, but would like to run at the Division III Track and Field Championship. Is this allowable?

ANSWER:
It is allowable but would be difficult for the school to operate both programs as the higher division athletes could not participate on the lower division sport if they had received any scholarship or benefit. A college which gives no athletic aid would be allowed to compete at the Division I level in either cross country or track and field, provided that no student-athlete on the team receives any athletic aid.

Case 3

Sport Procedures – Track and Field – Multiple Dates of Competition

SITUATION:
In the sport of track and field there are multiple day competitions. An example is a student-athlete participating in the decathlon on a Friday and then in the long jump on Saturday of the Texas Relays. How many dates does this meet count as per the number of dates allowed in the Sport Procedures?

ANSWER:
Only one date would be counted for this multiple day competition within the 20 dates allowed in the sport of track and field as per the NJCAA Sport Procedures. However, competition in multiple divisions (i.e. college vs. open) in the same meet on different dates would constitute two dates.

NOTE: This case is only dealing with track and field and not other sports with the same multiple-day situation.

Case 4

Sport Procedures – Alumni Games

SITUATION:
Community College A would like to hold an alumni game with their current student-athletes and former alumni athletes in women’s basketball. Does this game count towards the maximum number of contests allowed as per the NJCAA Sport Procedures?

ANSWER:
No. The NJCAA allows member colleges to hold one alumni game per academic year and this game will not count towards the number of regular season games nor will statistics from the alumni game be counted. The individuals competing on the alumni team must be actual alumni from the member college sponsoring the contest. It is not permissible to have alumni and non-alumni make up the opposing roster.

Case 5

Manager Scholarships

SITUATION:
Community College A signs a student to a manager scholarship for the current year and has the student serve in the capacity of team manager. NJCAA bylaws do not regulate manager scholarships. They would be an institutional issue. If the student who is receiving a managers scholarship in the current year chooses to participate as a student-athlete the following year, would there be any issues?

ANSWER:
If a student-athlete had previously been receiving a manager scholarship and later becomes a student-athlete, the NJCAA would review the numbers of student-athletes signed to NJCAA Letters of Intent during that time. If no letter of intent slot was available during that time period, the NJCAA would rule that the college was in violation by being over their allowable limits of scholarship recipients and sanctioned accordingly. Manager scholarships should only be used in cases where there is no chance of the individual participating as an athlete in the future.

Case 6

Cross Country/Track and Field Scholarship Limitations

SITUATION:
Community College A sponsors both track and field and cross country. For the 2017-2018 academic year, how many scholarship student-athletes are allowed in each sport? Will scholarship cross country student-athletes count towards the maximum number of scholarships allowed in track and field based on the “counter” rule?

ANSWER:
Community College A may have a maximum of 10 student-athletes receiving athletic aid in the sport of cross country. Community College A may have an additional 20 student-athletes (maximum) receiving athletic aid in the sport of track and field. In addition, cross country and track and field have been exempted from the “counter” rule. In other words, a scholarshipped cross country student-athlete would not count as one of the 20 allowable track and field scholarship student-athletes but can participate in track and field.

Case 7

Tennis Scholarship Counters in Other Sports

SITUATION:
Student-Athlete R at Community College A is receiving a Division I scholarship in the sport of volleyball. She also wants to participate in spring tennis. Because Student-Athlete R is receiving a Division I scholarship in volleyball, how is this scholarship counted within the number of tennis scholarships?
The Division I volleyball scholarship will be counted as one of the three Division I scholarships allowed in tennis. Letters of Intent must be submitted online in each sport for this student-athlete.

Practice

Case 1
NJCAA Sport Procedures – First Practice Date

SITUATION:
Community College A begins its volleyball season on September 9th, when can Community College A begin practicing?

ANSWER:
Community College A can begin its volleyball practice August 1st as designated in the NJCAA Sports Procedures Chart.

Case 2
High School Student-Athlete Practicing with a Member College’s Team

SITUATION:
Student-Athlete R attends high school and is a senior. Student-Athlete R does not participate in high school athletics. Can this student-athlete practice with Community College A?

ANSWER:
No. As the practice definition states in Section 6.A all participants must be enrolled/registered at the college where he/she will be practicing and have valid physicals on file. Therefore, Student-Athlete R must be enrolled at Community College A and must have a valid physical on file to practice with the team at the college.

Case 3
Requirements for Student-Athletes to Practice During the Summer

SITUATION:
Must student-athletes who want to practice with the coaching staff during the summer in the eight hour per week setting be enrolled at the college during the summer and have a current physical on file to be able to practice during the summer at the college?

ANSWER:
Yes. According to the practice definition participants must be enrolled at the college he/she is representing and have a valid physical on file. In this case the student-Athlete must be enrolled in summer classes. This practice definition covers the in season, off season, and the summer practices.

Case 4
Physical Education Classes

SITUATION:
NJCAA Member College A utilizes a physical education class to practice for the upcoming season. The class is only open to the members of the varsity basketball team, is a mandatory class for those basketball players to take, and is taught by the basketball coach. Is this a violation of the NJCAA practice definition?

ANSWER:
Yes. Enrollment in a physical education class must be voluntary in nature, open to any student at the college and not consisting of only varsity team members. Such course must be listed in the college catalog and/or schedule of courses for the term.

Case 5
Team Meetings

SITUATION:
On the first day of the fall term (August), the basketball coach holds a team meeting to discuss team rules, goals and academic strategies. Is this a violation of the NJCAA practice definition?

ANSWER:
No. This is not a violation of the practice definition. The coach may hold a team meeting to discuss team rules, goals and review academic information. However, the coach may not use the meeting to diagram plays or otherwise detail game/practice strategies.

Case 6
Reporting Before First Day of Practice

SITUATION:
The volleyball coach at Community College A requires each student-athlete to report the day prior to the allowed practice date for physical exams and equipment checkout. Is this a violation?

ANSWER:
No. This would not be a violation of the practice definition. The coach may distribute equipment, discuss team rules, etc., prior to the beginning date for practice. However, the coach may not utilize this time to view film, diagram plays, etc., prior to the date for practice.
Practice – In Season

Case 1
Off Campus Locations While In Season

SITUATION:
Community College A would like to practice off of campus in preparation for the region tournament in baseball. Is community College permitted to practice off campus while in season without special permission from the NJCAA?

