MESSAGE FROM THE DIRECTOR OF ATHLETICS

Welcome to Wilmington College. We are pleased that you have chosen to participate in athletics at W.C. We have prepared this booklet as a guide to help you as a student-athlete while at the College.

It is important for you to realize that participating in intercollegiate athletics is a privilege, which comes with high physical, emotional and time demands. Student-athletes are often seen as “highly visible”. With that, you have a special responsibility as a Quaker student-athlete to conduct yourself in a way that reflects well upon yourself, your teammates, your coaches, your Athletic Department and the College as a whole. Being a Quaker student-athlete is about demonstrating leadership and accepting responsibility.

Your primary purpose for being at Wilmington College is to receive a quality education. We expect you to work hard, study diligently and give your utmost to achieve your full potential. The Athletic Department is here to assist you in achieving your desired goals as a student, an athlete, and as a person. We sincerely hope that we will provide you with the opportunity and the means for a rewarding experience that will help enrich your life.

Terry A. Rupert
Director of Athletics
ATHLETICS PROGRAM VISION STATEMENT

Wilmington College’s athletics program vision is to be recognized as the Division III national model for intercollegiate athletics programs for the 21st century by exemplifying the principles and practices of a winning athletics program will commit to the overall quality of the educational experience of the student-athlete.

The athletic program will:
- Promote and recognize academic excellence;
- Integrate good sportsmanship;
- Instill the Quaker values of integrity, service, peace and social justice; and
- Create an environment of civility, respect and trust for others.

ATHLETICS PROGRAM PHILOSOPHY STATEMENT

As Wilmington College places the highest emphasis on the overall quality of the educational experience, the athletics program likewise affirms academics as the highest priority in the life of student-athletes. In so doing, we seek to strengthen the integration of athletics program objectives with academic and developmental objectives.

Recognizing that students have needs and interests that go beyond the scope of academic life, the College is committed to providing an intercollegiate athletics program consistent with those needs and interests. Recognizing further the positive impact of athletics participation on individual development, and consistent with the College’s mission, the athletics program seeks to encourage attitudes of integrity and fairness, respect for others and dedication to goals.
The athletics program, consonant with NCAA Division III and the Ohio Athletic Conference rules and regulations, is guided by the following principles:

1. Place special importance on the impact of athletics on the participants rather than on the spectators and place greater emphasis on the internal constituency (students, alumni, and institutional personnel) than on the general public and its entertainment needs.
2. Award no athletically related financial aid to any student.
3. Encourage the development of sportsmanship and positive societal attitudes in all constituents, including student-athletes, coaches, administrative personnel and spectators.
4. Encourage participation by maximizing the number and variety of athletics opportunities for students.
5. Assure that the actions of coaches and administrators exhibit fairness, openness and honesty in their relationships with student-athletes.
6. Assure that athletics participants are not treated differently from other members of the student body.
7. Assure that athletics programs support the institution’s educational mission by financing, staffing and controlling the programs through the same general procedures as other departments of the institution.
8. Provide equitable athletics opportunities for male and females and give equal emphasis to men and women’s sports.
9. Give primary emphasis to regional in-season competition and conference championships.
10. Support student-athletes in their efforts to reach high levels of athletics performance, which may include opportunities for participation in national championships, by providing all teams with adequate facilities, competent coaching and appropriate competitive opportunities.
PRINCIPLES OF LEARNING FOR QUAKER ATHLETICS

1. Quaker athletics is committed to engaging student-athletes in active learning. Active learning opportunities encourage experimentation, application, involvement, reflection, and advance more complex ways of thinking.

2. Quaker athletics helps students to develop coherent values and ethical standards. Student-athletes are challenged to identity, examine, and construct meaningful values for a life learning and responsible citizenship.

3. Quaker athletics sets and communicates high expectations for learning. Student-athletes hear clear expectations regarding a wide range of experiences and competencies, including academic performance, individual and community responsibility, and commitment to team goals.

4. Quaker athletics uses resources effectively to achieve institutional mission and goals. Financial, material, and human resource are focused on enhancing student-athlete learning and the overall experience.

5. Quaker athletics forges educational partnerships that advance student-athlete learning. Collaboration with student-athletes, faculty, administrators, and others provides multiple perspectives on shared commitments and fosters healthy decision-making.

6. Quaker athletics builds supportive and inclusive teams. Student-athlete learning occurs best in a safe and caring community that values diversity, promotes belonging, and demands social responsibility.
The Ohio Athletic Conference is the third oldest existing collegiate conference. During the 2002–2003 academic years, it celebrated its Centennial. Founded in 1902, the OAC is predated only by the Michigan Intercollegiate Athletic Conference and the Big Ten. The OAC sponsors championships in 21 sports – 11 men’s and 10 women’s. The present OAC membership consists of ten private, liberal arts colleges in Ohio.

