

Presto Stats Setup Guide – Revised 7/30/2021

To get started, please either log into your website (yoursite.com/admin) if you have a PrestoWeb site or log into <https://prestosports.com/admin> if you have either a SIDHelp website or are using a third party vendor. If you do not have a login, please contact our support team at web@prestosports.com. Once you log in, you will see your active seasons on the far right menu.

From there, you can choose any season for any sport. Please note our team will be adding seasons as we migrate data from Dakstats into the PrestoSports data network. For this example, we should choose the "NAIA Baseball 2020-21" season. Once you click that season, you will see a "Roster" tab.

Click in that tab and verify that your roster has been entered. If your roster has not been entered, please enter your roster by clicking either the "add new player" button, the "import TRO/TRX roster button, or the "import many players" button. ([Help Article Here](#))

Presto Stats Setup Guide – Revised 7/30/2021

Once your roster has been entered, click the “Schedule” tab. If the event that you wish to stat has not been entered, please do so by clicking either the “add event” button or the “import CSV” button. ([Help Article Here](#))

The screenshot shows the PrestoSports interface. At the top, there's a navigation bar with 'Game day', 'Broadcast', and 'Account'. Below that, a secondary bar has 'Scores', 'Upcoming', 'Seasons', and 'Alerts'. The main header reads 'Seasons: Baseball: NAIA Baseball 2020-21'. Below this, there are tabs for 'Overview', 'Schedule', 'Stats', 'Links', and 'Roster'. The 'Schedule' tab is active, showing a 'List Calendar' for 'Mid-America Christian'. A table lists three games with columns for 'Date', 'Opponent', and 'Status'. Each row has 'Edit' and 'Remove' buttons. A red arrow points to the '[add event]' button above the table. To the right, there are links for '[import CSV]' and '[export CSV]', and a note about clicking on a date for more information.

Date	Opponent	Status	
2/26/2021 12:00 PM CST	vs. Evangel	2-0 Win Final	Edit Remove
2/26/2021 2:30 PM CST	vs. Evangel	2-10 Loss Final	Edit Remove
4/20/2021 12:00 PM CST	vs. Oklahoma Wesleyan (neutral)	-	Edit Remove

To enable your events for PrimeTime ([Help Article Here](#)), also known as “live stats display”, please sign into <https://naiastats.prestosports.com/admin> and go to your schedule. Once you have accessed your schedule, click the “edit schedule” button next to “add event”. From there, you can check any event(s) to generate a live stats link by using the dropdown menu below. This will allow fans to follow the event play-by-play from the composite schedule on the naia stats site [here](#).

***Please note that you should only be signing into <https://naiastats.prestosports.com/admin> to enable PrimeTime. Everything else (adding rosters, schedules, and statting events) should be done at either your website (yoursite.com/admin) if you have a PrestoWeb site or <https://prestosports.com/admin> if you have either a SIDHelp website or are using a third party vendor.**