ANSWER:
While in season, a college program may practice at the site of their choosing without special approval from the NJCAA National Office. This allowance exists regardless if they have their own on campus facility or not.

Case 2
Male Practice Players in a Women’s Sport

SITUATION:
The women’s basketball team at community College A would like to use male practice players in some of their practice sessions. Is this permissible and under what parameters must this take place to be within the allowances of the NJCAA?

ANSWER:
It is permissible for a women’s team to use male practice players. The male practice players must be currently enrolled at the college and have a valid physical on file. If the athletic contact takes place and the male practice players are not students and or do not have a valid physical on file, the athletic contact must be counted as a scrimmage and is subject to the limitations associated to scrimmages.

Practice – Off Season

Case 1
Activities Considered Under the Eight-Hour Rule Weekly Limitation

SITUATION:
Do any of the following off season activities fall under the eight-hour weekly limitation rule: weight lifting, study halls, running, plyometrics and or conditioning activities?

ANSWER:
Weight lifting, running, plyometrics, and conditioning activities all fall under the eight-hour off season weekly limitation rule because all of these activities are specifically related to sport participation and conditioning. Study halls would not be included within the eight-hour per week limit as long as these do not fall under “chalk talks”.

Case 2
On Campus, Off Season Practices

SITUATION:
Can the baseball coaches have individual practice sessions with players from November 15th to the end of the fall term?

ANSWER:
Yes. As long as these practices are on campus, not mandatory, the student-athletes are enrolled/registered during the fall term, have valid physicals on file and are limited to only eight-hours per week.

Case 3
Preseason Workouts

SITUATION:
Prior to the first legal date of football practice, the coach posts voluntary pre-season conditioning workouts, held at the direction of the conditioning/strength coach. Is this a violation of the NJCAA practice definition?

ANSWER:
No. If these off season practices are held on campus, are voluntary, do not exceed the eight-hour weekly limitation rule, and the student-athletes are registered at the college and have valid physicals on file.

Case 4
Summer/Off Season Practices, League Play, All-Star Games, and Camps – VIOLATIONS

SITUATION:
Relative to summer/off season practice, league play, all-star games and camps, the following activities would be considered violations of NJCAA bylaws.

1. The college may not provide or compensate student-athletes for the cost of travel to a team or individual camp off campus during the off season. This would include transportation by college vehicle or the coach’s personal vehicle.

2. The college may not provide the camp fee for a student-athlete to attend either an individual or a team camp off campus during the off season.

3. If a student-athlete voluntarily attends a summer camp off campus during the off season, the college may not provide room and board nor compensate the student-athlete for any related expenses.

4. No student-athlete may utilize college equipment for their involvement in a summer camp that is off campus during the off season. An example of this would be a uniform or practice gear.
5. If student-athletes voluntarily, and at their expense, attend a summer camp off campus during the off season, the college name may not be utilized to identify the student-athlete or the team.

The institution or the student-athletes arrange a fundraiser to pay for the summer camp activities. Remember, the NJCAA bylaws mandate all funds raised in the name of the college or while representing the college, must be channeled through the college.

Case 5
Summer Practices

SITUATION:
The football coach at Community College A works with his kickers on campus each Tuesday and Thursday throughout the summer. The kickers utilize college equipment and receive direct instruction from the coach. Is this a violation of the NJCAA practice definition?

ANSWER:
This would not be a violation because the off season began the day after the team stopped advancing towards the National Championship Bowl Game until August 1st. As long as the practices are voluntary, the students are enrolled/registered in classes at the college during the summer, have valid physicals on file, and the practices are no more than eight-hours per week, there is no violation.

Case 6
Summer Practices, the Off Season and Incoming Freshmen

SITUATION:
Student-Athlete R a recent high school graduate, has signed an NJCAA Letter of Intent in the sport of basketball with Community College A. What are the requirements Student-Athlete R must meet in order to participate in summer practices that are on campus for eight-hours per week?

ANSWER:
Only if Student-Athlete R has officially registered/enrolled for the summer term and has a valid physical on file, he/she may participate with the team during the off season (the summer) on campus for eight hours per week in voluntary practices.

Case 7
Mandatory Practices During Summer

SITUATION:
Three members of a community college volleyball team also compete on a locally sponsored USVBA team during the summer. The community college volleyball coach also coaches the USVBA team off campus. There is a mandatory practice for the USVBA team twice a week throughout the summer. Is this a violation of the NJCAA practice definition?

ANSWER:
Yes. This would be a violation because the practices are mandatory. From the NJCAA member college standpoint, the practices and/or participation cannot be mandatory. If the participation were on a voluntary basis, on campus, and only eight-hours a week during the summer (off season) then the coach can hold practices. If the practices were off campus then a violation would have occurred with the coaches and players together off campus conducting athletic activities.

Case 8
Viewing Film

SITUATION:
Prior to the first legal date of wrestling practice, the wrestling coach calls a mandatory meeting to view film. Is this a violation of the NJCAA practice definition?

ANSWER:
Yes. This would be a violation of the practice definition because the meeting was mandatory and the viewing of game film was directly related to athletic preparation.

Case 9
Workouts Off Campus in the Off Season

SITUATION:
In basketball, can an entire team attend an aquatic workout either with or without the coach present during September?

ANSWER:
The bylaws allow for off season contact with student-athletes for a maximum of eight-hours per week on campus. Therefore if the aquatic workout is held on campus, it would be allowable and the coach could be present within the eight-hour parameter.

If the aquatic workout is not held on campus then the college could not expend funds specifically to allow the basketball team access to the aquatic center and the coaches could not be present if this is occurring in the off season prior to the start of the season.

Case 10
Registered for Summer Term and Participating in Off Season Activities

SITUATION:
The practice definition mandates student-athletes to be registered in that term for off season activities. If a student-athlete is taking one course in the first summer session, can he/she continue to participate under the off season definition following the end of the first summer session?
ANSWER:
Yes, as long as the student-athlete was registered in that term at the host college and have a valid physical on file at the college. The summer session/term is defined by the college catalog.

