Our on ice skills will include high tempo flow as well as battle situations. Our off-ice skills will focus on the detail work such as stick handling, shooting, and passing. Strength and conditioning sessions will introduce players to the off ice training that is necessary to becoming a high-level hockey player. While our hockey IQ sessions will focus on one of the most important parts of any hockey player, how they see and think the game. Each day will conclude with the campers scrimmaging to show what they have learned through the day.

**About The Coaches**

**Susan Cavanagh Head Coach - Joakim Flygh**

Joakim Flygh, who went to the NCAA Tournament five times as an assistant coach at Harvard and Minnesota-Duluth, was named Yale's head women's ice hockey coach on July 28, 2010. Flygh (whose name is pronounced YOU-a-keem FLEEG) is the 10th coach in Yale women’s ice hockey history.

In 2014-15, Flygh led the Bulldogs to their best winning percentage in eight years, finishing with the second-most overall wins in school history (15). Yale also made its second straight ECAC Hockey Championship playoff appearance. The team tied the school record for wins in conference games with 12 and scored the second-most goals in a season in school history (93).

In 2013-14 Flygh led the Bulldogs to their first ECAC Hockey Championship playoff appearance since 2008, and their first postseason win since 2005 (a 3-2 double overtime win at then-No. 5 Harvard Feb. 28 in game one of the quarterfinals). The Bulldogs eventually lost the series two games to one (including a double overtime loss in game two), falling one goal shy of the program’s second appearance at the ECAC Hockey semifinals.

**Associate Head Coach - Rob Morgan**

**Assistant Coach - Jessica Koizumi**

**Goalie Coach - Chris Ardito**