Launch PrestoStats

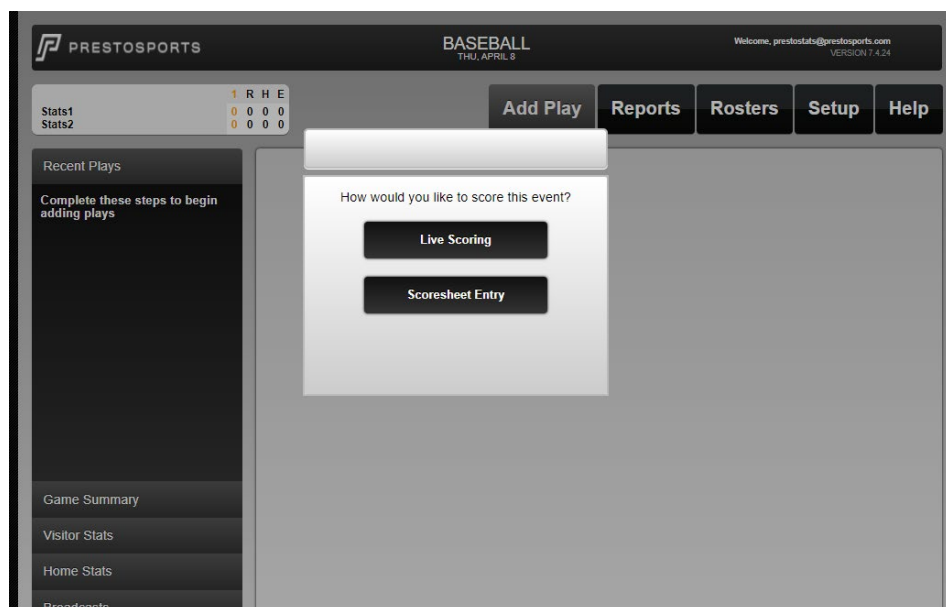

[Oklahoma Wesleyan TRO file]
[Oklahoma Wesleyan TRX file]

You can also access the "Launch PrestoStats" from the default view in Gameday when you initially sign in. On the calendar, your event will show under the date it has been added. You will also have three "Action" tabs for those events. If you click the tab on the far right (looks like a bar graph), you will also be able to Launch PrestoStats.

Presto Stats Setup Guide – Revised 7/30/2021

Once you click the “Launch PrestoStats” button, a new tab will open that will allow you to stat the event. When the tab opens, you will be given the choice of stating the event in either “Live Scoring” mode or “Scoresheet Entry” mode.

If you are statting the event after a game has completed and just want to enter the box score (not the play-by-play), choose “Scoresheet Entry” mode. If you are statting the event live and want to include the play-by-play, you should choose the “Live Scoring” mode. If you choose “Scoresheet Entry”, you will be prompted to add a start time, a location and at least one player in the starting lineup for either one or both teams. It is important to note that Scoresheet Entry mode only requires you to input statistics for one team and not both. If you choose “Live Scoring”, you will be asked to also add a starting lineup for the opposing team in addition to

Presto Stats Setup Guide – Revised 7/30/2021

your team. Once you add a start time and location, you can now set your starting lineups from the “Roster” tab.

The screenshot shows the 'Roster' tab in the Presto Stats interface. At the top, there are tabs for 'Stats1' and 'Stats2'. Below these are buttons for 'Add Play', 'Reports', 'Rosters', 'Setup', and 'Help'. The main area is titled 'Roster' and contains a table of players. A red arrow points to the 'Selected starters (0)' button at the bottom of the roster table.

Start	Participation	No.	Pos.	Name	B/T	Edit	Remove

Starting Lineup Change Lineup Set Participation Wipe Roster

If you chose “Scoresheet Entry” mode, you can also add your players who were subbed in by setting them for “Participation” from the “Set Participation” tab above. Once your lineups have been set, you can now start adding either your box score if you are in “Scoresheet Entry” mode

The screenshot shows the 'Adding play' screen in the Presto Stats interface. It includes a 'Game Information' section with a dropdown for 'How many innings did the game go to?' set to 9. Below this is a 'Final Line' table for Stats1 and Stats2. There are also sections for 'Winning Pitcher' and 'Losing Pitcher' with dropdown menus and 'Record' buttons. A 'Next' button is at the bottom.

	1	2	3	4	5	6	7	8	9

Next

Or your play-by-play if you chose “Live Scoring”

Presto Stats Setup Guide – Revised 7/30/2021

Once you are finished scoring, to wrap up the game in "Live Scoring" mode, click "Input Pitching Decisions" to select the winning/losing pitchers, update their records and assign a save, if needed. Then, click "Complete Game Information" to update records, finalize the game information, and click "save".

PrestoSports does have a help center document that has links to cheat sheets and sample plays for each sport located [here](#) and a video demo for PrestoStats for [Basketball](#) and [Baseball/Softball](#)

Additionally, please feel free to test our stats service by visiting <http://tryprestostats.com/admin> and signing in with the username, "prestostats@prestosports.com" and the password, "tryprestostats".

After you log in, you can click "Volleyball Demo", for example, on the far right under "View All Seasons". From there, you can create any event using the team names "Stats1" and "Stats2" and launch the stats!

And as always, if you need additional help, please do not hesitate to reach out directly to the PrestoSports support team by sending them an email at web@prestosports.com or by calling them at 877-778-7382 option 2.