Case 11
Practicing in the Off Season Prior to the Start of the Summer Term

SITUATION:
Community College A’s spring term ends on May 1 and the summer term does not start until June 1. Are student-athletes allowed to practice during the time between the end of the spring term and the beginning of the summer term which is considered as the off season?

ANSWER:
The student-athletes in this case must be enrolled/registered for the summer term in order to practice at this time since for that time of the year, spring classes have ended and the summer term has not begun. There is not a limit to the number of credit hours these student-athletes must be enrolled in for the summer term. In addition to being enrolled for the summer term, participation must be on campus and voluntary. Athletic activity contact may not exceed a maximum of eight hours per week with anyone on the coaching staff and all participants must have a valid physical on file at the college. Those participants who have been practicing during this time and have not yet enrolled/registered for the summer term must immediately cease practice and all other athletic activities.

Case 12
Off Season Activity Limitations – College Paying for Greens Fees during the Off Season

SITUATION:
Community College A wants to hold practices for their golf team during the off season can Community College A pay for the greens fees for their golfers at golf courses on or off campus during the off season?

ANSWER:
No. As per NJCAA bylaws, Community College A may not use college funds (including paying for greens fees) or equipment for any current or prospective student-athlete off campus during the off season. Even if the college receives approval from the National Office granting a golf course as their “home facility”, the college may not expend any funds, including paying for greens fees, for any student-athlete during the off season.

Other conditions involving greens fees:
- The college may pay for greens fees for current student-athletes ONLY during the in season if there is a contract in place between the college and the golf course.
- The college may not pay for greens fees at any time for prospective student-athletes (recruits) who are on official or unofficial recruiting visits at the college.
- The coaches may not pay for greens fees at any time for prospective student-athletes (recruits) if the coaches are off campus recruiting athletes.

Case 13
Summer Camps

SITUATION:
The head basketball coach at Community College A is working at an off campus summer camp as a coach. Student-athletes from this coach’s team attend and participate at the summer camp. Is this a violation of the NJCAA off season practice definition?

ANSWER:
Yes. This is a violation because no member of the college coaching staff may have off campus athletic contact with any current student-athlete or one who has signed a valid NJCAA Letter of Intent.

Case 14
Student-Athlete Participating in a Summer Camp Demonstrating Skills

SITUATION:
Student-Athlete R has been hired by Community College A as a camp counselor for the basketball camp run by the basketball coach. Can Student-Athlete R work demonstrating skills as part of their job as a camp counselor?

ANSWER:
Yes. As long as the camp is held on campus. The student-Athlete must have gone through the same application process as all other candidates and must be compensated the going rate as all other counselors with similar responsibilities.

If the camp is off campus, then the Student-Athlete R could not participate as this would be considered as off campus athletic contact with a current student-athlete.

Case 15
Summer Athletic Contact Between Coaches and Athletes/Signees

SITUATION:
Eight members of Community College B’s softball team compete in a local softball tournament during July. The team is sponsored by a local merchant and is coached by the head coach at Community College B. Is this a violation of the NJCAA practice definition?

ANSWER:
Yes. The head coach may not have athletic contact with his/her current players or ones who have signed NJCAA Letters of Intent off campus during the off season in this capacity.
Case 16
Summer Athletic Contact – Sport Differentiation

SITUATION:
The head softball coach at Community College A coaches a summer slow-pitch softball team off campus that has student-athletes from Community College A’s softball team. Is this a violation of the off season activity limitations rule?

ANSWER:
Yes. The coach from Community College A cannot coach her own student-athletes or NJCAA Letter of Intent signees from the college during the summer (off season) if the athletic activities are occurring off campus. This rule applies even though this is a slow-pitch softball team and the coach and athletes/signees are participating on the college’s softball team.

Case 17
Off Season/ Off Campus Activities

SITUATION:
Community College A leases a hitting facility that can be used after November 15th by members of its baseball team. The coaching staff would like to attend the eight-hour per week practices at that facility during the off season. Are there violations with this scenario?

ANSWER:
Yes. There are several violations. For one, Community College A cannot pay for off campus facilities to be used during the off season. Secondly, November 15th is the last day of the fall baseball season which means that any point after November 15th is the off season for baseball and a coach or member of the coaching staff cannot be present during off season, off campus athletic activities. Lastly, the eight-hour per week rule is limited to on campus activities only.

Case 18
Volunteer Coaches and Off Campus Athletic Contact

SITUATION:
Can a volunteer coach that is not contracted or paid by the college coach a team off campus during the summer (off season)?

ANSWER:
No. NJCAA bylaws state that no member of the college coaching staff may have off campus athletic contact with any current student-athlete or one who has signed an NJCAA Letter of Intent. Volunteer coaches are considered as part of the coaching staff and must adhere to all off season limitations the same as any paid or full-time member of the coaching staff.

Case 19
Coaching Staff and Off Season/Off Campus Athletic Contact

SITUATION:
Can a part-time/volunteer coach, who is not employed by the college during the off season, have off campus athletic contact with current student-athletes?

ANSWER:
No. No member of the college coaching staff, during that academic year, may have off campus athletic contact with any current student-athlete or one who has signed a valid NJCAA Letter of Intent. Full-time, part-time, and volunteer staff, regardless of contractual status with the college, is considered part of the “coaching staff” and may not conduct practices or conditioning off campus during the off season with these student-athletes.

Case 20
Student-Athlete and Coach Employed at Same Facility – Practice Limitations

SITUATION:
Can a student-athlete be employed during the summer by the same organization as his/her coach from the community college? Example: golf student-athlete employed at the golf course where his/her coach is working or a baseball student-athlete employed at the stadium/parks and recreations/team where his coach is working.

ANSWER:
Yes. A student-athlete may be employed by the same organization as his/her coach. However, the contact between the two individuals must be work related contact and not a coach-athlete related contact for the purposes of coaching, instructing, or practicing. The golf example: the golf student-athlete and his/her coach cannot play golf together because they work at the same golf course.

Case 21
End of Coaching Contract and Off Season/Off Campus Athletic Contact

SITUATION:
The head baseball coach at Community College A is a part-time employee and his contract with the college expires at the end of the baseball season. Can the head coach have off season, off campus athletic activity with current student-athletes or those who have signed an NJCAA Letter of Intent after the end of his contract with Community College A?