Baldwin Wallace University  Berea, Ohio
Capital University  Columbus, Ohio

Marietta College  Marietta, Ohio
University of Mount Union  Alliance, Ohio
Muskingum University  New Concord, Ohio
Ohio Northern University  Ada, Ohio
Otterbein University  Westerville, Ohio
Wilmington College  Wilmington, Ohio

NCAA

Besides competing in the OAC, Wilmington College also competes in the NCAA sanctioned events. Wilmington College is a Division III member of the NCAA. Division III is the largest division in the NCAA with over 424 member institutions and over 136,000 student-athletes competing for 27 division sponsored national championships.
Equipment Room Policies and Procedures

The equipment room and surrounding areas are provided for the varsity and junior varsity sports at Wilmington College. The general functions include:

1. Provide equipment needed to perform sport.
2. Issues and maintains team uniforms and laundry.
3. Provide services for the performance of each team for their sport with the cooperation of coaches, athletes, and equipment personnel.

Equipment Room Services

The equipment room serves several areas for college athletics. It is the responsibility of the head equipment manager to fit all equipment for each athlete. The equipment manager only will do all issues and fittings of equipment on a one on one basis.

1. Practice, laundry is to be issued from the laundry room. Athletes will be issued only their laundry. The college will launder no personal laundry.
2. Soiled laundry should be returned to laundry window immediately after practice.
3. Gaming uniforms should be returned to laundry window after game.
4. Removal of training room towels for personal use is prohibited. This will result in fines to an athlete.
5. Non-compliance of these requests will be directed to coaches and athletic director.

Several student equipment managers work in the equipment room area. They are here to assist the equipment manager and should be given the same courtesy and respect. At no time do student managers make major decisions regarding fittings of the equipment, field equipment, or athletic set-ups. Student managers are responsible for assignments made by the equipment manager. Any problems occurring when the equipment manager is not available should be referred to the Director of Athletics.

Equipment Return and Charges

Athletic department policies on the equipment and supplies issued to student-athletes holds those individuals completely responsible for their care and return. Student-athletes are required to sign a complete policy statement for equipment can be issued.

Game and Practice Equipment

Equipment will be picked up at the appointed time. Your coach and the equipment manager will set the time. All student/athletes will sign for all equipment issued and be responsible for its care and return. All equipment issued by the athletic department through the equipment manager or their designee within 5 days after the last event. If an athlete fails to return his or her equipment in
acceptable condition within the specified period, he or she will be billed the cost of replacing the equipment.

Game Equipment (Home and Away)

Home Contests (game) – return all equipment the day of your event or contest through the chute in the laundry room. Away Contests (game) – return all equipment when you arrive back on campus through the chute in the laundry room. If you are not returning to campus with the team, have a teammate return equipment to proper area. Away (overnights, weekends) – all equipment will be turned in to proper area Monday following the game.

All personal equipment will be removed within 3 days after the last athletic even of the season. Equipment loaned out during the summer must be returned to the Equipment Manager prior to the first day of school.
Section I: Eligibility for Athletic Participation

All student-athletes desiring to participate in intercollegiate athletics must be examined by a Wilmington College team physician or his designee and declared physically eligible to participate in athletic activity. Physical examination forms will be sent to all student-athletes via email over the summer. These forms are housed in an online database called “Privit”, and include a medical history, personal information, and insurance information. Forms must be completed before student-athletes can be cleared for competition and/or examined. The equipment manager will withhold athletic equipment from all ineligible athletes until their physical file is complete. Every athlete must complete a new physical each academic year.

Section II: Athletic Training Services

Practice Coverage

The athletic training staff will provide athletic training coverage for all in season. Intercollegiate contact sport practices. The athletic training room will be open between the hours of 9:00 a.m. – noon and 2:00 – 6:00 p.m. on weekdays during the fall and spring semester.

Game Even Coverage

All home game events for intercollegiate sports will have a certified athletic trainer in attendance. A certified athletic trainer will travel to away events as available.

Range of Service

Any injury needing treatment will be evaluated by a certified athletic trainer. If the certified athletic trainer is not available, the athlete will be referred to the nearest medical facility if the injury requires emergency care. All injuries needing treatment or emergency care beyond the capabilities of our staff will be referred to a team physician, consulting physician, family physician or an emergency treatment facility. This decision is based on the nature of the injury, present circumstance and shall be made by the certified athletic trainer on duty. Any athlete requiring a physician’s care for an athletic related injury must coordinate their appointment through the certified athletic training staff. This is so all in insurance and billing matters can be taken care of correctly and promptly, otherwise the student-athlete may be responsible for all bills incurred. We have an excellent staff of team physicians that include Dr. Shaun Swick, medical director for Wilmington College and Dr. Timothy Kremchek of Beacon Orthopedics. Dr. Kremchek provides Wilmington College with one of his board certified orthopedic fellow who makes weekly visits to campus. Beacon Orthopedics also has a wide range of specialists and services that are at our disposal if needed. Wilmington College also has a relationship with Drayer, Physical Therapy to help us with any long-term physical therapy needs.
Section III: Usage of Athletic Training Facility

The Wilmington College Athletic Training room is located on the lower level of Hermann Court. The normal operational hours will be posted each semester during the academic school year. The facility is closed during the summer session.

