SOUTH PLAINS COLLEGE IS...

a comprehensive, two-year community college that serves the greater South Plains area of Texas.

Through the Arts and Sciences Division, the College offers students 43 academic transfer options in 22 disciplines which lead to the Associate of Arts and Associate of Science degrees. Students who attend SPC complete their freshman and sophomore course work and then transfer to a university to complete the remaining years of bachelor's degree program. The athletic training staff will help students plan for successful transfer.

SPC as part of the Western Junior College Athletic Conference in athletics. South Plains has a legacy of success. Winning 45 National Champions, as well as producing 200+ All Americans, countless professional athletes and Olympians.

WHAT DO ATHLETIC TRAINERS DO?

Athletic trainers (ATs) are highly qualified, multi-skilled health care professionals who collaborate with physicians to provide preventative services, emergency care, clinical diagnosis, therapeutic intervention, and rehabilitation of injuries and medical conditions. Athletic trainers work under the direction of a physician as prescribed by state licensure statutes.

WHAT EDUCATION DO ATHLETIC TRAINERS RECEIVE?

Athletic training follows a medical-based education model. All athletic trainers must graduate from an accredited master’s program. Athletic training students are educated to provide comprehensive patient care in five domains of clinical practice. They are trained in prevention clinical diagnosis emergency care & rehabilitation. They are also fully trained to provide organization and professional health and well-being.

THE ATHLETIC TRAINING PROGRAM AT SOUTH PLAINS COLLEGE IS...

an undergraduate internship program which prepares students interested in pursuing a career in the health care profession to transfer to a 4-year university. Our former students have moved on to numerous 4-year universities, in a variety of health care programs including athletic training, physical therapy, nursing, and more.

AT students at SPC have the opportunity to work with many of the nation’s top athletes and coaches, and work with an amazing sports medicine staff, including Master of Athletic Training students from nearby Texas Tech University Health Sciences Center, giving them a vast array of sources to learn from.

The AT program at SPC is unique in that our students have the opportunity to learn hands-on from the start. With daily educational opportunities, and weekly in-service classes our students separate themselves from other applicants at the next level.

ATHLETIC TRAINERS ARE TRAINED IN

- Prevention, evaluation and rehabilitation of orthopedic injuries
- CPR and AED use
- Manual therapy
- Recognition and treatment of concussion
- Recognition of cardiac arrest
- Heat stroke

ATHLETIC TRAINERS WORK IN

- Educational institutions (middle schools, high schools, colleges/universities)
- Professional and amateur sports organizations
- Hospitals and clinics
- Corporate workplaces
- Police and fire departments
- The military
- Performing arts
South Plains College Athletic Training

The Athletic Training Department at South Plains College is dedicated to supporting student athletes’ pursuit of their athletic and personal goals by providing them with quality health care and complete sports medicine services. Our goal is to provide a division 1 experience at the junior college level, and we continually improve our education, equipment, and facilities to aid in our mission.

SPC is home to one of the most extensive junior college athletic training staffs in the country. Our team consists of two certified athletic trainers with a multitude of experience, three graduate assistant athletic trainers from Texas Tech University Health Sciences Center Master of Athletic Training Program, and an average of ten athletic training students from the South Plains College Athletic Training Program. South Plains College Athletic Training Staff works under the direction of orthopedic surgeons at Lubbock Sports Medicine, and utilizes the same resources and quality of care as other colleges and universities in the area.

South Plains College is comprised of two outfitted athletic training rooms located in the Texan Dome and at the SPC Track. The athletic training staff also utilizes an equipped rehabilitation room, multiple weight room facilities, as well as resources at the SPC Physical Education Complex and Natatorium.