ANSWER:
No. From the time the contract is signed by a coach through the end of that academic year, a member of the college’s coaching staff (including but not limited to part-time, full-time, head and/or assistant, volunteer, graduate assistant and student coaches) must abide by the practice rules set forth in NJCAA bylaws. In this case, the head baseball coach cannot have athletic contact with a current student-athlete or one who has signed an NJCAA Letter of Intent off campus during the off season regardless of his part-time employment status at the college.
**Case 22**

**Practice Definition – Off Season/Off Campus Athletic Contact before Start of Coaching Contract**

**SITUATION:**
A coach is hired at a two-year college in June. His/her contract with the college does not begin until October 1st. From his/her date of hire until October 1st is the coach allowed to have off season, off campus athletic contact with the current student-athletes or those that have signed a Letter of Intent for the upcoming year?

**ANSWER:**
No. For the purposes of NJCAA bylaws, he/she became a member of the college coaching staff on the day of hire or initial agreement was struck. No member of the college coaching staff may have off season, off campus athletic contact with any current student-athlete, or one who has signed a valid NJCAA Letter of Intent.

**Case 23**

**Off Campus – Coach Observing**

**SITUATION:**
During the summer (off season) Student-Athlete R is a member of a recreational baseball league in the community where Community College A is located. Student-Athlete R is a student-athlete who is returning the following season to play his second season of baseball at Community College A. May Student-Athlete R’s coach from Community College A watch him participate off campus during the off season in this recreational league?

**ANSWER:**
Yes. Student-Athlete R’s coach from the college may watch him play during the off season off campus as long as the coach does not coach him before, during, or after the game. He may not practice with or conduct practices with the student-athlete at any time off campus, or participate with the student-athlete during those games conducted off campus during the off season.

**Case 24**

**Off Campus – Coach Participating with Student-Athlete**

**SITUATION:**
Student-Athlete R and the volleyball coach from Community College A are both on the same volleyball club team during the off season located off campus. May this current student-athlete and Community College A’s volleyball coach participate together on the same team as per this rule?

**ANSWER:**
No. According to this rule, the student-athlete and the coach may not participate together off campus during the off season in the sport in which he/she is being recruited. If this participation together off campus during the off season occurs, a violation of this rule has been made.

**Case 25**

**Off Campus – Coaching Against a Student-Athlete**

**SITUATION:**
Community College A’s men’s basketball coach also coaches an AAU team during the summer. He has signed incoming freshman, Student-Athlete R, to an NJCAA Letter of Intent for the 2017-2018 academic year in the sport of basketball. Student-Athlete R participates in this same AAU league during the summer, but he is not a member of the team coached by Community College A’s men’s basketball coach. Can the AAU team that Student-Athlete R belongs to participate against this coach’s AAU team during the off season off campus?

**ANSWER:**
Yes. The coach may coach against the team of a current student-athlete or one who has signed an NJCAA Letter of Intent. The coach may not partake in advising, coaching, or conducting a practice with that student-athlete at any time prior to, during or after the competition.

**Case 26**

**Off Campus – Participating Against a Student-Athlete**

**SITUATION:**
A golf course in the community holds a tournament and the golf coach at Community College A and one of his student-athletes have both entered to participate in this tournament. May this college coach and his/her student-athlete participate against one another in the off season?

**ANSWER:**
Yes. NJCAA bylaws allow a coach to participate against a current student-athlete or one who has signed An NJCAA Letter of Intent in the off season, off campus. However, in this case the coach may not participate with the student-athlete during the tournament.

**Case 27**

**Off Campus Facilities**

**SITUATION:**
Community College A does not have baseball, golf, or volleyball facilities on their campus however there are facilities in the community that the college may use and designate as their home facilities. As per NJCAA bylaws must the information and contract between the college and the off campus facility be sent to the NJCAA National Office for approval of each facility?

**ANSWER:**
Yes. The contract between the college and the facility must be sent to the NJCAA National Office for approval prior to the start of off season practice. Until approval is made by the National Office, those teams may not use these facilities during the off season.
Case 28
Gaining Approval from the NJCAA National Office for Use of Off Campus Facilities

If your college does not have a facility for a sport(s) AND the college desires for its teams to be able to use this facility only during the off season and not be in violation of the off season off campus athletic contact bylaws, the college will need to send the contract and proof of payment between the college and the facility.

During the in season, the college does not need this approval from the NJCAA National Office as it may use facilities off campus during the in season and not be in violation.

**Contracts & Agreements:**
If a “contract” does not exist between the college and the facility, a written “agreement” must be signed by both parties included in the information the college sends to the NJCAA National Office. Additionally, if there are no rental fees or payments required for the college to pay the facility, essentially there is no “proof of payment”, however this “agreement” will also need to be included in the written contract/agreement between the college and the off campus facility.

**Rulings:**
If the college has sent this information to the NJCAA National Office and is awaiting an approval, those student-athletes/Letter of Intent signees may not have athletic contact with any member of the college coaching staff off campus during the off season until approval is granted.

Case 29
Multiple Off Campus Facilities in the Same Sport

**SITUATION:**
Community College A has a women’s golf team, however the college does not have a golf course on campus. There are three golf courses in the community that the golf team would like to utilize for off season, off campus practices. May Community College A designate all three courses as their home facilities?

**ANSWER:**
Yes. If Community College A sends to the NJCAA National Office each contract between the college and each of the three golf courses the NJCAA National Office will review the requests accordingly.

**Open Gym**

Case 1
Open Gym Setting

**SITUATION:**
Community College A holds an open gym setting for any student on Monday-Friday from 6:00 p.m. to 10:00 p.m. If the basketball coach is the paid supervisor of this program, and current basketball players make use of the open gym, is this a violation of the practice definition?

**ANSWER:**
No. This would not be a violation because the coach is a paid supervisor of the open gym setting. However, the coach may not be involved in direction or actively coaching during this open gym setting otherwise, this will count as practice time towards the eight-hours permitted per week during the off season.

