Visiting Recruit Requirements

All recruits coming to campus who will be participating in practice or any sort of physical activity with a team, are required to turn in the necessary medical forms prior to the prospective student athlete’s arrival.

- Saint Anselm Athletic Participation Medical Questionnaire Report Form
- Physical Examination Form
- Sickle Cell Trait Testing Form OR Sickle Cell Waiver Form
- Information Release and Assumption of Risk Form

*If your health care provider will not perform the sickle cell solubility test, contact Quest Laboratories at 866-226-8046. Tell them you are a collegiate athlete requiring testing. They will inform you of the closest facility in your area to have your testing completed. Quest has partnered with the NCAA to perform the test at a nominal fee.
