THE CAMP

The basketball camp, directed by Coach Shawn Conrad teaches the fundamentals and theories of basketball to area boys and girls.

The camp goal is to give each camper the opportunity to leave the week a better person. The camp strives to give each camper a chance to learn the proper techniques of the game of basketball.

All the fundamentals of the game are stressed each day. The campers are encouraged to work to their individual abilities with the attention of coaches and counselors.

Each camper on the first morning of camp is evaluated by the staff and placed into a league well within their own ability. This allows for a more enjoyable week and a positive learning atmosphere.

The campers are broken up into different brackets based on ability and age. We try to push the players to play up a level whenever possible. Each player is allowed to move up or down a bracket based on how comfortable they feel playing against the competition. The camp stresses the “fun” about basketball while learning about the game.