**Scrimmages**

Case 1
Outside Competition

Any athletic contact either by a team or an individual representing an NJCAA member college must either be categorized as an official contest or a scrimmage. It is impossible to have athletic contact with another team or individual who is not enrolled at your institution without it being either an official contest or a scrimmage.

Case 2
Scrimmage Dates are Required to be Posted on the Official Schedule

**SITUATION:**
Is it mandatory to post scrimmages to the regular schedule?

**ANSWER:**
Yes. All scrimmages must be included and designated as such on the official schedule as published by the intercollegiate department. The official schedule is interpreted as the college’s website as well as the NJCAA website for the member college.

Case 3
First Scrimmage Date

**SITUATION:**
When can the first scrimmage occur for a sport?

**ANSWER:**
As per the NJCAA Sport Procedures, the first scrimmage may occur as per the “start date” listed in the NJCAA Sport Procedures for that sport.
Case 4
Classifying Scrimmages

**SITUATION:**
There is an early season “competition” between the soccer programs at Community College A and Community College B. Can Community College A call the competition a scrimmage and Community College B call the same competition a regular season game?

**ANSWER:**
No. Both colleges must classify the competition in the same manner – scrimmage or regular season competition. This should be agreed to by both colleges prior to the start of the competition.

Case 5
Ineligible Student-Athlete Participating in Scrimmages

**SITUATION:**
Student-Athlete R, currently enrolled in 12-credit hours as a freshman at Community College A, has not graduated from high school nor has he passed his GED. Would the student-athlete be eligible to compete in a basketball scrimmage scheduled in the last week of October?

**ANSWER:**
Yes. Student-Athlete R may compete in the scrimmage, however he/she will not be eligible for regular season play until official documentation of the passing of the GED. Also, the student-athlete must have a valid physical on file in order to participate in a scrimmage.

**NOTE:** The NCAA could deem participation in a scrimmage as a year of eligibility.

Case 6
Scrimmages – Participation Requirements

**SITUATION:**
Student-athletes are required to have physicals on file and must be enrolled at the college in order to practice at the college. Are these the same requirements necessary for student-athletes to participate in scrimmages?

**ANSWER:**
Yes. Student-Athletes must be enrolled at the college and must have valid physicals on file in order to practice, compete and scrimmage with a member NJCAA college.

Case 7
Scrimmages Against Non-Member Colleges/Teams

**SITUATION:**
Community College A begins basketball practice on October 1. A local NAIA college team would like to join Community College A once a week for a combined practice. Would this activity constitute a scrimmage date for Community College A?

**ANSWER:**
Yes. Participation versus any outside and or organized program would qualify as a scrimmage date even if the participation is strictly practice oriented.

**NOTE:** The number of scrimmages for some sports is limited. Refer to the NJCAA Sport Procedures for the allowed number of scrimmages per sport.

Case 8
Scrimmages and Media Coverage

**SITUATION:**
Community College A conducts fall baseball practice. Included in their practice schedule are some scrimmages with four-year institutions. If the four-year institution newspaper prints an article about the scrimmage, is Community College A in violation of the scrimmage rule?

**ANSWER:**
No. The bylaw that prohibited media coverage of scrimmages has been eliminated.

Case 9
Varsity Game Uniforms in Scrimmages

**SITUATION:**
May current varsity game uniforms be used in scrimmage contest?

**ANSWER:**
Yes. Member colleges may use official game uniforms in scrimmages if they so choose.

Case 10
Pre-Season Scrimmages

**SITUATION:**
Community College A attends a pre-season basketball scrimmage attended by many NJCAA basketball programs. Student-Athlete R participates in the scrimmage under the scrimmage definition of the NJCAA, then Student-Athlete R does not participate in any regular season games for Community College A. Did Student-Athlete R utilize a season of NJCAA eligibility?

**ANSWER:**
No. The bylaws of the NJCAA only charge a season of participation for participation in a regular season contest or postseason play. However, it should be noted that both the NCAA and the NAIA may charge a season of participation for any competition against an outside opponent. This includes exhibition, scrimmage or regular contest. Therefore, Student-Athlete R may be jeopardizing a season of eligibility at the four-year level by taking part in the pre-season scrimmage.
Case 11
Spring Volleyball Scrimmages – Participation of High School Athletes

The NJCAA has received numerous calls regarding high school athletes participating with NJCAA colleges during the spring volleyball season. Based upon those questions, the following rulings were developed using current NJCAA guidelines:

1. Anytime the participation of a high school athlete is concerned, the respective state high school activities association should be contacted and presented with the situation. Participation with a NJCAA college could jeopardize a players remaining high school eligibility in volleyball and/or in another sport at the high school level.

2. Anyone can participate in an open gym as governed by the individual institution. All expenses, however, must be incurred by the participants. The college cannot pay for or reimburse a high school athlete for any expenses.

3. To be eligible to participate in practice sessions and scrimmages, the student must be currently enrolled at the member college and have a valid physical on file at the member college.

4. Participation must be conducted within the guidelines of a scrimmage. (Please refer to items #2 and #3 above.)

5. A high school athlete representing a NJCAA member college will be considered to have used a year of eligibility at the NCAA level, whether charged with a year of eligibility by the NJCAA or not. As an example, wearing a t-shirt with the NJCAA colleges name is considered representing that school. Please be extremely cautious when inviting a high school athlete to participate with your program in the spring season.

Case 12
Scrimmaging Prior to or During Postseason Play

SITUATION:

Junior Varsity

Case 1
Community College Junior Varsity Program

SITUATION:
Community College A offers a junior varsity program in baseball, offering a schedule against other colleges’ junior varsity teams and/or varsity teams. If the student-athletes participate in the junior varsity program do they use NJCAA eligibility?

ANSWER:
Yes. Community College A must file eligibility for all student-athletes involved and must furnish a schedule for the junior varsity program. No student-athlete may participate in more than the maximum number of contests allowed in that sport as defined by the NJCAA Sports Procedures. Each student-athlete involved in the junior varsity program should be informed that NJCAA eligibility is being utilized.

Case 2
A “How To” for Junior Varsity Eligibility

SITUATION:
If a member college has a varsity and a junior varsity team in the same sport, how is the college to submit eligibility?