The Athletic training facility is staffed by Athletic Training Students under direct supervision of certified athletic trainers. The facility possesses several prescription modalities that may be used under the supervision of a certified athletic trainer only. The following rules apply to everyone for the use of this facility.

1. Only members of the Wilmington College Athletic Training Staff can administer services in this facility unless supervised by a staff of certified trainer. Coaches or athletes may not use the facility unless supervised by a staff member.

2. Access to the equipment and supplies of the training room may only be through a staff member. Nothing is to be removed from the training room without permission of a staff member.

3. The training room is a medical facility and must be kept clean and sterile. All athletes must remove dirty clothing and shower before entering for treatment.

4. At no time will force play or inappropriate behavior be tolerated. Athletes will be asked to leave if their conduct is inappropriate.
Wilmington College Drug Test Policy

Each athlete is required to sign an NCAA participation form prior to competition. Upon completion of this form each student-athlete agrees that they can be randomly tested for recreational drugs, ergogenic aids and over-the-counter supplements. Random test can be performed at any time during the athletic and academic year. The athlete will be randomly selected using the SportsWare software package.

Athletes will be notified by a staff athletic trainer. The athlete will be required to report to the health center before noon the following day provide a urine sample. The sample will be tested in the clinic. If further testing is needed, it will be sealed and set transported to a medical lab. The results will be known within 48 to 72 hours.

Positive Drug Test Result

Wilmington College Administered Drug Test

A Wilmington college student-athlete who tests positive for a banned substance (including but not limited to: street drugs, performance-enhancing supplements, and abuse of prescription medications) shall be suspended from practice and competition.

Suspension will last until a negative test is obtained by appropriate means. A student-athlete has 24 hours from the time initial results are obtained to produce a new sample as a means of appeal. A second positive sample will result in a suspension determined by the head coach and athletic department administration.

Student-athletes that test positive for substances and random test or those administered based on suspicion will agree to appropriate counseling and educational sessions. These must be documented and approved by athletic administration and the head coach.

Suspension will be determined on an individual basis. The length of the suspension will be set by the head coach and athletic administration or can be taken from the NCAA policy listed in item 18.4.5.1 Duration of Ineligibility.

Failure to submit to or produce a sample for a test will be considered a positive test. Student-athletes will be suspended until they produce a negative sample.

Samples will typically include a panel for street drugs, prescription medications, performance-enhancing supplements, and anabolic steroids.
In preparation for the upcoming athletic season, we want to provide you with information about the accident, medical insurance our institution carries for your student-athlete. The institution purchases in excess basic accident insurance policy through Mutual of Omaha. The policy covers medical expenses arising from athletic injuries up to a $75,000 limit and excess of any other available accident/health insurance (such as through your insurer). The NCAA also provides a “catastrophic” medical policy, also excess of other insurance, with much higher limits in the event of serious injury. This coverage is paid for by the institution and in order for it to remain affordable we require all student-athletes to maintain a primary insurance to participate. The accident, medical insurance we carry applies only to covered athletic injuries and is not a replacement for primary accident/health insurance.

All student-athletes, student trainers, student coaches, student managers, and cheerleaders caring primary insurance must provide the school with either a card showing the policy in force for a front and back copy of the card to be kept on file by the institution. If at any time this coverage expires during the school year, the athletic department must be notified. We know employment situations can change, and we need to know what coverage is in place in order to provide the best care to student-athletes and help manage the claims process efficiently. Our trainers and coaches will carry all insurance information with them when teams and athletes travel and will provide this information while traveling.

Our policy carries a deductible of $1000.00. This deductible will be reduced as payments are made by the primary insurance company. Once the primary insurance company has made payments equal to or greater than our deductible, our excess policy deductible will be satisfied. If any portion of the deductible is not satisfied by the primary insurance company. This amount will be the responsibility of the student-athlete and/or parent/guardian. Also, our policy does have certain limits and may not pay all charges in full.

Please note most primary insurance plans offered through employers have requirements for dependents over the age of 18, and it is important to comply with such requirements in order for coverage to continue to apply your son/daughter. One requirement may be to provide a schedule proving that your student-athlete is a full-time student. If you are a member of an HMO or PPO, we recommend that you contact them and make sure you understand their policies with regard to dependent students who are going to school out of the network area. In some cases, the company will set up a “guest membership” for dependents in the area of temporary residence. If this is the case, you should attempt to have this set up student-athlete prior to their leaving for school.
WHAT DOES NCAA DIVISION III HAVE TO OFFER?