ANSWER:
*The college is to keep records of those who are on each team and when they participate; varsity and JV. Student-athletes may not participate in more than the number of games scrimmages allowed as listed in the NJCAA Sport Procedures. Baseball example: student-athletes are only allowed to play in 56 games in the spring season therefore if a student-athlete who participates on the JV team in 30 games and is moved up to the varsity team may only participate at the varsity level for a maximum of 26 games for a maximum of 56 games for the entire regular season.
* Stats accumulated in JV games are not to be submitted as national stats. Only stats earned at the varsity level are to be entered into the online stats program.
*Eligibility must be submitted for all students participating on either the JV or varsity team.
*Participation on either the JV or the varsity program constitutes a season of eligibility being used regardless of the number of games which they participated.
*In the case of an eligibility audit, all information for all student athletes in the program must be submitted regardless if they are on the JV or varsity program.

Club Team

Can a member college sponsor a club team and an intercollegiate varsity or JV team in the same sport?

ANSWER:
No. A college must either compete on a club basis or on an intercollegiate varsity level in any one sport. A college competing on a varsity level may also field a JV team, all members must meet the NJCAA Rules of Eligibility and have their eligibility submitted online prior to competition. Each student-athlete must conform to the regulation regarding the number of contests per sport.

Case 6
Varsity and Club Teams in the Same Sport

SITUATION:
Can a member college sponsor a basketball club team administered by the student-activities office and an intercollegiate basketball team administered by the Athletic Department?

ANSWER:
No. A member college may not sponsor a club team and a varsity team in the same sport even if the teams are administered by different areas of the college. The member college is the member and must adhere to all NJCAA rules not just the college’s athletic department.

Case 7
Fall Club Declaration in a Spring Sport

SITUATION:
Community College A conducts their regular baseball season during the spring term. They also conduct a season during the fall term and schedule a few games. Is it possible for Community College A to declare their fall program as a club and also have a regular intercollegiate program during the spring, all of which takes place during the same academic year?

ANSWER:
No. Once a college designates a sport as being club, they cannot revert to a varsity intercollegiate program during the same academic year.

Case 8
Club Participation and Transferring

SITUATION:
Community College A has a varsity sport that shifts to club status after 2 games. If student-athletes transfer from Community College A to Community College B, will Student-Athlete R lose a year of eligibility?

ANSWER:
Yes. NJCAA bylaws state that participation in a fraction of any regularly schedule contest during the academic year constitutes one (1) season of participation in that sport. The NJCAA charges a season of eligibility for participation on a collegiate club team.

Case 9
Eligibility Charged for Club Participation

SITUATION:
Student-Athlete R participates in basketball at Community College A for one season on a club level basis. Community College A plans to participate on a varsity level the following year. What requirements must Student-Athlete R meet to be eligible the following season?
ANSWER:
Student-Athlete R has used one season of eligibility for his/her participation on the club team the previous season. Therefore Student-Athlete R must meet the academic progress requirements as well as requirements for second season of participation.

NOTE: Participation on a “club team” at the four-year and/or two-year non-member college level will constitute a season of NJCAA eligibility in that sport.

Case 10
Participation on a Club Team at a Four-Year Institution

SITUATION:
Student-Athlete R participates in lacrosse at Four-Year Institution X during the previous academic year. Does his/her participation on this team constitute as using a season of eligibility even though the club lacrosse team is not affiliated with the athletic department at the university and that the team’s coach is not employed by the athletic department?

ANSWER:
Yes. As the bylaw states, any participation on a collegiate club team in any one of the certified sports of the NJCAA is counted as using a season of eligibility. Therefore Student-Athlete R would be an incoming second season athlete at the NJCAA member college he/she is transferring to.

Case 11
Participation on Club Teams before Becoming a Member of the NJCAA

SITUATION:
Student-Athlete R participated on a club team for Community College A during the last two (2) basketball seasons. Community College A was not a member of the NJCAA during that time and therefore was not required to file the Club Declaration Form in the NJCAA. Community College A is now a member of the NJCAA and is planning to sponsor a varsity basketball team. How many seasons of eligibility does Student-Athlete R have remaining within the NJCAA in the sport of basketball?

ANSWER:
None. Student-Athlete R would not be eligible for varsity participation within the NJCAA because of the two previous seasons of participation on Community College A’s club team. Even if the college was not a member of the NJCAA and/or the Club Declaration Form was not filed with the NJCAA National Office, Student-Athlete R will still be charged with a season of eligibility for each season of participation on a college sponsored club team.

Case 12
College “Club” Team Participation

SITUATION:
Student-Athlete R attended University X for two semesters and participated on the “club” soccer team during the fall semester. The club soccer team at University X regularly competes against other university club teams in the area but never against a varsity team. Student-Athlete R transfers to Community College A and wants to play soccer. How many seasons of NJCAA eligibility does he have remaining?

ANSWER:
Student-Athlete R has one (1) season of NJCAA eligibility remaining in the sport of soccer. Participation in intercollegiate sports regardless of the level (varsity, JV, club) will utilize a season of NJCAA eligibility.

Article IX - Constitution and Bylaw Changes

Case 1
Deadlines for Eligibility Rule Changes for Handbook

SITUATION:
Community College A is interested in proposing their own eligibility rule change. Is a member college able to make this proposal? When are eligibility bylaw proposals voted on by the membership?

ANSWER:
Member colleges may not propose their own bylaw proposals, however if a college has a proposal, they must receive approval of their region before submission. Only the NJCAA National Office, the NJCAA Executive and Eligibility Committee members, duly elected NJCAA Presidential Representatives, NJCAA Regional Directors and NJCAA Sport Committees may submit proposals. All proposals are due to the National Office no later than December 1st of that academic year. Once proposals are approved by the Executive and Eligibility Committees they go to the membership for voting in that year at the Annual Meeting.
Article XII - National Tournament Qualification

Case 1
Determination of .500 Record

SITUATION:
Community College A plays 18 soccer games. Ten (10) days prior to the district tournament their overall record is 8-8-2 which is not a .500 winning percentage as required by the bylaw. Is Community College A eligible for district play with an 8-8-2 record?

ANSWER:
Yes. To determine the .500 record, the ties are eliminated which leaves the school with an 8-8 record which is a .500 winning percentage as required by the bylaw.

Case 2
Section 2 – Fall Qualifying for Spring Nationals

SITUATION:
Community College A’s regular season in golf is in the fall. At Community College A’s regional tournament, teams compete to qualify for Nationals which is in the spring. This region does not play during the spring term. What are the eligibility requirements of those student-athletes who have qualified in the fall for spring nationals?

ANSWER:
According to this bylaw student-athletes may participate in the spring nationals provided that the student-athletes are enrolled full-time at the college where they have qualified during the term when spring nationals are held. The spring class schedules for each of these student-athletes must be submitted to the NJCAA National Office prior to competition in nationals.

Case 3
Participation Prior to Postseason Competition

SITUATION:
Community College A qualifies for national tournament play in softball. Can Community College A continue to compete following the district play in preparation for the national tournament?

ANSWER:
If Community College A has not utilized their 30 playing dates (scrimmages and game dates combined) during the regular season, they may continue to compete against outside competition in scrimmages only. It is not permissible to schedule a regular season contest once postseason has begun. Once a team is no longer able to advance to the national championship, all competition against outside teams or individuals must stop even if they have playing dates available as per the NJCAA Sports Procedures.

Article XVIII - Sportsmanship

Ejections

Case 1
Violent Ejection – Soccer

SITUATION:
Student-Athlete R is red carded from a soccer match and the action is considered to be violent by the referee in charge of the game. How many games must the student-athlete sit out for this ejection?

ANSWER:
The NJCAA ejection policy would require the student-athlete to sit out the next two scheduled games. In this instance, the NJCAA Ejection Policy is more stringent than the NCAA soccer rules. If the student-athlete was ejected for fighting, the NCAA soccer rules would mandate a two-game suspension and would be consistent with the NJCAA Ejection Policy. In all instances of ejection, the stricter of the sport game playing rules, conference rules or the NJCAA Ejection Policy must be adhered to.

NOTE: The NJCAA Game-Ejection Form must be filed with the region in accordance with the Ejection Policy.

Case 2
Baseball Ejections – NJCAA and NCAA Penalties

Please be advised that you must apply the more stringent rule in every specific instance.
Case 3
Coach Ejected from Game

SITUATION:
The basketball coach at Community College A is ejected from a game after receiving two technical fouls on Thursday, during a three-day tournament. May the coach be involved coaching his/her team on Friday? If the coach enters the building and/or coaches the team on Friday, what are the implications?

ANSWER:
Article XVIII of the NJCAA bylaws states the NJCAA Sportsmanship and Ejection Policy. This policy would mandate that the coach be suspended for the next scheduled game in which Community College A participates. In the precise situation presented above, this coach would not be allowed to coach on Friday. Article XVIII indicates that the suspended coach/player/staff member shall not be allowed in the facility/gym/field complex before or during the contest and may not coach or participate before the game, during the play, or at halftime. Suspended individual must remain out of sight and sound of and from the venue while serving a suspension.

If the coach does not adhere to the suspension penalty, he/she will be required to sit out the next two games (penalty doubles) and the team must forfeit any victory obtained while the college was not in compliance.

Non-Compliance

Case 1
Ejection Policy Violation – Player does not Serve the Penalty for a Non-Violent Ejection

SITUATION:
Student-Athlete R is a baseball player and is ejected for a non-violent offense from the first game of a double-header. He plays in the second game of the double-header on that same day. Has the Ejection Policy been violated and if so, what are the penalties?

ANSWER:
Yes. There has been a violation of the Ejection Policy. When a student-athlete or coach is ejected from a game for a non-violent offense, a one-game suspension is to be served during the next regularly scheduled game including regular and postseason games. Because Student-Athlete R did not “sit out” the second game of the double-header, that game and all games that Student-Athlete R participates in until he serves his suspension must be forfeited. In addition, because Student-Athlete R did not sit out the next regularly scheduled game, the suspension doubles and the coach must serve the doubled portion of the violation as set forth in the Ejection Policy.

NOTE: An ejected student-athlete remains ineligible until the suspension is fully served. All games played by the student-athlete while ineligible must be forfeited.

Case 2
Article XVIII Section 1.A.2.g.1 and Section B.2.d.1
Ejection Policy Violation – College does not Report an Ejection to the Region

SITUATION:
There is a non-violent ejection of a student-athlete during a game that is being played on a Friday. The student-athlete served a one-game suspension for the following game which was game one of a double-header that is being played the next day, Saturday. The student-athlete then participates in the second game of the same double-header. The ejection is reported to the Region on the following Tuesday. Has the Ejection Policy been violated and if so, what are the penalties?

ANSWER:
Yes, there has been a violation of the Ejection Policy. Ejections must be reported to the Region by noon on the following business day. In this case, the ejection should have been reported by the college to the Region by noon on the following Monday. Because the ejection was not reported to the Region by noon on the next business day, the penalties double resulting in an additional game suspension (2 games in total) and the second game on Saturday’s double-header must be forfeited for failure to report. For the first occurrence, the penalties will double, with the head coach serving the doubled portion of the penalty and a letter of reprimand shall be sent to the Director of Athletics and the President of the institution.

Case 3
Traveling While Serving Suspension Penalty

SITUATION:
The day before Community College A is to depart for a two-day road trip, Student-Athlete R (a baseball player) is ejected from the second game of a double-header for a non-violent ejection. May Student-Athlete R travel with the team on the first day of the scheduled two-day road trip and participate in Game 2 of the next day’s double-header?

ANSWER:
Yes. In the case of a multiple day, multiple game road trip, Student-Athlete R would be allowed to travel with the team but would not be allowed to dress or be in the playing venue for Game 1 of the first day’s double-header. Community College A must arrange for the supervision of Student-Athlete R during the game in which he is serving his suspension for the previous day’s ejection.

Case 4
Sportsmanship – Wrestling

SITUATION:
Student-Athlete R is participating in the sport of wrestling and is ejected from a match due to a violent act. How long will Student-Athlete R be unable to participate based on the ejection?
ANSWER:

Based on the NCAA Rules of Wrestling, Student-Athlete R would be ejected for the remainder of the event/tournament. In addition, based on Article XVIII of the NJCAA bylaws, Student-Athlete R would also be suspended for the next two scheduled events/tournament. If a college is unable to identify the contests which must be sat out, the NJCAA National Office will view the sport schedule and issue a ruling.