Division III athletics offers student-athletes the opportunity to become well-rounded individuals who successfully integrate athletics and academics. Student-athletes are integrated into the student body, and they experience the full range of college life.

Division III athletic departments place special importance on the impact of athletics on the participants rather than on the spectators. The student-athletes experience is of paramount concern.

Division III athletics feature athletes who received no financial aid related to their athletic skills and athletic departments that are staffed and funded like any other department in the university. Division III athletics encourages the development of sportsmanship and positive social attitudes. Coaches and players treat each other with respect, and administrators work to foster a positive competitive environment.

Division III athletics is committed to providing equitable athletic opportunities for both genders and gives equal emphasis to men's and women's sports.

Division III athletics encourages participation by maximizing the number and variety of athletic opportunities available to student-athletes, placing primary emphasis on regional in season and conference competition.

ABOUT WILMINGTON COLLEGE'S STUDENT-ATHLETE ADVISORY COMMITTEE

Mission Statement

The mission of Wilmington College's student-athlete advisory committee is to enhance the overall student-athlete experience by promoting opportunity, rejecting student-athlete well-being and promoting a positive student-athlete image. SA AC will serve to extend pride and spirit to the rest of Wilmington College and also to the Wilmington community.

Purpose

The purpose of SA AC is to build a sense of school pride among students. This will be accomplished through social events, sporting events, community service and other SA AC sponsored occasions. These events will promote togetherness and build a strong community among the athletes of Wilmington College. This community will enable the student-athlete's voices to be heard within their school, their administration and their community area. The overall duty of Wilmington College is student-athlete advisory committee is to promote a more positive student-athlete image on campus and in the community.
WHAT ARE THE ACADEMIC STANDING POLICIES?

The academic progress of all students at Wilmington College is reviewed at the conclusion of each semester in order to determine the academic standing of each student. Good standing is determined by the following criteria:

1. The student must average 12 credit hours with passing grades of D or better during full-time semesters enrolled at Wilmington College. (However, credits earned during the summer session count toward good standing. Even if the student is taking less than 12 credit hours)

   **AND**

2. The student must complete EN101 (and EN100 if required) with a grade of C- or better after one attempt.

   **AND**

3. The student must have a minimum cumulative GPA of:
   1.80 at close of first semester at Wilmington College
   2.00 at close of all subsequent semesters.

   **Please see the undergraduate catalog (students will receive this at an orientation at the start of fall term) for more comprehensive information on Wilmington College Academic Regulations**

Academic Probation

Students who do not maintain good standing will be placed on academic probation for the following semester. Students who meet the criteria for good standing at the conclusion of any semester will return to academic good standing. Students on academic probation are eligible for intercollegiate athletic competition and may be eligible for other extra-curricular activities as well.

Academic Suspension and Dismissal

Students who do not meet the requirements to regain good standing at the conclusion of a semester on academic probation will be subject to academic suspension. In addition, any student whose semester GPA falls below a 1.00 will be subject to immediate suspension. Students subject to academic suspension or dismissal may make a written appeal to the Academic Standards and Appeals Committee. If the Committee views the appeal favorably, the student will be allowed to remain on academic probation for an additional semester. Students should consult with the Associate Dean for Academic Affairs about this appeal process.
Wilmington College has athletic facilities much larger schools envy. Our soccer teams play at Townsend Field at Williams Stadium; and the cross country meets are run through Hazard Arboretum.

Hermann Court, WC’s athletics complex, features the modern 3,500-seat Fred Raizk Arena that is home to the College’s volleyball and men’s and women’s basketball teams. In the spring, the track and field teams train and compete on the all-weather Beckett Track; the softball team plays at the campus’ top-notch softball field; and the baseball team competes at Tewksbury-Delaney Field.

All athletic facilities, fields and arenas are contiguous parts of the campus. Also, the College features a natatorium/swimming pool, multiple practice fields, a new weight training room and a cardio fitness center.

The College’s newly expanded athletic training room is a modern facility designed to facilitate practical experience for our athletic training majors, as well as keep our athletes in top shape.

Wilmington College’s $10.2 million Center for Sport Sciences (CSS) represents a unique blend of academic, athletic, recreational, medical, and commercial elements rarely seen on the NCAA Division III level. The CSS is home to WC’s nationally prominent athletic training program and other sport sciences, and, with its 40-by-40-yard, indoor turf field and related athletic amenities, accommodates training for essentially all of the college’s 20 varsity sports teams, in addition to giving students options for co-curricular and recreational activities.

Also, Wilmington features a 24-stall equine center with a 72 x 152-foot indoor arena.