Case 5
Sportsmanship – Individual Sports and the Ejection Policy

SITUATION:
How does the NJCAA Ejection Policy affect individual sports such as cross country, golf, half marathon, track and field, swimming and diving, and tennis?
ANSWER:
If a student-athlete in the sport of cross country, golf, half marathon, track and field, swimming and diving or tennis is ejected for a non-violent action he/she would sit out the remainder of that day’s competition and the next scheduled day of competition for that particular individual.
NOTE: If the individual sport playing rules provide for stricter sanctions, the stricter sanctions would apply.

Case 6
Ejection Policy – Inclement Weather

SITUATION:
Student-Athlete R is ejected from a baseball game on March 1st. On the original published schedule for Community College A, the next scheduled game is to be played on March 5th. However, due to inclement weather a makeup game was scheduled on March 2nd to be played on March 3rd. When must Student-Athlete R sit out his one game suspension?
ANSWER:
Student-Athlete R must sit out the next regular season game as listed on the official schedule at the time of the ejection: the March 5th game. Because the March 3rd game was not on the official schedule at the time of the ejection, the student-athlete may not serve his suspension during this game.

Case 7
Ejection Policy – Incomplete Game

SITUATION:
Community College A is playing a softball game on March 15th. On the regular season schedule for Community College A, the next 2 games are scheduled for March 16th and March 17th. During the 3rd inning of the game played on the 15th, the head coach is ejected and leaves the playing area. In the 4th inning, the officials halt the game due to rain. A complete game is not recorded. What is the status of the head coach for those games scheduled for March 16th and March 17th?
ANSWER:
Because an official game was not recorded as per the rules of that sport, the head coach must sit out the next game on the schedule on March 16th. If the rainout game that occurred on March 15th is continued or replayed at another time, the head coach must serve his/her suspension during that game.

Case 8
Ejections – Entering the Spectator Area

SITUATION:
During a soccer game at Community College A, the ball is kicked out-of-bounds into the bleachers. Student-Athlete R, a participant in the game for Community College A, runs into the bleachers to retrieve the ball. Is Student-Athlete R in violation of the Ejection Policy for entering the spectator area (Article XVIII)?
ANSWER:
No. However, if Student-Athlete R entered the spectator area or bleachers to engage in any type of verbal or physical conflict then the student-athlete would be immediately ejected from the contest and suspended from all intercollegiate athletic contests at Community College A for the remainder of the academic year including postseason competitions and/or playoffs.
Note: This rule applies to any player, coach, or bench personnel that leaves the playing area and enters the spectator area of the facility.

Case 9
Section 1.A.1.b – Bench Personnel

SITUATION:
Two opposing players in a basketball game get tangled up when going for a loose ball. Emotions get the best of both players and they both jump up quickly to physically challenge the other. Uniformed members of the team that are currently sitting on the bench rush onto the court when the two players physically challenge each other. What is the appropriate penalty with this situation?
ANSWER:
Even though there were no punches thrown, no fight and neither of the two players that became entangled were ejected; anyone other than the Head Coach who left the bench area should be ejected from the game for violent behavior. Article XVIII requires any bench personnel other than the Head Coach or the person serving as the Head Coach in the absence of the Head Coach who leaves the bench when a fight may break out or has broken out to be ejected for violent behavior. It is the assistant coaches and other bench personnel’s responsibility to ensure that other team members do not enter the playing area.
In this case, multiple individuals are ejected from the contest. Due to the multiple ejections this incident must be reported to the NJCAA National office by noon the next business day.
Case 10
Wrongfully Ejected from a Game – Video Evidence

SITUATION:
Student-Athlete R, a softball player from Community College A, was ejected for a violent behavior from a game against Community College B when it should have been Student-Athlete Q from Community College B, according to the coach at Community College A. Community College A has already sent in video evidence to the NJCAA National Office for review of this wrongful ejection. What happens to Student-Athlete R from Community College A and her two-game suspension while the National Office is reviewing the evidence? What happens if it is determined by the National Office that Student-Athlete Q from Community College B should have been the student-athlete ejected instead?

ANSWER:
Student-Athlete R from Community College A must serve her two-game suspension while the National Office is reviewing the video evidence. If Student-Athlete R serves her two-game suspension and then the National Office rules that she was wrongfully ejected, there is no further action taken.

If it is determined that Student-Athlete Q from Community College B should have been ejected, then she must serve a two-game suspension starting with the next game on the schedule after the ruling made by the National Office.

Case 11
Reporting an Ejection

SITUATION:
During a volleyball game at Community College A Student-Athlete R from Community College B receives a non-violent ejection and is ejected from the game. Which institution is responsible for reporting the ejection?

ANSWER:
The director of athletics at each institution involved shall complete the game ejection form and notify their respective region director of the ejection(s) issued; by noon local time of the first business day following the ejection.

Case 12
Non-Collegial Incident

SITUATION:
Following the conclusion of a basketball game, while going through the handshake line, two opposing players get into a verbal and physical altercation. There are no ejections since the game has concluded and the referees have left the court area. What is the required procedure for dealing with this incident?

ANSWER:
NJCAA bylaws require that all non-collegial incidents be reported to the NJCAA National Office by noon the next business day. While there were no ejections, the NJCAA National Office has the ability and authority to review the case and apply appropriate penalties/suspensions to those individuals who have failed to uphold the expected standards of conduct before, during or after a contest.

Case 13
Unsure if the Incident Should be Reported to the NJCAA National Office or Not

SITUATION:
In any incident that occurs before, during or after a contest where it could be interpreted that the individuals involved did not uphold the NJCAA expectation of developing and fostering respect for fellow participants, coaches, officials and or spectators, should this incident be reported to the NJCAA National Office?

ANSWER:
It is the expectation of the NJCAA that all participants will recognize their responsibility for proper conduct before, during and after every contest. The rule of thumb should be to report all incidents. Just because the incident is reported does not automatically mandate that suspensions will result. It is better to report and have the incident reviewed and find no violation then to not report and have an issue of non-compliance for failing to report which results in additional sanctions.
